### General guidelines

#### 1. Purpose of survey

This survey is conducted for statistical purposes in order to compile official statements of South Africa's balance of payments and international investment position, returns of which also have to be submitted to the International Monetary Fund (IMF) in terms of section 5 of Article VIII of the Articles of Agreement of the IMF.

#### 2. Authority

The information requested is collected in terms of the regulations published in Government Notices 702 and 703 of 20 April 1956.

# 3. Confidentiality

In terms of clause 4 of the regulations referred to in paragraph 2 above, all employees of the South African Reserve Bank involved in this survey are sworn to secrecy. Over and above this provision, assurance is given that no action of any kind will be taken under the Exchange Control Regulations against any organisation or person on the grounds of information furnished in this survey.

#### 4. Penalty

Refusal or neglect to furnish the information called for is an offence subject to penalty.

#### 5. Duplicate of return

A copy of this return should be retained for reference purposes.

# 6. Queries

Queries should be addressed to: Balance of Payments Division, Research Department, South African Reserve Bank, P O Box 7433, Pretoria, 0001; tel. no. 012 313 3727, fax no. 012 313-3759/4013 or by sending an e-mail to: SARBB21@resbank.co.za.

#### 7. Group structure

Please provide the South African Reserve Bank with a structure of the group of which the reporting company is a part. This structure can be attached to this form.

#### 8. Financial year-end (Please complete)

The reporting organisation	on's financial year-end is	i	and information	in this return	is reported fo	r the yea
ended	20					

Note: Should the financial year differ from the calendar year, all foreign assets and liabilities must be indicated on a calendar-year basis above the figures for the financial year.

#### Definition of terms

A resident of South Africa includes any individual, enterprise or other organisation ordinarily domiciled in South Africa, or who intends to stay in or to establish its headquarters in South Africa for a period of 12 consecutive months or longer. South African registered branches and incorporated subsidiaries of foreign enterprises are regarded as South African residents.

#### An organisation

An organisation means a company, branch, firm, estate, trust, government authority, enterprise or institution.

#### The reporting organisation

The reporting organisation means the organisation in respect of which this return is completed.

#### Domestic

Domestic, for the purposes of this survey, refers to the Republic of South Africa.

#### Foreign

Foreign refers to that which is outside the Republic of South Africa.

#### A direct investment relationship

A direct investment relationship is established when a direct investor (i.e. an individual, enterprise or group of related enterprises) resident in one country owns 10 per cent or more of the ordinary shares or voting stock of an enterprise resident in another country. Direct investment enterprises comprise those entities that are subsidiaries (a non-resident investor owns more than 50 per cent), associates (an investor owns 10 to 50 per cent) and branches (wholly or jointly owned unincorporated enterprises) either directly or indirectly owned by the direct investor. It is important to note that direct investment comprises not only the initial transaction establishing the relationship between the investor and the enterprise, but also all subsequent transactions between them and among affiliated enterprises, both incorporated and unincorporated.

#### An allied organisation or person (AOP)

An allied organisation or person of the reporting organisation could be defined as

- 1. any other organisation or person, domestic or foreign, which owns more than 10 per cent of the total issued voting stock or comparable ownership or voting rights of the aforesaid organisation;
- 2. any other foreign organisation that is an allied organisation of the foreign organisation, which owns more than 10 per cent of the voting rights of the reporting organisation; and
- 3. any other foreign organisation in which the specific "foreign" organisation (i.e. the direct foreign investor) owns more than 10 per cent of the voting rights.

#### The following examples may help to illustrate the concept of an AOP:

- 1. Organisation A in the United Kingdom owns more than 10 per cent of B in South Africa and B owns more than 10 per cent of C in South Africa. In the returns of B and C, A must be treated as an AOP.
- 2. If in the above example A in the United Kingdom owns more than 10 per cent of Z in the United Kingdom and Y in the United States of America, then Z and Y are also AOPs of B and C in South Africa.
- 3. Organisation D in South Africa owns more than 10 per cent of X in Bermuda which, in turn, owns more than 10 per cent of W in France. In the return, X and W must be treated as AOPs.

Organisations with no AOPs must report data in total only for each of the different countries under the heading "Other".

# Industrial classification

Identify the main economic activity of the reporting organisation by ticking only one box in the major divisional level, namely nos 1-10.

<sup>\*</sup> The amounts to be reported must represent the total book values from the foreign organisations' balance sheets and not only the proportionate share of the reporting organisation. All data must be converted into rand. If figures are not available on a calendar-year basis, data for the financial year-ends of foreign organisations will be acceptable.

# Example for the completion of tables (a) and (b)

Assume that the reporting organisation V in South Africa owns 40 per cent of the voting rights of company W in the United States of America (USA). W owns 60 per cent of the voting rights of company X in Canada and X, in turn, owns 30 per cent of the voting rights of company Y in Canada and 25 per cent of that of company Z in Australia. In addition, both V and W own 10 per cent of the voting rights of Z. Suppose further that the paid-up (nominal) value of vote-bearing shares and the total of share premium, reserves and retained earnings in the balance sheets of the various companies are as follows:

	As at 31	December 2020
	Paid-up (nominal) value of vote-bearing shares	Share premium, non-distributable reserves and retained earnings
1. W US\$	500 000	1 250 000
2. X C\$	100	650 000
3. Y C\$	40 000	200 000
4. Z A\$	150 000	600 000

If V is the reporting organisation, particulars of its direct interest in vote-bearing shares of foreign organisations as at 31 December 2020, after conversion to rand, should be reported in table (a) on page 7 as follows:

# (a) Investment held directly by reporting organisation in foreign organisations
