Okusemqoka futhi okwaba yisizathu sokungaguuki kweKomidi, kwaba wukuthi umhlangano waba ngelanga okwaqala ngalo impi yase-Iraq. Ngaleylo nkathi kwakungakazeki ngempela ukuthi mphumela muni ozolethwa yimpi emnothweni womhlaba, ikakhulukazi entengweni kawoyela. Okunye okwadala ukuba kuthathwe isinqumo sokungaguqulwa kwenzalo yeBhange, kwaba udaba lwamaholo olwalusadingidwa, ukukhuphuka kwezindleko zabasebenzi, ukukhuphuka kwezimali zokuphattha emahhovisi, kanye nezinkomba zeCPIX zokuthi ukuntenga kwamandla emali kubonakala sengathi kuzoba ngaphezulu kwemigomo ebekelwe unyaka ka 2004.

Lokhu uma sekuhlanganisa nezinguquko ezikhona kwezomnotho, kwathi uma iBhange libheka phambilini sokuba kuncishiswe imihlangano ibe mine, sasidalelwu wukuthi imihlangano kwakufanele ukuba ihambisane nombiko wezomnotho kanyangantathu owethulwa yiBhange elikhulu. Nokho lokhu kwadala ukuthi kube nezhikhawu ezinde phakathi kwemihlangano. Kwabe sekunqunyuwa ukuthi noma imibiko kanyangantathu ingakaphumi kuleyo mihlangano, makube khona izibalo ezidamane zikhishwa ukuze kuthathwe isinqumo ezifanele. Okunye-ke, imihlangano eminingi iyasiza njengokuthi iyakwazi ukwehlisa uvalo lokuguqulwa kwenzalo ngendlela engalindelekile, ngale ndlela inkambiso yokusebenza kwemali ihlale yaziwa.

Kuthe ziyi-14 ku Agasti, 2003 iKomidi Lenkambiso Yemali, laphinde lamemezelwa ukwehliswa kwenzalo yemali ebolekwa eBhange ngamaphuzu ayi-100. Lokhu kwenza

Kanti futhi ukwehla kwamandla emali kusesimweni esithembisayo. Phezu kwalokho, iKomidi likhombise ukungagculiseki ngendlela okuphathwa ngayo amanani aphethwe yizinkampani ekuhwebelaneni kwazo, izinkulomo zokwenyuswa kwamaholo, ukuthembela ukuthi akuzukuba nazinguquko ekusimameni komnontho wasekhaya, kanye nokwanda kokusetshenziswa kwemali emnothweni ekupheleni kwesigamu sesibili sonyaka ka-2003.

Inkambiso yokushintshanisa ngemali (Exchange rate policy)

Onyakeni odlule inkambiso yokushintshanisa ngemali ayiguqukanga. Njengakuloya nyaka odlulile, isimo seRandi uma liqhathaniswa nezinye izimali zomhlaba kwayekelelwa ezimakethe kwabe sekuthi iBhange langaggxambukela kulezi zimakethe ukuthi zithikameze izinto okukanye umgudu wokushintshanisa ngezimali.

Ukushintshanisa ngeRandi kube nokuntengantenga okukhulu nyakenye. Noma iBhange belingafisa ukuthi cube nezinga elikhulu lokusimama kweRandi, akulula ukunqanda ukuntengantenga kweRandi kulesisimo esenza ukuthi izimali zomhlaba zihlale zintengantenga. Ulwazi esinalo lusitshela ukuthi noma iRandi lalingahle ligcagciswe nezinye izimali, laliyophinda futhi lintengantenge ngezinye izikhathi.

Iziphatimandla zingamane ziphokophele ukusungula isimo somnotho esingahle sikuvumele ukusimamisa izinga lokushintshanisa ngemali. Okunye okudale ukuntengantenga kweRandi esikhathini esiphambili, kwaba ukuthengisa ngokweqile ezimakethe zezimali, okwadala isikweletu esikhulu. Lesisikweletu seBange saziwa ngelokuthi iNOFP (Net Open Foreign Reserve Position). Inhoso yeBhange bewukuqedo lesi simo esabe singamaDola aseMelika angamabhiliyon angama-23,2 ekupheleni kukaSeptemba ngo-1998. Onyakeni odlule iBhange Elikhulu lithenge izimali zangaphandle ngesikhathi esifanele laphinda lemukela izimali ezatholakala ekuthengiseni amaBhondi e Yuro okwaba yimali engamaDola angamabhiliyon angu-1,25 ngoMeyi ngo-2003 uma kuqhathaniswa nemali yeNOFP eyabe iseletu emabhukwini eBhange. Lokhu kwenza kangcono isikweletu seNOFP esasilinganiselwa kumaDola angamabhiliyon angu-1,8 maphakathi no-2002 saze sagcina sikhokhwe ngokweqile ngama maDola angamabhiliyon angu-0,9 ekupheleni kukaJulayi ngo-2003. Emveni kokusuka kwalesi simo, ukushintshanisa kweRandi nezinye izimali zomhlaba sekubukeka kungcono kakhulu.

Njengoba iBhange selize lakhokha isikweletu seNOFP lasiqeda, iBhange seliphokophele ukuthi lemaliekhokhwe kwaze kweqa kufanele isetshenziswe kanjani futhi ligxile kakhulu ekwandiseni inqolobane yalo yezimali zangaphandle. Imali eyasalayo uma sekukhokhwe isikweletu ngokuphelele, yaba ngaphezulu ngamaDola angamabhiliyon angu-4,1 ekupheleni kukaJulayi ngo-2003 uma kuqhathanisa namadola angamabhiliyon ayi-7 ngesikhathi kunomhlangano wonyaka eBhange ngonyaka odlule.

Ukusimama Kwamabhange (Stability in the banking sector)

Inkinga yokuntuleka kwezimali eyabhekana namabhange amancane kanjalo nokuphela kwsizinda semali eyabe ibekwe kwamanye amabhange amakhulu ekuqaleni kuka-2002,

kwaxazululwa ngendlela eyenelisayo nyakenye. Ngenkathi kwenzeka lokhu, kukhona nokho izinkinga ezithile ezahaqa amabhange ezingagwemekanga. Ukusebenza kwamabhange amabili amakhulu iSamboou Bank Limited neBoE Bank Limited kwahlanganiswa nemisebenzi yamanye amabhange akuleli amakhulu. Phezu kwalokhu, ukungabaza kwabantu ukufaka izimali zabo emabhange amancane kwenza ukuba la mabhange ahoxise ukubhaliswa kwawo njengamabhange asemthethweni okwathi amanye ahlela kabusha indlela asebenza ngayo.

Izivunguvungu ezinjengalezi emabhange zadala ukuba kuhlanganiswe imisebenzi ngaphambi kokuthi kufinyelelw esimeni esisimeme. Ekupheleni kwenyanga ka-June 2003, ubungako bezimali ezafakwa emabhange amakhulu amane (4) aziwayo, kwaba ngamaphesenti alinganiselwa ema-83. Lesi simo sidale ukuthi kube nzima kakhulu ukusungula amabhange amasha kwase kuba lukhuni nakumabhange amancane ukuqhubeka nokusebenza. Isimo esinjena sabe sithikazisa ukufakwa kwezimali zokusetshenzisa ngosomabhizinisi abasafufusa (operational capital).

Ngaphandle kwakho konke lokhu, indlela yokusebenza yamabhange eNingizimu Afrika isalokhu iphusile. Amabhange akuleli lakithi anayo imali yokuqhube umsebenzi kanti imali yokubheka izehlakalo ibibalelw kumaphesenti ayi-12,4 ekupheleni kukaJuni ngo-2003. Ubungako bemali yokuqhube umsebenzi emabhange yabe isesimweni esigculisayo kanti nobungako bamafa kwahlala kuphezulu kakhulu. Ukuhlolwa kwamabhange okuzimele malungana nokuphathwa kwawo kunikeze isiqiniseko sokuthi amabhange aseNingizimu Afrika aphethwe ngendlela efanele. Amabhange lawa asebenza ngezimiso ezinhle kakhulu zomhlaba wonke.

Noma-ke kudingekile ukuthi kufanele kuhlale kuqashiwe indlela amabhange asebenza ngayo, akukho lutho olukhathazayo mayelana nalokhu. Amabhange aphezu kokubhekana nezindlela ezigculisayo zokusebenza ukuze zibe sesimweni esigculisayo ekuqhapheleni izehlakalo ezingezinhle, njengokulandisa kwemigomo ka eBasel II ezoqala ngo-2007. Ukungasebenzi kahle kwamabhizinisi omhlaba kwaholela ekutheni ukuhlolwa kwamabhuku kanye nezikweletu kubukezwe noma kuguqulwe. Njengengxenyemizamo yokusimamisa ubuqotho nokuhlala kwaziswa ngesimo sezimali, kuthe nyakenye kwaguqulwa indlela yokwethulwa kwemibiko yamafa yamabhange. Indlela endala ibikhombisa amafa ngenani okwakuthengwe ngalo (historical cost accounting), kanti indlela entsha ikhombisa ubungako bamafa ngokuhambisana namanani asezimakethe (fair-value accounting). Lokhu kuyimigomo ebekiwe, futhi okufanele igcinwe engaphansi komthetho wokwethulwa kwemibiko yamafa i-Accounting Statement AC 133. Nokho kungumqansa onzima ukuhambisana nalezi zimiso kanye nomthetho omusha.

Enye inselelo ebhekene namabhange ukunikeza indlela elula yokusebenzia izimali. Abantu abanangi abakakwazi ukuthola usizo lwasemabhange. Umnyango obhekene nezimali nokusebenza kwamabhange usuqalisile nomsebenzi wokusungula umqulu obizwa ngokuthi iFinancial Bank Sector Black Economic Empowerement Charter ukuze kuthuthukiswe ukuqala kwamabhizinisi aphethelene nezimali nokutholakala kosizo lwemali kubantu abampisholo. Phezu kwakho konke lokhu, selokhu kwahlaselwa iWorld Trade Centre mhla ziyi-11 ku Septhemba ngo-2001, saba sikhulu isidingo sokuthi kuqinisekiswe ukubambisana kwamabhange ngezezimali.
