1. Data for the last two years are preliminary and subject to revision. Data are calculated from the cash surplus (+) / deficit (-) of the Statement of sources and uses of cash for all levels of government.
2. Including market establishments of local governments not operating as a separate institutional unit.
3. Before April 2000, the information was based on a survey of key statistics only, whereas the current reporting is based on more detailed financial statements of the major corporations in compliance with the GFSM 2001 and is therefore not strictly comparable with data prior to April 2000.
