Money and banking statistics of South Africa, 1973 to 1992

The availability of time series that are comparable over time is essential for economic analyses. In a supplement to the *Quarterly Bulletin* for June 1993, such time series were published with regard to South Africa's balance of payments. In this supplement to the *Quarterly Bulletin* time series for monetary and credit aggregates and money market and related interest rates are provided. In addition, a chronology of changes in the regulatory requirements applicable to the banks and to the money supply guidelines are furnished to facilitate economic analyses further.

All the statistics in this supplement refer to the monetary sector. The monetary sector is now defined to include the South African Reserve Bank, the Corporation for Public Deposits, the Land and Agricultural Bank, the Post Office Savings Bank, private banks and mutual building societies. The composition of the monetary sector – the sector whose deposit, coin and note liabilities to the domestic private non-monetary sector form the money supply – has changed considerably over the past two decades. Notable changes have been the following:

- The dissolution of the National Finance Corporation and the taking-over of its functions and of the short-term business of the Public Debt Commissioners, by the Corporation for Public Deposits on 31 March 1984.
- The scrapping of the distinction between commercial banks, merchant banks and general banks in July 1985.
- The provision for equity building societies in October 1986, as a new form of building society alongside mutual building societies.
- The abolition of the distinction between banks, discount houses and equity building societies in February 1991, when the Deposit-taking Institutions Act, Act No 94 of 1990, came into effect and when all these institutions were classified as deposit-taking institutions.
- The renaming of deposit-taking institutions as banks in March 1993.

Before the introduction of these changes, the various types of institutions had unique characteristics and separate tables were prepared for them in the *Quarterly Bulletin* which allowed for their various special features. Although this was desirable at the time, researchers now wishing to obtain comparable balance-sheet series from the published tables often find it impossible to do so. This publication addresses this problem by providing consistent time series (or as consistent as can be) on a number of the most important money and banking indicators.

This supplement to the *Quarterly Bulletin* contains

information on the various institutions that are currently regarded as part of the monetary sector, as well as comparable information on the institutions that preceded the present institutions. By combining the data of the former National Finance Corporation and the so-called "pooled funds" of the Public Debt Commissioners in the period before March 1984, comparable time series to that at present compiled from the financial accounts of the Corporation for Public Deposits were obtained. Information comparable to that of the present day banks was compiled by combining information in respect of the former discount houses, banks (i.e. commercial, merchant and general banks) and equity building societies.

The methodology used to compile South Africa's money and banking statistics is based on *A Guide to Money and Banking Statistics in International Financial Statistics*, a publication of the International Monetary Fund. The separate balance sheets of the monetary institutions form the basis of these statistics and are aggregated for certain types of institutions. The balance sheets of the various monetary institutions are also consolidated, i.e. the claims of monetary institutions on one another are netted out. The so-called monetary analysis is derived from the consolidated balance sheet of the monetary sector which, in an *ex post* sense, explains changes in the broadly defined money supply (M3) on the basis of its statistical counterparts (see accompanying table). The statistical counterparts of the money supply that are

distinguished in this analysis are the net gold and other foreign reserves of the monetary sector (i.e. gold, foreign exchange and other foreign assets less short-term foreign liabilities); this sector's net claims on the government sector (i.e. gross claims less government deposits with the monetary sector); the monetary sector's claims on the private sector (i.e. credit extension to the private sector); and net other assets and liabilities of the monetary sector (i.e. other assets less capital and reserves and other liabilities).

The Reserve Bank collects balance-sheet statistics from all the institutions in the monetary sector on a monthly basis. The data relating to money market interest rates were procured from monthly returns of the banks, announcements by the Reserve Bank regarding changes in Bank rate and information received from the Money and Capital Market Department of the Reserve Bank. The data on the cash reserve and liquid asset requirements of the banks were extracted from Government notices in various issues of the Government Gazette. Statements issued by the Governor of the Reserve Bank were the basic source of information for the money supply guidelines.

In this publication balance sheets of the various monetary institutions are provided in Tables 1 to 8, followed by a consolidated balance sheet of the monetary sector (Tables 9 and 10) and the monetary analysis (Tables 11 and 12). The monetary aggregates (i.e. money supply figures according to the different money supply definitions) are furnished in Table 13 and the credit extension by monetary institutions to the domestic private sector, detailed by type of credit, and to the government sector in Table 14. Money market and related interest rates are shown in Table 15, while chronologies of the banks' cash reserve and liquid asset requirements are reported in Tables 16 and 17. A summary of the Reserve Bank's money supply guidelines for the broadly defined money supply (M3) is supplied in Table 18 and some selected money and banking data in Table 19.

Although every effort has been made to provide users with consistent time series over a period of time, it is important when analysing these data to take into consideration that:

- the relationships between various money and banking statistics over time have been heavily influenced by policy measures, such as the credit ceilings that were in force from 1976 to 1980 (footnotes indicate a number of these important changes);
- in the process of compiling consistent time series over a relatively long period, certain revisions have been made to data published earlier; and
- because of rounding-off, some of the totals in the tables may not always be exactly equal to the sum of their components.

Geld- en bankwesestatistiek van Suid-Afrika, 1973 tot 1992

Die beskikbaarheid van tydreekse wat oor tyd vergelykbaar is, is noodsaaklik vir ekonomiese ontledings. In 'n bylaag tot die *Kwartaalblad* van Junie 1993 is sodanige tydreekse ten opsigte van die betalingsbalans van Suid-Afrika gepubliseer. In hierdie bylaag tot die *Kwartaalblad* word tydreekse van monetêre en kredietgroothede, sowel as geldmark- en verwante rentekoerse, voorsien. Daarbenewens word 'n chronologie van veranderings in die regulatoriese vereistes wat op die banke van toepassing is en in die geldvoorraadriglyne, ook verskaf om ekonomiese ontledings verder te vergemaklik.

Al die gegewens in hierdie bylaag verwys na die monetêre sektor. Die monetêre sektor is gedefinieer om die Suid-Afrikaanse Reserwebank, die Korporasie vir Openbare Deposito's, die Land- en Landboubank, die Posspaarbank, private banke en onderlinge bouverenigings in te sluit. Die samestelling van die monetêre sektor – die sektor waarvan die deposito-, munt- en nootverpligtinge teenoor die binnelandse private nie-monetêre sektor die geldvoorraad uitmaak – het oor die afgelope twee dekades aansienlik verander. Merkbare veranderings was die volgende:

- Die ontbinding van die Nasionale Finansiekorporasie en die oorname van sy funksies en van die korttermynbesigheid van die Staatskuldkommissaris deur die Korporasie vir Openbare Deposito's op 31 Maart 1984.
- Die afskaffing van die onderskeid tussen handelsbanke, aksepbanke en algemene banke in Julie 1985.
- Die voorsiening vir ekwiteitsbouverenigings in Oktober 1986 as 'n nuwe tipe bouvereniging benewens onderlinge bouverenigings.
- Die afskaffing van die onderskeid tussen banke, diskontohuise en ekwiteitsbouverenigings in Februarie 1991 toe die Wet op Depositonemende Instellings, Wet no. 94 van 1990, in werking getree het en toe al hierdie instellings as depositonemende instellings geklassifiseer is.
- Die herbenaming van depositonemende instellings as banke in Maart 1993.

Voor hierdie veranderings in werking gestel is, het die verskillende soorte instellings eiesoortige kenmerke gehad en afsonderlike tabelle is in die *Kwartaalblad* vir hulle voorberei wat vir elkeen se spesiale eienskappe voorsiening gemaak het. Hoewel dit in daardie stadium wenslik was, vind navorsers dit dikwels onmoontlik om nou vergelykbare balansstaatkese uit die gepubliseerde tabelle te bekom. Hierdie publikasie spreek dié probleem aan deur vergelykbare tydreekse (of so vergelykbaar moontlik) van 'n aantal van die belangrikste aanwysers van die geld- en bankwese te voorsien.

Hierdie bylaag tot die *Kwartaalblad* bevat inligting oor die verskillende instellings wat tans as deel van die

monetêre sektor beskou word, asook vergelykbare inligting met betrekking tot die instellings wat die huidige instellings voorafgegaan het. Deur inligting van die eertydse Nasionale Finansiekorporasie en die sogenaamde "gesamentlike fondse" van die Staatskuldkommissaris in die tydperk voor Maart 1984 saam te voeg, is tydreekse verkry wat vergelykbaar is met dié wat tans uit die finansiële rekeninge van die Korporasie vir Openbare Deposito's opgestel word. Inligting wat met dié van die huidige banke vergelykbaar is, is opgestel deur die data ten opsigte van die eertydse diskontohuise, banke (met ander woorde handels-, aksep- en algemene banke) en ekwiteitsbouverenigings saam te voeg.

Die metode wat gebruik is om Suid-Afrika se geld- en bankwesestatistiek saam te stel, is gebaseer op *A Guide to Money and Banking Statistics in International Financial Statistics*, 'n publikasie van die Internasionale Monetêre Fonds. Die afsonderlike balansstate van die monetêre instellings vorm die basis van hierdie gegewens en word vir sekere soorte instellings saamgevoeg. Die balansstate van die verskillende monetêre instellings word ook gekonsolideer, dit wil sê die onderlinge eise van die monetêre instellings word uitgekanselleer. Die sogenaamde monetêre ontleding word van die gekonsolideerde balansstaat van die monetêre sektor bepaal wat, in 'n ex post-benadering, die veranderings in die omvattend gedefinieerde geldvoorraad (M3) op die basis van die statistiese teenhangers daarvan verduidelik (sien bygaande tabel). Die statistiese teenhangers van die geldvoorraad wat in hierdie ontleding onderskei word,

is die netto goud- en ander buitelandse reserwes van die monetêre sektor (dit wil sê goud, buitelandse valuta en ander buitelandse bates *minus* buitelandse korttermynlaste); hierdie sektor se netto eise teen die regeringsektor (dit wil sê bruto eise *minus* regeringsdeposito's by die monetêre sektor); die monetêre sektor se eise teen die private sektor (dit wil sê kredietverlening aan die private sektor); en netto ander bates en laste van die monetêre sektor (dit wil sê ander bates *minus* kapitaal en reserwes en ander laste).

Die Reserwebank samel op 'n maandelikse basis balansstaatstatistiek van al die instellings in die monetêre sektor in. Die data ten opsigte van die geldmarkrente-koerse is saamgestel uit maandelikse opgawes van die banke, aankondigings deur die Reserwebank in verband met veranderings in Bankkoers en inligting wat van die Reserwebank se Departement Geld- en Kapitaalmark ontvang word. Die data oor die kontantreserwe- en likwiedebatevereistes van banke is uit Regeringskennisgewings in verskeie uitgawes van die Staatskoerant verkry. Verklarings wat deur die President van die Reserwebank uitgereik is, was die basiese inligtingsbron vir die geldvoorraadriglyne.

In hierdie publikasie word die balansstate van die verskillende monetêre instellings in tabelle 1 tot 8 voorsien, gevvolg deur 'n gekonsolideerde balansstaat van die monetêre sektor (tabelle 9 en 10) en die monetêre ontleding (tabelle 11 en 12). Die monetêre totale (dit wil sê die geldvoorraadsyfers volgens die verskillende definisies van die geldvoorraad) word in tabel 13 en kredietverlening deur monetêre instellings aan die binnelandse private sektor (in besonderhede volgens die soort krediet) en aan die regeringsektor word in tabel 14 aangetoon. Geldmark- en verwante rentekoerse word in tabel 15 verskaf, en die banke se kontantreserwe- en likwiedebatevereistes word in tabelle 16 en 17 chronologies uiteengesit. 'n Opsomming van die Reserwebank se geldvoorraadriglyne vir die omvattend gedefinieerde geldvoorraad (M3) word in tabel 18 en sekere uitgesoekte gegewens van geld- en bankwese in tabel 19 voorsien.

Hoewel pogings aangewend is om gebruikers met vergelykbare tydreekse oor tyd te voorsien, is dit belangrik om met die ontleding van hierdie data die volgende in ag te neem:

- die verwantskappe tussen die onderskeie gegewens van die geld- en bankwese is met verloop van tyd aansienlik deur beleidsmaatreëls beïnvloed, soos die kredietplafonne wat van 1976 tot 1980 van krag was (die voetnota's dui 'n aantal van hierdie belangrike veranderings aan);
- in die proses om vergelykbare tydreekse oor 'n betreklike lang tydperk saam te stel, moes sekere wysigings aan reeds gepubliseerde data aangebring word; en
- as gevolg van afronding mag sommige van die totale in die tabelle nie altyd presies gelyk wees aan die som van daardie totale se komponente nie.

- Bestaande hoofsaklik uit die Skatkissaldo, met insluiting van die onbelegde gedeelte van die Stabilisasierekoning, die saldo op die Betaalmeeester-generaalrekening, en ander deposito's van staatsdepartemente, die OBK, die onafhanklike en selfregulerende state.
- Vanaf Desember 1992 by die Centrale Regering ingesluit.
- Tot Oktober 1986 slegs banke en daarna banke en bouverenigings.
- Sluit binelandse en buitelandse deposito's in.
- Insluitende lenings van die Suid-Afrikaanse Regering waarvoor die Reserwebank aanspreeklikheid aanvaar het.
- Mainly comprising the Exchequer balance, including the uninvested part of the Stabilisation Account, the balance on the Paymaster General account, and other deposits by government departments, the PIC, the independent and selfgoverning states.
- Included with the Central Government from December 1992.
- Until October 1986 only banks, thereafter banks and building societies.
- Includes domestic and foreign deposits.
- Including loans of the South African Government for which the Reserve Bank has assumed liability.

- Bestaande hoofsaaklik uit die Skatkissaldo, met insluiting van die onbelegde gedeelte van die Stabilisasierekening, die saldo op die Betaalmaster-generaalrekening, en ander deposito's van staatsdepartemente, die OBK, die onafhanglike en selfregulerende state.
- Vanaf Desember 1992 by die Sentrale Regering ingesluit.
- Tot Oktober 1986 slegs banke en daarna banke en bouwerenigings.
- Sluit binelandse en buitenlandse deposito's in.
- Insluitende lenings van die Suid-Afrikaanse Regering waarvoor die Reserwebank aanspreeklikheid aanvaar het.
- Verhoging weens deposito's onder Krugerrand-terugverkoopovereenkomste. Die Reserwebank het Krugerrande aangekoop met 'n ooreenkoms om hulle terug te verkoop. Twintig persent van die koopprys moet by die Reserwebank gedeponeer word en die res isiri kontant uitbetaal.
- Mainly comprising the Exchequer balance, including the uninvested part of the Stabilisation Account, the balance on the Paymaster General account, and other deposits by government departments, the PIC, the independent and selfgoverning states.
- Included with the Central Government from December 1992.
- Includes only banks, thereafter banks and building societies.
- Includes domestic and foreign deposits.
- Including loans of the South African Government for which the Reserve Bank has assumed liability.
- Increase due to deposits under Krugerrand reselling agreements. The Reserve Bank bought Krugerrands with an agreement to resell them. Twenty per cent of the purchase price had to be deposited with the Reserve Bank, and the remainder was paid out in cash.

1. A consolidation of the balance sheets of institutions within the monetary sector, i.e. the South African Reserve Bank, the former National Finance Corporation, Corporation for Public Deposits and the so-called "pooled" funds of the former Public Debt Commissioners, the Land Bank, Post Office Savings Bank, private banks (including the former banks, discount houses and equity building societies) and mutual building societies. Coin in circulation is included in this consolidation.
2. In circulation outside the monetary sector.
3. Deposits of the private non-monetary sector with the monetary sector. Foreign deposits and government deposits are excluded.
4. Available only from March 1979 onwards.
5. "Government" consists of the South African Central Government (including the former Public Debt Commissioners and the Public Investment Commissioners, but excluding Transnet, Saps and Telkom), provincial administrations and the governments of the independent and self-governing states. All transfers to the Stabilisation Account are also included.

A consolidation of the balance sheets of institutions within the monetary sector, i.e. the South African Reserve Bank, the former National Finance Corporation, Corporation for Public Deposits and the so-called "pooled" funds of the former Public Debt Commissioners, the Land Bank, Post Office Savings Bank, private banks (including the former banks, discount houses and equity building societies) and mutual building societies. Coin in circulation is included in this consolidation.

2. In circulation outside the monetary sector.

3. Deposits of the private non-monetary sector with the monetary sector. Foreign deposits and government deposits are excluded.

4. Available only from March 1979 onwards.

5. "Government" consists of the South African Central Government (including the former Public Debt Commissioners and the Public Investment Commissioners, but excluding Transnet, Saps and Telkom), provincial administrations and the governments of the independent and self-governing states. All transfers to the Stabilisation Account are also included.

1. A consolidation of the balance sheets of institutions within the monetary sector, i.e. the South African Reserve Bank, the former National Finance Corporation, Corporation for Public Deposits and the so-called "pooled" funds of the former Public Debt Commissioners, the Land Bank, Post Office Savings Bank, private banks (including the former banks, discount houses and equity building societies) and mutual building societies. Coin in circulation is included in this consolidation.
2. In circulation outside the monetary sector.
3. Deposits of the private non-monetary sector with the monetary sector. Foreign deposits and government deposits are excluded.
4. Available only from March 1979 onwards.
5. "Government" consists of the South African Central Government (including the former Public Debt Commissioners and the Public Investment Commissioners, but excluding Transnet, Saps and Telkom), provincial administrations and the governments of the independent and self-governing states. All transfers to the Stabilisation Account are also included.

1. A consolidation of the balance sheets of institutions within the monetary sector, i.e. the South African Reserve Bank, the former National Finance Corporation, Corporation for Public Deposits and the so-called "pooled" funds of the former Public Debt Commissioners, the Land Bank, Post Office Savings Bank, private banks (including the former banks, discount houses and equity building societies) and mutual building societies. Coin in circulation is included in this consolidation.
2. In circulation outside the monetary sector.
3. Deposits of the private non-monetary sector with the monetary sector. Foreign deposits and government deposits are excluded.
4. Available only from March 1979 onwards.
5. "Government" consists of the South African Central Government (including the former Public Debt Commissioners and the Public Investment Commissioners, but excluding Transnet, Saps and Telkom), provincial administrations and the governments of the independent and self-governing states. All transfers to the Stabilisation Account are also included.

Likwiedebatevereistes Liquid asset requirements	Effektiewe datum Effective date	Verwysing Reference	Opmerkings Remarks
Lowering of liquid asset requirements: 22% of short-term liabilities. 16% of medium-term liabilities. 5% of long-term liabilities. 5% of liabilities under acceptances.	29 March 1985	Government Gazette 9714, 26 April 1985, Notice 921.	
Verlaging van likwiedebatevereistes, ophulling van vereiste t.o.v. verpligtinge uit hoofde van aksente en die instelling van 'n nuwe berekeningsmetode vir banke se korttermynverpligtinge. 20% van korttermynverpligtinge. 15% van middeltermynverpligtinge. 5% van langtermynverpligtinge. ***	31 Augustus 1985	Staatskoerant 9904, 30 Augustus 1985, Kennisgewing 1942.	Die nuwe berekeningsmetode vir banke se korttermynverpligtinge het veroorsak dat die berekende bedrag van banke se korttermyn- verpligtinge verhoog het. Banke word 'n grasierdelperk van een jaar gegun om die tekort in likwiede- bates reg te stel!
Lowering of liquid asset requirements, abolishment of requirement against liabilities under acceptances and the introduction of a new method of calculation for banks' short-term liabilities. 20% of short-term liabilities. 15% of medium-term liabilities. 5% of long-term liabilities.	31 August 1985	Government Gazette 9904, 30 August 1985, Notice 1942.	The new method of calculation for banks' short-term liabilities resulted in a larger calculated amount of banks' short-term liabilities. Banks are granted a period of one year to correct the shortage in liquid assets.
Verlaging van likwiedebatevereistes en die afskaffing van vereiste teenoor middel- en langtermynverpligtinge. 20% van korttermynverpligtinge. ***	Februarie 1991	Staatskoerant 13003, 31 Januarie 1991, Kennisgewing 195.	Korttermynverpligtinge se omskry- wing word terselfdertyd uitgebred om sekere tipes terugkoopoorre- komste en ander verpligtinge wat voorheen utgesluit was, in te sluit.
Lowering of liquid asset requirements and the abolishment of the requirement against medium- and long-term liabilities. 20% of short-term liabilities.	February 1991	Government Gazette 13003, 31 January 1991, Notice 195.	At the same time the definition of short-term liabilities is modified to include certain types of repurchase agreements and other liabilities, previously not included.
Verlaging van likwiedebatevereistes: 5% van banke se totale verpligtinge. ***	April 1993	Staatskoerant 14763, 28 April 1993, Kennisgewing R696.	Die oorskakeling het per saldo 'n kleiner vereiste bedrag aan likwiede- bates behels. Terselfdertyd het enkele tipes bates, waaronder (voorheen) likwiede bankaksente, hulle likwiedebatestatus verloor.
Lowering of liquid asset requirements. 5% of banks' total liabilities.	April 1993	Government Gazette 14763, 28 April 1993, Notice R696.	The change on balance implied a smaller required amount of liquid assets. Certain types of assets, including (previously) liquid bankers' acceptances, at the same time lost their liquid asset status.
