- Average amounts as from January 2008.
- As from April 1993, only that part of the reserve balance in excess of the minimum cash reserve requirement, can be utilised as liquid assets.
- As from 18 October 2000 all government stock qualifies as liquid assets, irrespective of maturity.
- Land bank bills up to December 2012. From January 2013 securities guaranteed by specified counterparties as prescribed in the definition of high quality liquid assets.
- Total holdings include very small amounts of other liquid assets.
- As from April 1993 the liquid asset requirement has been set at 5 per cent of banks' liabilities, as per notice R696 in Government Gazette No. 14763 of April 1993.
- As from April 1998 the minimum cash reserve requirement was set at 2½% of banks' liabilities but banks' vault cash holdings qualified in full as part of cash reserves, as per notice R572 in Government Gazette No. 18810 of April 1998. As from September 2001 only 75 per cent of the banks' vault cash holdings qualified as cash reserves, and subsequently the qualifying portion was reduced by 25 percentage points each year. In September 2004 the concession was fully phased out.
- The average daily minimum reserve balance calculated in respect of a specific month and shown opposite that month has to be held on deposit with the South African Reserve Bank as from the 15th working day of the following month. For example, the banks' liabilities and cash holdings during August give rise to a minimum reserve balance reported opposite August in the table but only held with the South African Reserve Bank as from the 15th working day of September.

- Liquidity provided by the South African Reserve Bank on a weekly basis every Wednesday as from 5 September 2001.
- Data include supplementary repurchase auctions whenever conducted. As from 30 August 2010 the spread between the rates for standing facilities and the repurchase rate was widened from 50 basis points to 100 basis points below and above the prevailing repurchase rate.
- As from 30 August 2010 manual auctions were replaced by an automated final end-of-day square-off process at prevailing standing facility rates. This change affected the SAMOS penalty facility, which was abolished as a consequence.
