1. The information on this page is an analysis of the National Revenue Fund. Before April 2000, the basis of reporting revenue and expenditure was bank statement transactions, whereas the current reporting relies on cash book transactions as reported in the Statement of Revenue, Expenditure and Borrowing and is therefore not strictly comparable with data prior to April 2000. Total revenue includes amounts in transit before April 2000.
2. Including tax on retirement funds, interest on overdue income tax and other taxes on income and profits.
3. Including donations tax, estate duty, marketable securities tax and demutualisation levy.
4. Sales duty is included before 1983 and general sales tax before October 1991.
5. Including levy on financial services, revenue from neighbouring countries and taxes on the use of goods and permission to use goods or to perform activities.
6. Including ordinary levy and other taxes on international trade and transactions.
7. Including stamp duties and fees and unallocated amounts.
8. Southern African Customs Union.
9. Including departmental revenue and other miscellaneous revenue.
10. Including statutory payments to provinces and other expenditure.

1. The information on this page is an analysis of the National Revenue Fund. Before April 2000, the basis of reporting revenue and expenditure was bank statement transactions, whereas the current reporting relies on cash book transactions as reported in the Statement of Revenue, Expenditure and Borrowing and is therefore not strictly comparable with data prior to April 2000. Total revenue includes amounts in transit before April 2000.
2. Including tax on retirement funds, interest on overdue income tax and other taxes on income and profits.
3. Including donations tax, estate duty, marketable securities tax and demutualisation levy.
4. Sales duty is included before 1983 and general sales tax before October 1991.
5. Including levy on financial services, revenue from neighbouring countries and taxes on the use of goods and permission to use goods or to perform activities.
6. Including ordinary levy and other taxes on international trade and transactions.
7. Including stamp duties and fees and unallocated amounts.
8. Southern African Customs Union.
9. Including departmental revenue and other miscellaneous revenue.
10. Including statutory payments to provinces and other expenditure.

1. Data for the last two years are preliminary and subject to revision. Net flows: Inflow of cash (+) / outflow of cash (-). Before April 2000, the basis of reporting revenue and expenditure was bank statement transactions, whereas the current reporting relies on cash book transactions and is therefore not strictly comparable with data prior to April 2000.
2. Comprising transfers received from foreign governments, international organisations and other general government units.
3. Comprising property income (including interest and dividends), sales of goods and services, fines, penalties and forfeits, and other non-tax revenues.
4. Comprising current and capital transfers to foreign governments, international organisations and other general government units.
5. Comprising miscellaneous other current and capital expense (including transfers to non-profit institutions serving households and to households for non-social benefits) and property expense other than interest.
6. Domestic as well as foreign financial assets.
7. Liabilities classified according to currency of issue.
8. Cash surplus (+) / deficit (-) plus the net cash flow from financing activities.

1. Data for the last two years are preliminary and subject to revision. Data are calculated from the cash surplus (+) / deficit (-) of the Statement of sources and uses of cash for all levels of government.
2. Including market establishments of local governments not operating as a separate institutional unit.
3. Before April 2000, the information was based on a survey of key statistics only, whereas the current reporting is based on more detailed financial statements of the major corporations in compliance with the GFSM 2001 and is therefore not strictly comparable with data prior to April 2000.

1. Data for the last two years are preliminary and subject to revision. Net flows: Inflow of cash (+) / outflow of cash (-). Before April 2000, the information was based on a survey of key statistics only, whereas the current reporting is based on financial statements of the major corporations in compliance with the GFSM 2001 and is therefore not strictly comparable with data prior to April 2000.
2. Comprising transfers received from foreign governments, international organisations and other general government units.
3. Comprising property income (including interest and dividends), sales of goods and services, fines, penalties and forfeits, and other non-tax revenues.
4. Comprising current and capital transfers to foreign governments, international organisations and other general government units.
5. Comprising miscellaneous other current and capital expense (including transfers to non-profit institutions serving households and to households for non-social benefits) and property expense other than interest.
6. Domestic as well as foreign financial assets.
7. Liabilities classified according to currency of issue.
8. Cash surplus (+) / deficit (-) plus the net cash flow from financing activities.

KB802

1. Compared with the corresponding period of the preceding fiscal year.
2. The information on this page is an analysis of the National Revenue Fund.
3. Before 1983 sales duty is included and before October 1991 general sales tax is included.
4. Compared with the actual outcome of previous fiscal years.
5. Before April 2000, the basis of reporting revenue and expenditure was bank statement transactions, whereas the current reporting relies on cash book transactions as reported in the Statement of Revenue, Expenditure and Borrowing and is therefore not strictly comparable with data prior to April 2000. Total revenue includes amounts in transit before April 2000.
