- From April 1993 only that part of the reserve balance in excess of the minimum cash reserve requirement can be utilised as liquid assets.
- As from 18 October 2000 all government stock qualifies as liquid assets, irrespective of maturity.
- Total holdings include very small amounts of other liquid assets.
- From April 1993 the liquid asset requirement has been set at 5 per cent of banks' liabilities, as per notice R696 in Government Gazette 14763 of 28 April 1993.
- From April 1998 the minimum cash reserve requirement has been set at 2½ per cent of banks' liabilities, as per notice R572 in Government Gazette 18810 of 1 April 1998. Banks' vault cash holdings qualified in full as part of cash reserves prior to the submission of the August 2001 statutory returns, but from September 2001 only 75 per cent of the vault cash holdings qualified. This limit will be reduced by a further 25 percentage points per year every September over a three-year period to 2004.
- The minimum reserve balance calculated in respect of a specific month and shown opposite that month has to be held on deposit with the Reserve Bank from the 15th working day of the following month. For example, the banks' liabilities and cash holdings during August give rise to a minimum reserve balance reported opposite August in the table but only held with the Reserve Bank from the 15th working day of September.
