Source of basic data: Statistics South Africa.

Source of basic data: Statistics South Arnca.

National departments, local authorities, provinces and statutory bodies.

Transnet, Sapo, Telkom and SABC.

Including catering and accommodation services.

Banking institutions, building societies and insurance companies. From the third quarter of 2002, also inclusive of real-estate and business services.

From the first quarter of 1998 basic data originate from the Survey of Employment and Earnings in selected industries by Statistics South Africa, and are not strictly comparable with earlier data. From the third quarter of 2002 basic data originate from a new expanded Survey of Employment and Earnings in Selected industries by Statistics South Africa, and are not strictly comparable with earlier data. From the third quarter of 2002 basic data originate from a new expanded Survey of Employment and Earnings and from the fourth quarter of 2004 from the Quarterly Employment Statistics (QES) survey by Statistics South Africa. From the second quarter of 2013 and also the second quarter of 2015, the QES survey was expanded, resulting in a level shift in certain subsectors. Data were statistically linked to compensate for these structural breaks.

Source of basic data: Statistics South Africa.
 Since January 1995 information of the former TBVC states has been included.
 At constant 2016/12 prices.
 From the third quarter of 2002 basic data originate from a new expanded Survey of Employment and Earnings and from the fourth quarter of 2004 from the Quarterly Employment Statistics survey by Statistics South Africa.
 Comparability break from December 2003 due to a new survey based on Statistics South Africa's new business register.

S-144 Quarterly Bulletin March 2017

Source: Statistics South Africa
 Weights of final manufactured goods do not add up, as non-metallic mineral products (4,20) and furniture and other manufacturing (2,28) are omitted.
 Weights are at industry level, based on 2015 value-added in the national accounts and will be updated each year from the national accounts data.
 Seasonally adjusted by the South African Reserve Bank.

Composite business cycle indicators Seasonally adjusted

KB815

Compared with the preceding period: Quarterly changes at seasonally adjusted annualised rates.

Per cent. Source: Statistists South Africa, Quarterly Labour Force Survey.

Seasonally adjusted by the South African Reserve Bank.

Compared with the same period in the previous year.

Deflated by the non-agricultural gross domestic product deflator.

From the third quarter of 2002 basic data originate from a new expanded Survey of Employment and Earnings and from the fourth quarter of 2004 from the Quarterly Employment Statistics (QES) survey by Statistics South Africa. From the second quarter of 2013 and also the second quarter of 2015, the QES survey was expanded, resulting in level shifts in certain subsectors. Data were statistically linked to compensate for these structural breaks.
