# ECONOMIC TENDENCIES IN SOUTH AFRICA

INDICES: 1953 = 100

# EKONOMIESE TENDENSE IN SUID-AFRIKA

INDEKSE: 1953=100

## ECONOMIC REVIEW

While internal economic expansion in South Africa, judged by the trend in the gross national product, continued at a relatively slow rate during the second quarter of 1961, some significant changes occurred on the expenditure side of the national accounts. Preliminary estimates indicate, namely, that, excluding seasonal changes, expenditure on consumption declined, while gross domestic saving showed a considerable increase, due mainly to a substantial increase in personal saving.

The increase in gross domestic saving in the second quarter was considerably more than the improvement of about R12 million in the country's net current surplus with the outside world, so that a notable increase also occurred in gross domestic capital formation. While this increase was mainly due to the fact that investment in inventories showed a small increase during this quarter compared with a sharp decline during the first quarter, it also reflected an increase in private fixed investment.

As will be seen from the table below, the decline in consumption during the second quarter was reflected in decreases in the indices of imports and retail sales. Moreover, the indices of the value of building plans passed, the value of property transactions and the discounts and advances of the commercial banks showed declines, whereas the gold production was maintained, and increases were registered in merchandise exports, railway earnings and, more notably, in bank debits. The last-mentioned increase occurred notwithstanding a sharp decline in stock exchange turnover. Judging by the index of employment, manufacturing activity remained relatively stable.

## BALANCE OF PAYMENTS

The balance of payments estimates of South Africa, which are presented in Tables XXXII to XXXIV of this issue, have been comprehensively revised in accordance with the recommendations in the latest edition of the International Monetary Fund's *Balance of Payments Manual*. These revisions consist of, firstly, a new and more detailed classification and presentation of the balance of payments accounts, secondly, the incorporation into the estimates of several new benchmarks and new statistical series, both of which have become available during recent years as a result of the exploitation of new sources of information, and thirdly, a departure in several cases from the concepts used in the earlier estimates, e.g. taxes levied directly on foreign investment income payments are now included in the last-mentioned concept. However, the new estimates do not represent a radical departure from the concepts and procedures previously employed, and the fluctuations in the revised net balance on current account do not differ significantly from those in the old series.

Taking account of these revised estimates, the indications are that South Africa's net current account surplus with the outside world increased from the first to the second quarter of 1961, due mainly to a decline in imports, but also to a small increase in the net gold output. Moreover, a reduction occurred in the net outflow of private capital, largely as a result of the fact that the net outflow of South African resident capital funds was reversed. On the other hand, official and banking institutions accounted for a net outflow of capital during the second quarter as against a substantial net inflow during the first quarter, when drawings were made on the International Monetary Fund and a loan was received from the Import-Export Bank. As a net result, the official gold and foreign exchange reserves declined during the second quarter, compared with a small increase during the first.

As a result of the import control measures, imports declined from R280 million in the first quarter of 1961 to about R207 million in the second quarter, while merchandise exports showed a less than seasonal decline from R229 million to about R222 million. In addition, the net gold output increased by about R5 million, while net current invisible payments remained relatively constant at the high level reached during the first quarter, so that the net surplus on current account improved from R9 million to approximately R21 million.

As against this net current surplus of R21 million in the second quarter, the available information indicates a net outflow of capital in all forms of about R32 million, so that, taking account of omissions and errors in the estimates amounting to

minus R8 million, the country's gold and foreign exchange reserves decreased by approximately R19 million.<sup>1</sup>

Of the net outflow of capital of R32 million, official and banking institutions accounted for R13 million, representing mainly repayments of foreign loans and a reduction in the commercial banks' short-term foreign liabilities, while the balance of R19 million represented the net outflow of private capital which, according to the quarterly returns submitted to the Reserve Bank, was made up as follows:

(1) The net outflow of foreign capital amounted to about R24 million (compared with R21 million in the first quarter and a quarterly average of R29 million in 1960), of which R15 million represented net purchases by South African residents from foreigners of securities listed on the Johannesburg Stock Exchange, as reported by stockbrokers and after adjustment for nominee and direct transactions.<sup>2</sup>

(2) South African resident-owned capital showed a net inflow of about R5 million (largely short-term funds), compared with net outflows of R16 million during the first quarter and a quarterly average of about R9 million during the year 1960.

During the month of May, 1961, import control was intensified and extended, and as from June 17, South African residents were prohibited from remitting funds abroad for the purchase of South African and Rhodesian securities, as in the case of foreign securities generally. While non-residents were permitted to continue selling securities on the Johannesburg Stock Exchange, the proceeds of such sales were to be blocked and could be re-invested only in securities quoted on this Exchange. Following these and other measures referred to in our June issue, the downward tendency in the gold and foreign exchange reserves was reversed, and during July and August an increase of about R22 million was registered.

According to unadjusted preliminary trade figures, imports declined to R75.4 million in July, and then

increased to R86.4 million in August, contrary to the usual seasonal movements during these months, while merchandise exports decreased more than seasonally to R67.9 million in July, and then increased substantially more than seasonally to R78.3 million in August. These figures indicate a considerable decline in South Africa's trade deficit, so that, taking account of the net gold output, which remained on a high level, and, on the other hand, of net current invisible payments, which rose substantially due to a seasonal increase in dividend remittances, it would appear that the increase of R22 million in the gold and foreign exchange reserves during these two months was principally accounted for by a further net surplus on current account. It would also appear, however, that a small net inflow of capital was registered, approximately equal to the identified net receipt of foreign loans by the official and private sectors. This would mean that any net outflow of private foreign capital in other forms during this period was offset by a further net inflow of South African resident-owned capital, or vice versa. Details regarding these movements will become available at a later date.

During the first half of September, the reserves held by the Reserve Bank rose further by R6.6 million to R181.7 million.

#### MONEY AND BANKING

Following a decline of R60 million during the first quarter of 1961, the amount of liquid assets held by the private sector with the banking sector

† Excluding Government stock held by Reserve Bank i.r.o. external debt of the Government.

‡ Increase -; decrease +.

1. The reserves held by the Reserve Bank actually declined by R32 million during the second quarter of 1961, but those held by the commercial banks and the Central Government increased by R13 million.

2. The unadjusted figures reported by stockbrokers are as follows (R millions):

	Purchases by S.A. residents	Sales by S.A. residents	Net Purchases
1961—January	6.1	3.2	2.9
February	5.8	1.9	3.9
March	6.7	2.3	4.4
April	3.5	1.9	1.6
May (revised)	6.2	1.0	5.2
June; 1st to 16th,	3.2	0.6	2.6
17th to 30th	0.3	0.2	0.1
July	1.8	1.5	0.3
August	2.3	2.0	0.3

in the form of money and interest-bearing deposits, rose again by R48 million during the second quarter.

As will be seen from the table above, this increase which occurred notwithstanding reductions totalling R39 million in the banking sector's net gold and foreign exchange reserves and in its claims on local authorities and the private sector, was largely accounted for by the seasonal shift of funds from the Government to the private sector. This shift was reflected in a drop of R81 million in Central Government deposits, as against a decrease of only R15 million in the banking sector's claims on the Central Government, and in an increase of R15 million in net claims on the provincial administrations, representing mainly a decrease in their deposits.

During July, 1961, a further increase of R6 million was registered in the public's liquid assets with the banking sector, so that the increase over the four months ending July amounted to about R54 million. In addition, it should be noted that the public's liquid assets with the Central Government sector in the form of Treasury bills and tax redemption certificates, which had declined by R10 million during the first quarter of 1961, rose by R16 million during the subsequent four months.

In regard to the banking sector's claims on the private sector, which had shown a further increase of R23 million during the first quarter of the year, a decrease of R16 million was registered during the four months ending July. Excluding claims on the discount houses, this decrease actually amounted to R30 million, which equalled the decline in the Reserve Bank's claims on the private sector, mainly on the Land Bank. Such claims of the National Finance Corporation rose by R6 million during this period, but was offset by an equal decline in those of the commercial banks, due to a decline in the banks' discounts and advances. Actually the commercial banks' discounts and advances declined somewhat more than seasonally during the second quarter of 1961, and then rose slightly more than seasonally during July.

## MONEY MARKET

After easing considerably during the first quarter of 1961, when the minimum reserve balances which the commercial banks are required to hold with the Reserve Bank against demand liabilities to the public were reduced from 10 to 6 per cent, and the Government invested a further amount of R27 million of its surplus funds with the commercial banks and the discount houses, the money market tightened during April and May, largely as a result of an unfavourable balance of payments. During the latter period the Government actually withdrew R32 million of its funds invested with the commercial

banks, but the tightening effect thereof was more than offset by heavy Government expenditures.

During the month of June, the Government withdrew the balance of its funds invested with the commercial banks and the discount houses, namely, R25 million, notwithstanding which, Government deposits with the Reserve Bank decreased by as much as R27 million. This seasonal shift of funds from the Government sector was principally responsible for the fact that the money market actually eased slightly during that month, namely to the extent of about R1 million. Moreover, this easing occurred notwithstanding the fact that the minimum reserve balances required from the commercial banks against demand liabilities were increased from 6 to 8 per cent, which meant a withdrawal of funds from the market of about R17 million.

### *Changes in Liabilities and Assets of the Reserve Bank*

Total	+ 25	- 9	+ 1	+ 12	- 41

\* Increase -, decrease +.

Subsequently during July, with funds continuing to shift from the Government sector, and with the balance of payments taking a favourable turn, the money market eased more substantially, namely, to the extent of about R12 million, but this was followed by a considerable tightening of R41 million during August, when not only Government deposits with the Reserve Bank showed a substantial net increase of R28 million (due mainly to a decline in Government expenditure), but a withdrawal of funds

from the market amounting to R16 million occurred due to the further increase to 10 per cent of the commercial banks' minimum reserve requirements in respect of their demand liabilities to the public. In this connection it should be noted, however, that the tightening of the money market during August occurred towards the end of that month, so that the effect thereof on money market interest rates was only seen early in September. Thus, for example, the treasury bill tender rate which had increased

from 4.22 per cent at the end of March to 4.69 per cent at the end of May, declined to 4.18 per cent by August 25, and then remained at this level on September 1, whereafter it increased to 4.28 per cent on September 8, and showed no change on September 15.

T. W. de Jongh,  
Head: Department of Economic Research and Statistics.

# EKONOMIESE OORSIG

Terwyl binnelandse ekonomiese uitbreiding in Suid-Afrika, geoordeel volgens die neiging in die bruto volksproduksie, gedurende die tweede kwartaal van 1961 teen 'n relatiewe stadige koers voortgeduur het, het sekere betekenisvolle veranderings aan die uitgawekant van die nasionale rekeninge plaasgevind. Voorlopige ramings toon naamlik dat, uitgesonderd seisoensbewegings, besteding op verbruik afgeneem het terwyl bruto binnelandse besparing 'n aansienlike toename getoon het, hoofsaaklik weens 'n noemenswaardige stygging in persoonlike besparing.

Die toename in bruto binnelandse besparing in die tweede kwartaal, was aansienlik meer as die verbetering van ongeveer R12 miljoen in die land se netto lopende oorskot met die buiteland, sodat 'n merkbare toename ook voorgekom het in bruto binnelandse kapitaalvorming. Terwyl hierdie toename hoofsaaklik toe te skryf is aan die feit dat belegging in voorrade 'n klein toename gedurende hierdie kwartaal getoon het vergeleke met 'n skerp afname gedurende die eerste kwartaal, weerspieël dit ook 'n stygging in private vaste belegging.

Soos uit die onderstaande tabel blyk, is die afname in verbruik gedurende die tweede kwartaal weerspieël in afnames in die indekse van invoere en kleinhandelsverkope. Verder het die indekse van die waarde van bouplanne goedgekeur, die waarde van eiendomstransaksies, en die diskonteringe en voorskotte van handelsbanke afgeneem, terwyl die goudproduksie gehandhaaf is en toenames aangegeteken is in goedere-uitvoere en spoorweginkomste, en veral in bankdebette. Laasgenoemde toename het plaasgevind nienteënstaande 'n skerp afname in effektebeursomset. Geoordeel volgens die indeks van werkverskaffing, het fabrieksaktiwiteit relatief stabiel gebly.

## BETALINGSBALANS

Die ramings van Suid-Afrika se betalingsbalans, wat in Tabelle XXXII tot XXXIV van hierdie uitgawe aangegee word, is omvattend hersien in ooreenstemming met die aanbevelings in die jongste uitgawe van die Internasionale Monetêre Fonds se handboek oor die betalingsbalans. Hierdie hersienings bestaan uit, eerstens, 'n nuwe en meer gedetailleerde indeling en voorstelling van die betalingsbalans, tweedens, die inlynning in die ramings van verskeie nuwe skattingsbasisse en nuwe statistiese reekse, en derdens, 'n afwyking in etlike gevalle van die begrippe wat in vorige ramings gebruik is, bv. belastings wat direk op buitelandse beleggingsinkome-betalings gehef is, is nou by lg. begrip ingesluit. Die nuwe ramings verteenwoordig egter nie 'n radikale afwyking van die begrippe en procedures wat voorheen aangewend is nie, en die skommelings in die hersiene netto oorskot op lopende rekening toon nie betekenisvolle afwykings van dié in die ou reeks nie.

Inagnemende die hersiene skattings, blyk dit dat Suid-Afrika se netto lopende oorskot teenoor die buiteland toegeneem het vanaf die eerste tot die tweede kwartaal van 1961, hoofsaaklik as gevolg van 'n afname in invoere, maar ook weens 'n klein toename in die netto goudproduksie. Boonop het 'n vermindering plaasgevind in die netto uitvloei van private kapitaal, veral as gevolg van die feit dat daar 'n kentering gekom het in die netto uitvloei van Suid-Afrikaanse inwonerkapitaal. Aan die ander kant was offisiële en bankinstellings verantwoordelik vir 'n netto uitvloei van kapitaal gedurende die tweede kwartaal in teenstelling met 'n aansienlike netto toevloei gedurende die eerste kwartaal toe trekkings op die Internasionale Monetêre Fonds gemaak is en 'n lening van die Import-Export Bank ontvang is. Die netto gevolg was dat die offisiële goud- en buitelandse valutareserwes gedurende die tweede kwartaal afgeneem het, vergeleke met 'n geringe toename gedurende die eerste kwartaal.

As gevolg van die invoerbeheermaatreëls het invoere gedaal vanaf R280 miljoen gedurende die eerste kwartaal van 1961 tot ongeveer R267 miljoen gedurende die tweede kwartaal, terwyl goedere-uitvoere 'n minder as seisoensafname vanaf R229 miljoen tot ongeveer R222 miljoen getoon het. Daarby het die netto goudproduksie met ongeveer R5 miljoen toegeneem terwyl netto lopende onsigbare betalings relatief konstant gebly het op die hoë peil wat gedurende die eerste kwartaal bereik is, sodat die netto oorskot op lopende rekening vanaf R9 miljoen tot ongeveer R21 miljoen verbeter het.

Tenoor hierdie netto lopende oorskot van R21 miljoen gedurende die tweede kwartaal, toon die beskikbare inligting dat daar 'n netto uitvloei van kapitaal in alle vorms van ongeveer R32 miljoen was sodat, met in agneming van weglatings en foute ten bedrae van minus R8 miljoen in die skattings, die land se goud- en buitelandse valutareserwes met ongeveer R19 miljoen gedaal het.<sup>1</sup>

Wat die netto uitvloei van kapitaal van R32 miljoen betrek, was offisiële en bankinstellings verantwoordelik vir R13 miljoen, wat hoofsaaklik bestaan uit die terugbetaling van buitelandse lenings en 'n afname in die handelsbanke se korttermyn buitelandse laste, terwyl die oorblywende R19 miljoen die netto uitvloei van private kapitaal verteenwoordig wat volgens die kwartaallikse opgawes wat aan die Reserwebank voorsien word, as volg saamgestel is:

(1) Die netto uitvloei van buitelandse kapitaal het ongeveer R24 miljoen beloop (vergeleke met R21 miljoen gedurende die eerste kwartaal en 'n kwartaallikse gemiddelde van R29 miljoen gedurende 1960), waarvan R15 miljoen die netto aankope deur Suid-Afrikaanse inwoners vanaf buitelanders van effekte wat op die Johannesburgse Effektebeurs genoteer word, verteenwoordig, soos verstrekkende aandelemakelaars en ná aansuiwing vir transaksies wat direk en deur genomineerde aangegaan is.<sup>2</sup>

(2) Suid-Afrikaanse inwonerkapitaal het 'n netto toevloei van ongeveer R5 miljoen getoon (hoofsaaklik korttermynfondse), vergeleke met 'n netto uitvloei van R16 miljoen gedurende die eerste kwartaal en 'n kwartaallikse gemiddelde netto uitvloei van ongeveer R9 miljoen gedurende die jaar 1960.

Gedurende Mei 1961 is invoerbeheer verskerp en uitgebrei, en vanaf 17 Junie is Suid-Afrikaanse inwoners verbied om fondse vir die aankoop van Suid-Afrikaanse en Rhodesiese effekte na die buitenland oor te plaas, soos in die geval van vreemde effekte in die algemeen. Terwyl aan nie-inwoners toegestaan is om effekte op die Johannesburgse Ef-

fektebeurs te bly verkoop, sou die opbrengs van sodanige verkope geblokkeer en alleen in effekte met 'n notering op genoemde Effektebeurs herbelê mag word. Nadat hierdie en ander stappe waarna in ons Junie-uitgawe verwys is, gedoen is, het daar 'n kentering in die afwaartse neiging in die goud- en buitelandse valutareserwes gekom, en gedurende Julie en Augustus is 'n toename van sowat R22 miljoen geregistreer.

Volgens onaangesuiwerde voorlopige handelsyfers, het invoere tot R75.4 miljoen in Julie gedaal en toe tot R86.4 miljoen in Augustus gestyg, teenstrydig met die gewone seisoensbewegings gedurende hierdie maande, terwyl goedere-uitvoere meer as seisoengewyse tot R67.9 miljoen in Julie afgeneem, en toe aansienlik meer as seisoengewyse tot R78.3 miljoen in Augustus gestyg het. Hierdie syfers dui op 'n aansienlike afname in Suid-Afrika se handelstekort, sodat, met inagneming van die netto goudproduksie, wat op 'n hoë peil gehandhaaf is, en aan die ander kant, van netto lopende onsigbare betalings, wat aansienlik gestyg het as gevolg van 'n seisoenstoename in dividendoorplasings, dit wil voorkom asof die toename van R22 miljoen in die goud- en buitelandse valutareserwes gedurende hierdie twee maande hoofsaaklik deur 'n verdere netto oorskot op lopende rekening veroorsaak is. Dit wil egter ook voorkom asof 'n klein netto toevloei van kapitaal aangeteken is, wat naastenby gelyk is aan die geïdentifiseerde netto ontvangste van buitelandse lenings deur die offisiële en private sektors. Dit sou beteken dat enige netto uitvloei van private buitelandse kapitaal in ander vorms gedurende hierdie tydperk, geneutraliseer is deur 'n verdere netto toevloei van Suid-Afrikaanse inwonerkapitaal, of omgekeerd. Besonderhede van hierdie bewegings sal op 'n later datum beskikbaar kom.

Gedurende die eerste helfte van September het die reserwes gehou deur die Reserwebank verder met R6.6 miljoen tot R181.7 miljoen toegeneem.

## GELD- EN BANKWESE

Na 'n afname van R60 miljoen gedurende die eerste kwartaal van 1961, het die bedrag van likwiede bates gehou deur die private sektor by die banksektor in die vorm van geld en rentedraende deposito's weer met R48 miljoen gedurende die tweede kwartaal gestyg.

Soos uit onderstaande tabel blyk, is hierdie toename, wat plaasgevind het niteenstaande afnames van R39 miljoen in totaal in die banksektor se goud- en buitelandse valutareserwes en in sy eise teen plaaslike owerhede en die private sektor, hoofsaaklik toe te skryf aan die seisoensverskuwing van fondse vanaf die Regering na die private sektor. Hierdie verskuwing word weerspieël in 'n daling van R81 miljoen in deposito's van die Sentrale Regering, teenoor 'n afname van slegs R15 miljoen in die banksektor se eise teen die Sentrale Regering,

1. Die reserwes gehou deur die Reserwebank het in werklikheid met R32 miljoen gedurende die tweede kwartaal van 1961 afgeneem, maar dié gehou deur die handelsbanke en die Sentrale Regering het met R13 miljoen toegeneem.
2. Die syfers verstrek deur aandelemakelaars voor aan- siuwing, is soos volg (R miljoene):

	Aankope deur inwoners	Verkope deur S.A. inwoners	Netto aankope
1961—Januarie	6.1	3.2	2.9
Februarie	5.8	1.9	3.9

‡ Toename -; afname +.

en in 'n toename van R15 miljoen in die netto eise teen die provinsiale administrasies wat hoofsaaklik 'n afname in hul deposito's verteenwoordig.

Gedurende Julie 1961 is 'n verdere toename van R6 miljoen in die publiek se likwiede bates by die banksektor aangeteken, sodat die toename oor die vier maande geëindig Julie ongeveer R54 miljoen bedra het. Hierbenewens moet daarop gelet word dat die publiek se likwiede bates by die Sentrale Regeringsektor in die vorm van skatkiswissels en belastingdelgingsertifikate, wat met R10 miljoen gedurende die eerste kwartaal van 1961 afgeneem het, met R16 miljoen gedurende die daaropvolgende vier maande gestyg het.

Met betrekking tot die banksektor se eise teen die private sektor, wat 'n verdere toename van R23 miljoen getoon het gedurende die eerste kwartaal van die jaar, is 'n afname van R16 miljoen gedurende die vier maande geëindig Julie geregistreer. Met uitsluiting van eise teen die diskonteringshuise, het hierdie afname in werklikheid R30 miljoen bedra, wat gelyk is aan die afname in die Reserwebank se eise teen die private sektor, hoofsaaklik teen die Landbank. Sulke eise van die Nasionale Finansiekorporasie het met R6 miljoen gedurende hierdie tydperk toegeneem, maar is geneutraliseer deur 'n gelyke afname in dié van die handelsbanke, wat toe te skrywe is aan 'n afname in die banke se diskonteringe en voorskotte. In werklikheid het die handelsbanke se diskonteringe en voorskotte ietwat meer as 'n seisoensafname gedurende die eerste kwartaal

van 1961 getoon, en daarna effens meer as seisoensgewyse gedurende Julie gestyg.

**GELDMARK**

Na 'n aansienlike verruiming van die geldmark gedurende die eerste kwartaal van 1961, toe die minimum reserwesaldo's wat die handelsbanke by die Reserwebank t.o.v. hulle onmiddellik opeisbare verpligtigs teenoor die publiek moet hou, verlaag is van 10 tot 6 persent, en die Regering 'n verdere bedrag van R27 miljoen van sy surplusfondse by die handelsbanke en diskonteringshuise belê het, het die geldmark gedurende April en Mei 'n vernouing ondergaan, hoofsaaklik as gevolg van 'n ongunstige betalingsbalans. Gedurende die laasgenoemde tydperk het die Regering in werklikheid R32 miljoen van sy fondse wat by die handelsbanke belê was, onttrek, maar die vernouingseffek daarvan was meer as geneutraliseer deur aansienlike Regeringsuitgawes.

Gedurende Junie het die Regering die balans van sy fondse wat by die handelsbanke en diskonteringshuise belê was, onttrek, nl. R25 miljoen, maar ten spye hiervan het Regeringsdeposito's by die Reserwebank met soveel as R27 miljoen afgeneem. Hierdie seisoensverskuiwing van fondse vanaf die Regeringsektor was hoofsaaklik verantwoordelik vir die feit dat die geldmark in werklikheid 'n effense verruiming gedurende daardie maand getoon het, nl. tot die mate van ongeveer R1 miljoen. Diverse oorsake	+ 39	+ 2	- 11	- 5	- 16
Totaal	+ 25	- 9	+ 1	+ 12	- 41

\* Toename -; afname +.

dien het hierdie verruiming plaasgevind nie teenstaande die feit dat die minimum reserwesaldo's wat van die handelsbanke t.o.v. hulle onmiddellik opeisbare verpligtings vereis word, verhoog is van 6 tot 8 persent, wat 'n onttrekking van fondse uit die mark tot 'n bedrag van R17 miljoen beteken het.

Vervolgens gedurende Julie, toe fondse steeds vanaf die Regeringsektor verskuwe het, en die betalingsbalans 'n gunstige wending begin toon het, het die geldmark meer aansienlik verruim, nl. tot 'n bedrag van ongeveer R12 miljoen, maar hierdie verruiming is gevolg deur 'n aansienlike vernouing van R41 miljoen gedurende Augustus, toe nie alleen Regeringsdeposito's by die Reserwebank 'n aansienlike netto toename van R28 miljoen getoon het nie, (hoofsaaklik weens 'n afname in Regeringsuitgawes), maar 'n onttrekking van fondse uit die mark tot 'n bedrag van R16 miljoen plaasgevind het as gevolg van die verdere verhoging tot 10 persent van die handels-

banke se minimum reserwevereistes t.o.v. hulle onmiddellik opeisbare verpligtings teenoor die publiek. In hierdie verband moet daar egter op gelet word dat die vernouing van die geldmark gedurende Augustus teen die einde van daardie maand plaasgevind het, sodat die uitwerking daarvan op geldmarkrentekoerse eers vroeg in September waargeneem is. So bv. het die tenderkoers op skatkiswissels, wat van 4.22 persent aan die einde van Maart tot 4.69 persent aan die einde van Mei gestyg het, gedaal tot 4.18 persent op 25 Augustus, en daarna op hierdie hoogte bly staan op 1 September, waarna dit gestyg het tot 4.28 persent op 8 September en geen verandering op 15 September getoon het nie.

T. W. de Jongh,  
Hoof: Departement Ekonomiese Navorsing en Statistiek.

1. Since June, 1924, this item includes the notes of other banks for which the Reserve Bank has assumed liability.
2. Valued, up to June, 1946, at cost; from 30th June, 1946, up to December, 1949, at the statutory price of R17.20 per fine ounce, as from 31st December, 1949, at the new statutory price of R24.80 per fine ounce.
3. Gold loan to U.K., February, 1948 — R160 million.
4. In terms of the Amendment to the South African Reserve Bank Act, the ratio since 12th October, 1948, is based on the Bank's liabilities to the public less the amount of its foreign assets.
5. Repayment by U.K. of gold loan, March to September, 1949 — R160 million.

1. Consisting, since June, 1951, of the accounts of The Discount House of S.A. Ltd. and the National Discount House of S.A. Ltd. Before June, 1961, data refer to The Discount House of S.A. and the discount departments of Accepting Bank for Industry Ltd., Philip Hill Acceptance Co. Ltd. and Central Finance Corporation of S.A. Ltd. Figures for the last-mentioned organisation, which started operations as a Deposit-Receiving Institution in 1956, have been included since the end of 1958, after re-discount facilities were obtained from the Reserve Bank.
2. Excluding mining houses.
3. Mainly mining houses and the Central Government.
4. i.e., discounted bills accepted by accepting houses.
5. Including negligible amounts of cash and deposits.

1. Bestaande, sedert Junie 1961, uit die rekenings van The Discount House of S.A. Ltd. en die Nasionale Diskonteringshuis van S.A. Bpk. Voor Junio 1961 het die gegewens betrekking o.a. op The Discount House of S.A. Ltd. en die diskonteringsafdelings van die Nywerheids-Aksepbank Bpk., Philip Hill Acceptance Co. Ltd. en Sentrale Finansiekorporasie van S.A. Bpk. Syfers t.o.v. laaggenoemde organisasie, wat vanaf 1956 sake doen as 'n deposito-nemende instelling, is ingesluit vanaf die einde van 1958, toe herdiskonteringsfasiliteite by die Reserwbank verkry is.
2. Uitsluitende mynhuise.
3. Hoofsaaklik mynhuise en die Sentrale Regering.
4. d.w.s., verdiskonterde wissels ge-aksepteer deur aksephuise.
5. Insluitende nietige bedrae kontant en deposito's.

1. The data refer to (a) all assets held by S.A. Insurers (other than Professional Reinsurers) i.r.o. their insurance business in and outside S.A., and (b) assets held in S.A. by S.A. Professional Reinsurers and Non-S.A. Insurers i.r.o. their insurance business in S.A. (For the period 1946 to 1951, estimates have been made in the case of some items in order to enhance the comparability of the available data for the years before and since 1952).

2. I.e. premium income (net of reinsurance) of (a) S.A. Insurers (other than Professional Reinsurers) i.r.o. business in and outside S.A., and (b) S.A. Professional Reinsurers and Non-S.A. Insurers i.r.o. business in S.A.

3. Securities of, or loans to local authorities, the Rand Water Board, Escom, Iscor, the S.A. Broadcasting Corporation, etc.

4. Stocks or shares in companies, building societies, banks, etc.

5. Life and sinking fund, industrial and funeral business.

6. Fire, marine, motor, personal accident and miscellaneous business.

\* Based on figures published by the Registrar of Insurance.

1. Die gegewens het betrekking op (a) alle bates wat deur Binnelandse Versekerars (uitgesonderd Professionele Herversekerars) gehou word t.o.v. hulle versekeringsbesigheid binne en buite S.A., en (b) bates wat deur Binnelandse Professionele Herversekerars en Buitelandse Versekerars in S.A. gehou word t.o.v. hulle versekeringsbesigheid binne S.A. (Vir die tydperk 1946 tot 1951 is skattings in die geval van sommige poste gemaak teneinde die vergelykbaarheid van die beskikbare gegewens vir die jare voor en sedert 1952, te verbeter).

2. D.w.s. premie-inkomste (ná aftrekking van herversekerings) van (a) Binnelandse Versekerars (uitgesonderd Professionele Herversekerars) t.o.v. besigheid binne en buite S.A., en (b) Binnelandse Professionele Herversekerars en Buitelandse Versekerars t.o.v. besigheid binne S.A.

3. Effekte van, of lenings aan plaaslike owerhede, die Randse Waterraad, Eskom, Yskor, die S.A. Uitsaaikorporasie, ens.

4. Aandele in maatskappye, bouverenigings, banke ens.

5. Lewens- en amortisasiefonds-, nywerheids- en begrafnisbesigheid.

6. Brand-, see-, motor-, persoonlike ongevalle- en gemengde besigheid.

\* Gebaseer op syfers gepubliseer deur die Registrateur van Versekeringswese.

1. Debits to current accounts with the Reserve Bank and commercial banks, excluding Government accounts.

2. Base : monthly average 1953 = 100.

3. Quarterly totals.

4. Monthly average figures of commercial banks' demand plus Reserve Bank's "Other" deposits.

5. Bank debits divided by deposits as defined.

6. Base : quarterly average 1953 = 100.

1. Debette teen lopende rekeninge by die Reserwebank en handelsbanke, uitgesonderd Owerheidsrekening.

2. Basis : maandelikse gemiddelde 1953 = 100.

3. Kwartaallikse totale.

4. Maandelikse gemiddelde syfers van handelsbanke so onmiddellik opeisbare plus Reserwebank se "Ander" deposito's.

5. Bankdebette gedeel deur deposito's soos omskryf.

6. Basis : kwartaallikse gemiddelde 1953 = 100.

- Source: Reports of the Controller and Auditor-General and Government Gazette.
- Including National Road Fund and S.A. Native Trust and, as from 1955/56, the Bantu Education Account.
- Including accrual of R13.4 million from revaluation of gold held by the S.A. Reserve Bank. (The balance of R21.9 million of the profits resulting from the revaluation of the gold reserve was paid to the P.D.C. and applied to the redemption of debt.)
- A minus sign indicates net redemption.
- Cancellations of stock held by sinking funds.

- Bron: Verslae van die Kontroleur en Ouditeur-Generaal en Staatskoerant.
- Met insluiting van Nasionale Padfonds en S.A. Naturelletrus en, sedert 1955/56, die Bantoe-onderwysrekening.
- Met insluiting van die opbrengs van R13.4 miljoen uit herwaardering van die S.A. Reservewebank se goudbesit. (Die saldo van R21.9 miljoen van die wins wat ontstaan het uit die herwaardering van die goudbesit is aan die Staatskuldkommissaris betaal en aangewend vir die aflossing van skuld).
- 'n Minus teken dui netto aflossing aan.
- Kansellasië van effekte in die besit van delgingsfondse.

- An increase in foreign liabilities indicates an *inflow* of capital, while a decrease reflects an *outflow*.
- An increase in foreign assets indicates an *outflow* of capital, while a decrease reflects an *inflow*.
- Direct investment refers to (a) the investment of foreigners in undertakings in S.A. in which they have a controlling interest, or (b) the investment of S.A. residents in undertakings abroad in which they have a controlling interest.
- Excluding transactions in securities listed on the Johannesburg Stock Exchange which are included under the item "Stock Exchange Transactions".
- Adjusted for transactions negotiated directly and by nominees.

- 'n Toename in buitelandse laste dui 'n *toerloei* van kapitaal aan, terwyl 'n afname 'n *uitvloei* weerspieël.
- 'n Toename in buitelandse bates dui 'n *uitvloei* van kapitaal aan, terwyl 'n afname 'n *toerloei* weerspieël.
- Regstreekse belegging verwys na (a) die belegging van buitelanders in ondernemings in S.A. waarin hulle beherende belanghebet, of (b) die belegging van S.A. inwoners in ondernemings in die buiteland waarin hulle beherende belanghebet.
- Uitgesonderde transaksies in effekte op die Johannesburgse Effektebeurs genoeteer, wat onder die pos „Effektebeurstransaksies“ ingesluit is.
- Aangesuiwer vir transaksies direk en deur genomineerde aangegaan.
