

## Notes to tables

### Management companies of collective investment schemes and trust companies – tables on pages S–39 and S–40

From this edition of the *Quarterly Bulletin (QB)*, three new tables, KB258, KB259 and KB260 have been added on pages S–39 and S–40. These tables reflect the aggregated income statement and balance sheet of management companies of collective investment schemes. In addition, table KB253 on trust companies was moved forward from page S–47 to page S–40.

### Change in sequence of *Quarterly Bulletin* tables

Due to the inclusion of new tables, the page numbers of all tables from page S–39 onwards have changed as from this edition of the *QB*.

### National government finance – table on S–54

The taxes on property<sup>1</sup> statistics published in table KB401 on page S–54 have historically included revenue from taxes on financial and capital transactions (securities transfer taxes, demutualisation levy and transfer duties). In compliance with the *Government Finance Statistics Manual 2014*, as recommended by the International Monetary Fund’s 2024 technical assistance mission, these amounts have been reclassified and included in taxes on goods and services from this edition of the *QB*. As a result of this change, the time series on taxes on property as well as taxes on goods and services were revised from 1 April 2019.

### Outstanding rand-denominated debt securities issued in the domestic market – experimental tables on pages E–15 and E–16

As from this edition of the *QB*, the outstanding rand-denominated debt securities issued in the domestic market, measured in both nominal and market values in tables KB256 and KB257 on pages E–15 and E–16 respectively, have been revised to incorporate data on unlisted bond issuance.

---

<sup>1</sup> Taxes on property are taxes payable on the use, ownership or transfer of wealth.
