- (a) **Funds included:** Returns are required from the following groups of pension and provident funds:
 - (i) Registered **privately-administered funds**;
 - (ii) registered **foreign funds** which hold assets in South Africa to cover their liabilities to members in South Africa, but not foreign funds which furnish the Registrar of Pension Funds with policies of guarantee or bankers' guarantees in respect of their liabilities to members in South Africa;
 - (iii) **government-controlled (official) funds**;
 - (iv) funds established in terms of agreements under the **Industrial Conciliation Act** (Industrial Council Agreements); and

- (b) **Funds exempted:**
Underwritten funds; that is, funds operating exclusively by means of insurance policies or group insurance schemes with insurers, need not render returns.
- (c) **Data at market values:**
 Quarterly balance sheet statistics should reflect **market values** of the data relating to the pension or provident fund in South Africa and should in the case of information relating to the fourth quarter, be comparable to the corresponding data reported in your annual return to the Reserve Bank. Data relating to foreign branches of pension funds should be excluded except for direct debt or payments and transfers between the South African head-office and its foreign branch fund(s).
- (d) **Country allocation:**
 Distinguish between amounts pertaining to South Africa and those pertaining to foreign countries by reporting the data in the relevant foreign data item or the appropriate column; liabilities, according to the country of residence of the organisation or person to whom the amounts are due, fixed assets, according to the country where these assets are located, and financial assets, according to the country of residence of the organisation or person on whom the asset claims are held.
- (e) **Transaction values:**
 In the case of the first asset items, transactions are also required and the **actual transaction values**, which may differ from the corresponding changes in the market values, should be recorded. Please note that:
 - (i) **"Purchases"** include the purchase of existing fixed assets, equities or bonds, investment in new fixed assets and improvements, new issues of equities or bonds including subsequent installments; and the exchange of equities or bonds.
 - (ii) **"Sales"** include the selling of existing fixed assets, equities or bonds; redemption of equities or bonds by the issuer; and the exchange of equities or bonds.

- (h) **Nominal values:**
 The **nominal value of equities or bonds** held at the end of the period under review, should be indicated in column 5 in the case of items 8 to 15.
- (i) **South Africa:**
 South Africa shall mean the Republic of South Africa, consisting of nine provinces, namely Eastern Cape, Mpumalanga, KwaZulu-Natal, Northern Cape, Northern Province, North-West, Free State, Gauteng and Western Cape.
 Note that Botswana, Lesotho, Namibia and Swaziland are regarded as foreign countries.

 A foreign branch fund is that part of a South African registered fund which operates as a more or less self-contained fund in a particular foreign country for the benefit of members in that country; contributions are collected and invested in **that** country while benefits are paid from the fund maintained in **that** country. A foreign branch fund is a resident of the country in which it operates, and therefore a non-resident of South Africa.
