Definition of terms

A resident of South Africa includes any individual, enterprise or other organisation ordinarily domiciled in South Africa, or who intends to stay in or to establish headquarters in South Africa for a period of 12 consecutive months or longer. South African-registered branches and incorporated subsidiaries of foreign enterprises are regarded as South African residents.

An organisation

An organisation means a company, branch, firm, estate, trust, government authority or institution.

Direct investment relationship

A direct investment relationship is established when a direct investor (i.e., an individual, enterprise or group of related enterprises) resident in one country owns 10 per cent or more of the ordinary shares or voting stock of an enterprise resident in another country. Direct investment enterprises comprise those entities that are subsidiaries (a non-resident investor owns more than 50 per cent), associates (an investor owns 50 per cent or less) and branches (wholly or jointly owned unincorporated enterprises) either directly or indirectly owned by the direct investor. It is important to note that direct investment comprises not only the initial transaction establishing the relationship between the investor and the enterprise, but also all subsequent transactions between them and among affiliated enterprises, both incorporated and unincorporated.

Securities

Securities of an organisation include marketable shares, debentures, bonds, loan stock or bearer script issued by that organisation to obtain funds for the purpose of financing its own activities.

Long term/Short term

Long term refers to liabilities and assets with an original contractual maturity of more than 12 months. *Short term* refers to liabilities and assets with an original contractual maturity of 12 months or less.
