1. South Africa's foreign assets in the form of direct investment refer to all liabilities towards South Africa of foreign undertakings "controlled" from South Africa, that is, organisations in which South Africans have an effective say in the policy of the organisation, whether by virtue of share ownership, agreement or otherwise.

2. In general, the non-direct investment sector has been obtained by

deducting direct investment items from the total of the appropriate items of foreign assets reported by South African residents.

3. Listed securities were valued at the average market values as at the end of 1956 in the case of non-direct investment. All other securities were included at nominal values or book values.
