1. The information on this page is an analysis of the National Revenue Fund. Before April 2000 the basis of reporting revenue and expenditure was bank statement transactions, whereas the current reporting relies on cash book transactions as reported in the *Statement of the National Revenue, Expenditure and Borrowing* and is therefore not strictly comparable with data prior to April 2000. Total revenue includes amounts in transit before April 2000.
2. Including tax on retirement funds until March 2007, interest on overdue income tax, and other taxes on income and profits.
3. Including donations tax, estate duty, securities transfer tax from 1 July 2008 and demutualisation levy.
4. Sales duty is included before 1983 and general sales tax before October 1991.
5. Including levy on financial services and taxes on the use of goods and permission to use goods or to perform activities.
6. Including ordinary levy and other taxes on international trade and transactions.
7. Including stamp duties and fees, and unallocated amounts.
8. Southern African Customs Union.
9. Including departmental revenue and other miscellaneous revenue.
10. Including statutory payments to provinces and other expenditure.

1. The information on this page is an analysis of the National Revenue Fund. Before April 2000 the basis of reporting revenue and expenditure was bank statement transactions, whereas the current reporting relies on cash book transactions as reported in the *Statement of the National Revenue, Expenditure and Borrowing* and is therefore not strictly comparable with data prior to April 2000. Total revenue includes amounts in transit before April 2000.
2. Including tax on retirement funds until March 2007, interest on overdue income tax, and other taxes on income and profits.
3. Including donations tax, estate duty, securities transfer tax from 1 July 2008 and demutualisation levy.
4. Sales duty is included before 1983 and general sales tax before October 1991.
5. Including levy on financial services and taxes on the use of goods and permission to use goods or to perform activities.
6. Including ordinary levy and other taxes on international trade and transactions.
7. Including stamp duties and fees, and unallocated amounts.
8. Southern African Customs Union.
9. Including departmental revenue and other miscellaneous revenue.
10. Including statutory payments to provinces and other expenditure.

1. Data for the past two years are preliminary and subject to revision. Net flows: Inflow of cash (+)/outflow of cash (-). Data provided by Statistics South Africa (Stats SA). From the 1996/97 fiscal year onwards data were revised based on a census conducted by Stats SA for the financial year of local government. The data are based on the GRAP/GAMAP accounting standards from the financial year ending June 2005. Stats SA survey changed to the current Quarterly Financial Statistics format from the financial year ending June 2008, and therefore data are not strictly comparable with prior years.

1. Data for the past two years are preliminary and subject to revision. Net flows: Inflow of cash (+)/outflow of cash (-). Before April 2000 the information was based on a survey of key statistics only, whereas the current reporting is based on financial statements of the major corporations in compliance with the GFSM 2001 and is therefore not strictly comparable with data prior to April 2000. Included in the statistics are the non-financial government enterprises and non-financial public corporations e.g., Eskom, Telkom, Transnet and the Water Boards. As from fiscal 2009/10 data for *non-financial public enterprises and corporations* have been revised in line with the *Institutional Sector Classification Guide for South Africa* published in December 2011. Institutions such as the South African Bureau of Standards (SABS) and the Council for Scientific and Industrial Research (CSIR) have been included in the analysis, whereas institutions such as the Armaments Corporation of South Africa (ARMSCOR), the South African Maritime Safety Authority (SAMSA) and some other minor institutions have been removed and incorporated in the analysis of *extra-budgetary institutions*.
2. Comprising transfers received from foreign governments, international organisations and other general government units.
3. Comprising property income (including interest and dividends), sales of goods and services, fines, penalties and forfeits, other non-tax revenues, and subsidies to non-financial public enterprises and corporations.
4. Comprising current and capital transfers to foreign governments, international organisations and other general government units.
5. Comprising miscellaneous other current and capital expense (including transfers to non-profit institutions serving households and to households for non-social benefits) and property expense other than interest.
6. Domestic and foreign financial assets.
7. Liabilities classified according to currency of issue.
8. Cash surplus (+)/deficit (-) plus the net cash flow from financing activities.

- Metropolitan, district and local municipalities. As from September 1987 the data are provided by Statistics South Africa (Stats SA). From the fiscal year 1996/97 onwards data were revised based on a census conducted by Stats SA for the financial year of local government. The data are based on the GRAP/GAMAP accounting standards from the financial year ending June 2005. Stats SA survey changed to the current Quarterly Financial Statistics format from the financial year ending June 2008, and therefore data are not strictly comparable with prior years.
- Consolidated data; intrasectoral claims have been eliminated.
- All negotiable financial instruments serve as evidence that municipalities have financial obligations. These include bills, debentures, negotiable certificates of deposit (NCDs), bank acceptance, but exclude bonds and commercial paper.
- Including annuity loans, local registered stock, financial leases, repurchase agreements, government and other loans.
- Allocated reserves by the municipalities for the transaction relating to property plant and equipment, in terms of the directive issued by National Treasury (MFMA Circular No. 18 dated 23 June 2005).
- Other equities including revaluation reserves, housing development funds, capitalisation reserves, donations and public contributions reserves, capital replacement reserves, and trust funds.
- Including self-insurance and compensation for occupational injuries and diseases reserves.
- Including deferred income, provisions, unspent conditional grants, bank overdrafts, deferred taxation and any other financial liabilities not classified elsewhere.
- Assets needed for production that have not themselves been produced, such as land, subsoil assets and certain intangible assets.
- Currency and deposits made with monetary and non-monetary institutions, including shares of money-market mutual funds offering unrestricted cheque-writing privileges.
- Including NCDs, bills, commercial paper, preferred stocks or shares, marketable loans, bankers' acceptances and other.
- Including repurchase agreements, housing and property loans, vehicle and other loans.
- Including advanced payments, interest accrued, value-added tax deferred and other short-term receivables.

- Before April 2000 the basis of reporting revenue and expenditure was bank statement transactions, whereas the current reporting relies on cash book transactions as reported in the *Statement of the National Revenue, Expenditure and Borrowing* and is therefore not strictly comparable with data prior to April 2000. Total revenue includes amounts in transit before April 2000.
- Compared with the corresponding period of the preceding fiscal year.
- The information on this page is an analysis of the National Revenue Fund.
- Sales duty is included before 1983 and general sales tax before October 1991.
- Compared with the actual outcome of previous fiscal years.
