The FSF brings together national authorities responsible for financial stability in significant international financial centres, international financial institutions, sector-specific international groupings of regulators and supervisors, and committees of central bank experts. It was established by the G7 finance ministers and central bank governors in February 1999 to promote international financial stability through enhanced information exchange and international cooperation in financial market supervision and surveillance. The FSF is chaired by Roger W. Ferguson, Jr., Vice Chairman of the Board of Governors of the Federal Reserve System. The FSF's Secretariat is based at the Bank for International Settlements in Basel, Switzerland.

The objective of the FSF's regional meetings is to promote wider exchanges of views on financial vulnerabilities and the work underway nationally and internationally to address them. For further information on the FSF, its membership and previous FSF meetings, visit the FSF website at [www.fsforum.org](http://www.fsforum.org).
