

Inkulomo Efingqiwe KaMongameli Emhlanganweni Wama-84 Wabanikazi Bamashaya

Isingeniso

Ekuqaleni kwengxene yami yesibili kulesisikhundla njengoMongameli weBhange eliKhulu lase Ningizimu Africa, ngiyathokoza ukubika ukuthi ingxene enkulu yezinjongo ezazibekiwe enkulumweni yami yokuqala njengoMongameli zifezekile kuleminyaka eyisihlanu eyedlule. Kulezizinjongo kwaba:

- Izinga lokwehla kwamandla emali lakwazi ukuthibeka libe sezingeni elamukelekile, kangangokuba selingaphansi kwalokho okubhekiwe.
- Uhlaka lomgomu oluhlose ukunqanda ukwehla kwamandla emali soluhleliwe ngendlela efanele, oluhambisana nendlela ehlelekile yokuthatha izinqumo.
- Indlela esobala yokuthatha izinqumo zokuphathwa kwezimali emabhange eziphathelene nenkambiso yokubolekisa kwezimali (monetary policy).
- Indlela okusingathwe ngayo izindaba zamabhange isisezingeni elingaqhathaniswa nelomhlaba wonke.
- Ngaphezu kwakho konke lokhu, ukuphathwa ngaphakathi kweBhange sekuhlelwwe kahle kakhulu.

Kulonyaka, liphindile futhi iBhange laphumelela emikhakheni eminingi. Umphumela obalulekile kube ukuncipha kwezinga lokwehla kwamandla emali libe phakathi kwasilinganiso esibekiwe. Kanti enye impumelelo encomekayo kube ukuvuselela isimo sokuphathwa kwemali ephathelene nokuhwebelana namanye amazwe.

Eminye imikhakha yempumelelo kube isimo esingcono sokuphathwa kwezimali zangaphakathi ezweni, izindlela ezingcono zokusingatha amabhange, kanye nezindlela zokukhokhelana ezweni (national payment system); kuphinde futhi kwaba nenqubekela phambili ekufakeni izimpawu zokuvikela imali engamaphepha kanye nemali yesiliva u-R5; iqhaza elikhulu ekubambisaneni kangcono namazwe angomakhelwane; ukunqandwa kwezindleko eziphathelene nabasebenzi nokuphathwa kweBhange; ukuqequesha abasebenzi; ukusungula umgomu wabasebenzi osebenza kahle futhi onomphumela omuhle; kanye nokuqalisa amazinga amasha okuthulwa kwemibiko yezimali ehambisana nemithetho emukelekile yomhlaba.

Intuthuko Kwezomnotho Emhlabeni (International Economic Developments)

Ukuphumelela kweBhange nyakenye, kubonakale kahle ngokusimama komnotho womhlaba wonke, siphuma esimeni ebasingesihle neze ekuqaleni kwaleli shumi leminyaka. Kwaphinda kwabonakala ukusimama nokukhula komnotho engxenyeni yesibili yonyaka ka-2003. Noma-ke isimo somnotho sibukeka siya siba ngcono emhlabeni, umfutho wokukhula uyashiyana ngamazwe. Isimo esingcono soguquko sibonakale e-Asia ikakhulukazi kwelamaShayina (China) kanye nelase Melika (United States of America).

Ukusimama komnotho emhlabeni kwahambisana nokukhula kwentengo kawoyela kanye neminye imikhiqizo. Ekuqaleni kwabukeka sengathi lokhu kunyuka kwezindleko zokukhiqiza kulamazwe athuthukile kuzogwinyeka emalini yenzozo. Kwathi ekuqaleni konyaka ka-2004, isimo sokwehla kwamandla emali sakuphuka ngokushesha, noma-ke lokhu kwabe kusemazingeni aphansi kakhulu. Izinga eliphansi lokwehla kwamandla emali lenza ukuthi amazwe athuthukile akwazi ukulandela izindlela zemigomo yezimali ekhuthazayo. Esigabeni sokuqala sonyaka ka-2004 amanye amazwe athuthukile aqala ukulandela ngandlela thile imigomo engamukeli kalula izimo zonke.

Isimo sezimakethe zemali zomhlaba siye sibangcono kusukela ekuqaleni konyaka ka-2003. Lokhu kwensiwa isimo esamukelekile sokuphathwa kwezimali kanye nokudlondlobala kwamanani amafa. Njengoba isimo somnotho emhlabeni siya ngokuya sithuthuka, izingozi zokuthi umnotho uhluleke ukusimama ziya zishabalala. Noma kunjalo, kukhona izimo ezingaba nobungozi okufanele ziqaphelwe, ikakhulu njengesimo esingaqondakali sezombusazwe ezindaweni ezahlukene, amanani aphezulu kawoyela, ukuhluka kakhulu phakathi kwemali yezwe neyamazwe angaphandle, isimo samabhange e-Asia kanye nendlela ikusasa lokushintshisana ngemali kuhamba ngayo.

Intuthuko kwezomnotho wasekhaya (Domestic Economic Developments)

Kusukela engxenyeni yesine yonyaka ka-1999, umnotho wase Ningizimu Africa ukhombise ukukhula. Lokhu kukhula komnotho kuthathe eside isikhathi kunazo zonke izikhathi ezedlule emlandweni wezwe. Nokho-ke kuthe ngonyaka ka-2003 ukukhula komnotho wasekhaya kwaya ngokuya kwehla. Lokhu kutshengisa isikhathi sokungabaza okube khona ekukhuleni komnotho womhlaba kanye nokusimama kwezinga lokushintshanisa kweRandi nezinye izimali zomhlaba. Kuthe ngonyaka ka-2004, uHulumeni wakhuphula izinga lokulungisa izingqalasizinda, kwehliswa nentela emalini yomholo, kwehliswa nenzalo ezimalini ezibolekwayo kanye nokunyuswa kwamaholo. Konke lokhu kukhuthaze ukwanda kwezidingo zomkhiqizo wasekhaya.

Izinga lokukhuphuka komkhiqizo wasekhaya usuhlanganisiwe (Gross Domestic Product), laba ngamaphesenti ama-3, ubo uhambisana nokukhula komnotho wakuleli. Noma lamazinga okukhula engaphezulu kwezibalo okukhula ngazo abantu bakuleli, aba nomphumela wokuthi kakhule izinga lemali yomholo etholwa umuntu ngamunye noma-ke kwabuye kwahambisana nokuntuleka kwamathuba emisebenzi. Kuyabonakala futhi ukuthi ezinye zezithikamezo esakhiweni somnotho zinomphumela ongemuhle ekufinyeleleni ezingeni eliphezulu lokudala ukwanda kwamathuba emisebenzi.

Ukudlondlobala komnotho kuxhaswe ukukhula okunamandla kwemali esetshenziswa ngaphakathi ezweni. Izinga lokukhula kwezidingo zasekhaya ezibalweni zonyaka kulinganiselwa kumaphesenti ama-4. Izinga lokukhula okuphelele emalini esetshenziszwe ekhaya lakhula kakhulu kusukela kumaphesenti ama-3 nengxenyenye, esigabeni sokuqala sonyaka ka-2003 kuya kumaphesenti ayi-6, esigabeni sokuqala sonyaka ka-2004. Konke ukusetshenziszwe kwemali ekhaya sekuqoqelwa ndawonye kwalekelela ukuthi izidingo zasekhaya zikhule ngesivinini, kodwa okubalulekile ngasengxenyeni yentuthuko kube ukukhula ngamaphesenti ayi-12 kwemali yokuthenga izizinda zokwakha umkhiqizo (fixed capital formation).

Njengoba ukukhula kokusetshenziszwe kwemali ekhaya kwaba ngaphezulu kokukhula komkhiqizo wasekhaya; kwadalela ukuthi isilinganiso semali engenayo nephumayo

(Balance of Payments), esikade sikhombisa ukuthi imali engenayo ingaphezulu ngonyaka ka-2002, sibe sesiguquka ngonyaka ka-2003 kuze kube sekuqaleni konyaka ka-2004, sakhombisa ukuphuma kwemali okukhulu (deficit). Ukudlondlobala kwemali esetshenzisiwe, kudale ukuthi amanani ezimpahla ezithengwa ngaphandle akhule kakhulu, phezukwalokho kwathi, umthamo wempahla othunyelwa ngaphandle kanye neminye imisebenzi wehlakakhulu. Ngenhlanhla, izivumelwano zohwebo zaseNingizimu Africa namanye amazwe omhlaba zakhula ngenxa yokudlondlobala kwamanani empahla. Lokhu kwadala ukuthi isilinganiso semali ephumayo kuleli, uma iqhathaniswa nomkhiqizo wakuleli usuhlanganisiwe sibe iphesenti eli-1 ngonyaka ka-2003 namaphesenti ama-2 nengxenyen esigamini sokuqala sonyaka ka-2004.

Lesisimo semali ephumayo sabe sesinqandwa inani lemali elikhulu eladalwa ukukhula kwenani legolide kanye namanye amafa alondolozwe kwamanye amazwe (foreign reserves). Okunye okwenza isilinganiso sezimali siphinde sibe sihle, kwaba yizimali ezibolekwa kwamanye amazwe omhlaba, kanye nezimali ezikhokhela ukuthenga kwezinye zezimboni zakuleli.

Ukuphathwa kwenkambiso yokubolekisa ngezimali kanye nezokuhwebelana ngezimali (Monetary and Financial Developments)

Ukubolekisa ngemali kanye nokuhwebelana ngezimali, kubonakale kahle ngokuthi kukhushulwe ukusabalalisa kwemali esetshenziswayo ezweni. Kulezizinyanga eziyishumi nambili isilinganiso somthamo wemali esaziwa ngokuthi u-M3 sasilinganiselwa kumaphesenti ayi-12 kusukela ekuqaleni konyaka ka-2003. Lokhu kwakukhombisa ukukhuphuka kokusetshenziswa kwemali ekhaya kanye nenzalo eyabe ilokhu isemazingeni aphansi. Noma kunzima ukuxhumanisa amazinga obungako balemali kanye nokusimama kwamazinga entengo isikhathi eside, kodwa lamazinga abelokhu engaphansi kwezinga lokuguquka komthamo wemali u-M3 ngamaphesenti angama 23,5 ku-Meyi 2002. Okwaba ngumthelela wokukhula kwalemali engu-M3, kwensiwa yikuthi izimali ezibolekwa emabhange ukusiza amabhizinisi, bezilokhu zisemazingeni alinganiselwa kumaphesenti ayi-12 unyaka wonke ka-2003, kwaze kwaba yisigamu sokuqala sonyaka ka-2004. Nokho-ke kuthe ngenyanga ka-June 2004, izinga lokubolekisa ngezimali lehla labe selilinganiselwa kumaphesenti ayisi-8,9.

Ngokuhambisana nezimakethe zamashaya zomhlaba inani okuthengwa ngalo amashaya emakethe i-JSE Securities Exchange aqala ukusimama kusukela ngo Apreli 2003 kuze kube sekuqaleni kuka Mashi 2004. Lokhu kusimama kulinganiselwa kumaphesenti angama-51,9. Ngenxa yokungabaza ukuthi izinkampani ziyokwazi yini ukuhlomula isikhathi eside kulezizimakethe, lokhu kwadala ukuthi inkomba yamanani okudayisa kwamasheya yehle ngamaphesenti ayisi-7,8, lokhu kwehla kwaze kwaba zingama-31 enyangeni ka-Julayi 2004.

Amanani adalwa yizikweletu zikaHulumeni (amabhondi), ayekade eqale ukukhula kusukela ngonyaka ka-1999, aqhube kile nokukhula nangonyaka ka-2003. Lokhu kwabonakala ngokuthi kunciphe inzuko etholakala kwi-bhondi ebizwa ngokuthi R153 eyasuka kumaphesenti ayi-10,76 mhla zi-2 Januwari 2003 yaya kumaphesenti ayi 8,83 ngo 17 Disemba 2003. Ukusabalalisa kwamabhondi ezimakethe zezimali kanye nezinkomba zokuthi inzalo yamabhondi iyakhuphuka emhlabeni jikelele, kwenza inzalo yeBondi u-R153 ikhuphuke ibe ngamaphesenti ayi 10,26 ngo 15 Juni 2004. Kuthe khona manjalo ukusimama kwamandla eRandi kwenza ukuthi inzuko yebhondi u-R153 yehle iye kumaphesenti ayisi-9,62 ngomhlaka 31 Julayi 2004.

Umgomo Wemali Yasezweni (Public Finance)

Umehluko phakathi kwemali uHulumeni ayintulayo engakaboleki, kanye nemali ekhokhela izikweleti njengesilinganiso somkhiqizo wasekhaya usuhlanganisiwe (gross domestic product) ube ngamaphesenti ama-2,4 onyakeni wezimali ka-2003/4 uma uqhathaniswa nesilinganiso esabe siyiphesenti eli-1,1 onyakeni wezimali ongaphambili. Lokhu kukhombisa ukuzinikela kukaHulumeni ukukhulisa izimali zokwakha izingqala-sizinda.

Inkambiso Yokubolekisa Ngezimali (Monetary Policy)

Njengoba besengibikile ukuthi inkambiso yokubolekisa ngemali yaba nempumelelo enkulu kulonyaka odlule, njengoba iyona eyenza ukuthi ukuzinza kwamanani kubonakale. Ikomidi elisingethe iNkambiso Yokubolekisa Ngezimali lenyusa inzalo yokuboleka amabhange ngamaphuzu angama-400. Lokhu kwenza ukuthi inzalo yenyuke ize ifike kumaphesenti ayi-13,5 esikhathini kusuka ku Januwari kuya ku Sebthemba 2002. Lokhu kukhuphuka, kuhlangene nokwehla kwamanani okudla kanye nokusimama kwamandla eRandi, uma iRandi liqhathaniswa nezinye izimali zomhlaba, kwaba nomphumela odingekile. Izinga lokwehla kwamandla emali lasuka kumaphesenti ayi-11,3 ngo Novemba 2002 kuya ku Septemba 2003, kwenza ukuthi izinga libe kulelo elalibekiwe. Lokhu kwehla kwaqhubeke njalo kwaze kwafika kumaphesenti ama-4 ngo Disemba 2003 ngaphambi kokukhula kuye kumaphesenti ama-5 ngenyanga ka Juni 2004.

Lemiphumela yenza ithuba lokuthi kube noguquko kwinkambiso yokubolekisa ngezimali. Inzalo yokuboleka amabhange yehliswa ngamaphuzu angama-550 emihlanganweni elandelanayo emihlanu yeKomiti elisingethe Inkambiso Yokubolekisa Ngezimali kusukela ngoJuni kuya ku Disemba 2003. Lokhu kwadala ukuthi inzalo yokuboleka amabhange ibe ngamaphesenti ayisi-8, okuyinzalo ephansi kakhulu selokhu kwagcina ngonyaka ka-1980.

Ukwehliswa kwenzalo ekhokhwa ngamabhange (repo rate) kwakufanele ngenxa yezizathu ezithile. Okokuqala futhi okubalulekile kakhulu, kwaba ukuthi izinga lokwehla kwamandla emali bekulindeleke ukuthi kuleminyaka emibili lihlale emazingeni abekiwe. Okwesibili, izinga lokwehla kwamandla emali yomkhiqizo wasekhaya lehla kakhulu kusukela ngo Septhemba 2003. Okwesithathu, izinga lokushintshaniswa kweRandi nezinye izimali zomhlaba likhuphuke ngamaphesenti ayi-16 ngo 2003. Okwesine, izinga lokwehla kwamandla emali lancipha kakhulu. Okwesihlany, amanani kawoyela emhlabeni agcine ehleli phakathi kwamazinga abekwe yinhlangano yamazwe athumela uwoyela. Okwesithupha, ngasekupheleni konyaka ka-2002, amazinga okukhuphuka kwamanani okudla aqala ukwehla, kuya esigabeni sesibili sonyaka ka-2003.

Ziningi ezinye izinto ezalekelela isinqumo seKomidi elisingethe Inkambiso Yokubolekisa Ngezimali ekuthambiseni imigomo yokuphathwa kwemali. Lokhu kwabandakanya indlela ephusile yokwabiwa kwezimali zikaHulumeni wezwe, isimo esizothile sesilinganiso sezimali eziphumayo nezingenayo ezweni, izinkomba zokuthi ukusabalaliswa kwezidingo bekungenazingqinamba, kanye nokuthi ukwehla kwamandla emali emhlabeni jikelele bekulokhu kuphansi. Phezu kwalokhu, ukwehla kwamandla emali okwakulindeleke ukuthi kuqhubeke njalo kwehle, kwakhombisa ukuthi amazinga enzalo yangoqobo azokhula uma inzalo ebolekisa amabhange izohlala ingaguquki.

Noma izinga lokwehla kwamandla emali belibukeka lisesimweni esihle ngasekuqaleni konyaka ka-2004, iKomiti elisingethe Inkambiso Yokubolekisa Ngezimali lanquma ukungalithinti izinga lenzalo ebolekisa amabhange ngesizathu sokuthi kwakungaba nezingozi

ezithile. Lezizingozi zihlanganisa izinga eliphezulu lokuvumelana ngamaholo nabasebenzi okwabangelwa amazinga aphakeme okwehla kwamandla emali ngonyaka ka-2002, ukukhuphuka kokuthengwa komkhiqizo wasekhaya, nokukhuphuka kwamanani ezinto ezisingethwe nguHulumeni.

Ukukhuphuka kwamanani okudla kwaba ngenye yezinto ezazikhathaza emhlanganweni owawungo Febhuwari 2004, kodwa uvalo ngamanani aphezulu okudla abuye ashabalala uma sekuqala izimvula ezabe zisabalele. Kwathi ngenyanga ka-Apreli 2004, intengo kawoyela yathathwa njengengozi enkulu, engavimba ekufinyeleleni emazingeni okwehla kwamandla emali abekiwe, ngoba amanani kawoyela ongahluziwe aqhubeka nokukhula kakhulu.

Ngaphandle nje kwalokhu, zikhona ezinye izingozi ezingabangela ukuthi liguquke izinga lokwehla kwamandla emali njengoba libekiwe. Kunezinkomba zokuthi isimo somnotho emhlabeni siya ngokusimama. Lokhu kungaba nomphumela wokuthi amazinga enzalo yokubolekisa Ngezimali anciphe aze acishe afane nawakuleli laseNingizimu Africa. Ekhaya, isimo sokwanda kwezdingo saba nomthelela empahleni ethengwa emazweni angaphandle, kwalekelela ekwandiseni ubuncane bemali edingekayo ukulinganisa amabhuku okukhokha izikweletu. Ukuqhube ka kwamazinga aqinile amanani amaholo kanye nezinkomba ebezikhombisa ukudlondlobala kokufakwa kwemali emnothweni kubonakala sengathi kungaletha izingozi ekusimamiseni kwamanani entengo.

Ngale kwalezingozi, zabe ziningi ezinye izinto ezinhle ezenza iKomidi elisingethe Inkambiso Yokubolekisa Ngezimali laneliseke ukuthi umgommo obekiwe wezinga lokwehla kwamandla emali uzofezeka. Lokhu kuzodalwa ngamazinga aphansi okwehla kwamandla emali yokukhiqiza ezimbonini, namazinga aphansi okwehla kwamandla emali emhlabeni jikelele, ukuzithiba ekusebenziseni izimali zezabelo ezikhishwa nguHulumeni, kanye nezinga eliphansi lokwehla kwamandla emali elilindelekile.

Konke lokhu, uma sekuhlanganisa nokuqina kwezinga lokushintshisana kweRandi nezinye izimali zomhlaba; okwaqina ngamaphesenti ayisi-7 nengxenye kusukela ngomhlaka 10 ku Juni 2004 kuya ngomhlaka 11 ku Agasti 2004, kwenza iKomidi elisingethe Inkambiso Yokubolekisa Ngezimali, i-MPC, lehlise izinga lenzalo yokuboleka amabhange ngamaphuzu angama-50, yaba ngamaphesenti ayisi-7 nengxenye kusukela mhla ziyi-13 ku Agasti 2004.

Indlela Okuphethwe ngayo Ezezimali (Monetary operational procedures)

Ubungako bemali eyakhishwa ezimakethe zezimali eyabe iqondene nokugcwalisa izidigo okulindeleke ukuthi amabhange azifeze eBhange eliKhulu, behla kulonyaka ophezulu. Lobubungako bemali basebukhule bafinyelela kumaRandi angamabhiliyon angama-80,4, ekupheleni kuka Agasti wonyaka ka-2002. Lokhu kwadala ukulahlekelwa kwenzozo emva kokudaleka kwesikweletu esenziwa ukuthengiswa ngokweqile kwezimali zomhlaba ezishintshisana neRandi nanokuthi amabhange ayebhekene nokukhishwa kwezimali okukhulu emabhukwini awo. Okunye kwaba nokukhokwa kwezikweletu ezazinikezw lamabhange, inzuso eyatholwa yiBhange eliKhulu ngokwezivumelwano zokushintshisana namazwe angaphandle isikhathi singakafiki okwakwenziwa ukusimama kweRandi uma liqhathaniswa nemali yamaDola aseMelika, nokuphuma kwemali ezimakethe zezimali ngenxa yokubuyiselwa emuva kwamabhondi. Konke lokhu kwaphetha ngokuthi imali inciphe kakhu kakhulu ezimakethe zezimali, eyabe isilinganiselwa kumaRandi angamabhiliyon angama-25,8 ekupheleni kwenyanga kaDisemba 2003, ngaphambi kokuthi lemali iphinde yenyuke ize iyofika kumaRandi angamabhiliyon angama-42,3 ekupheleni kukaJulayi 2004.

Lokhu kunciphiswa kwemali ezimakethe zezimali kwenza ukuthi iBhange eliKhulu lithole ithuba lokucabanga kangcono ngokuthi yiziphi ezinye izindlela ezingasetshenziswa ekuphatheni kangcono izimali ezisetshenziswa ezimakethe zezimali. Indlela elandelwayo yokunciphisa ubungako bemali ezimakethe ileyo yokuba iBhange liboleke imali kumabhange (longer-term reverse-repo transaction); ukuthengisa amabhondi kaHulumeni; noma likhiphe izincwadi zezivumelwano zokuboleka imali, ezaziwa ngelokuthi, amadebentures.

Imali kanye namafa okulondoloziwe kwamanye amazwe (Foreign Exchange Reserves)

Amandla eRandi alawulwa kakhulu indlela okuthengwa nokudayiswa ngayo imali yamanye amazwe. Nokho-ke iBhange eliKhulu kade lilokhu lithenga imali yamaDola aseMelika engalinganiselwa kumabhiliyoni amaDola ayi-10,4 kusukela ekuqaleni konyaka ka-2003 kuze kube mhla zingama-31 ku Julayi, 2004, ngenhloso yokwandisa imali elondolozwe ngaphandle. Ngenxa yalomgomo kanye nokwebolekwa kwemali yasemazweni angaphandle, ibolekwa nguHulumeni, sekube nomphumela wokuthi isikweletu seBhange eliKhulu, esaziwa ngokuthi yi-Net Open Foreign Reserve Currency Position, sicishwe sonke; lokhu okwenzeka ngo Meyi 2003 kwase kuthi amabhuku aphaithelene nalezi zikweletu avalwa; lokhu okwenzeka ngo Febhuwari 2004. Lomgommo wenza ukuba kube nokusimama kwenani legolide futhi nemali elondolozive ngaphandle, yasuka kumaDola ase Melika angamabhiliyoni ayisi-7,8 ekupheleni kuka Disemba 2002 kuya kumaDola ase Melika angamabhiliyoni ayi-11,8 ekupheleni kuka Julayi 2004.

Ukuntengantenga kwedola laseMelika ezimakethe zezimali zomhlaba kwaba ngesinye sezizathu esimqoka esenza ukuba iRandi lidlondlobale ngamaphesenti ayi-16 ngonyaka ka-2003. Lokhu kudlondlobala kwaba, ngamaphesenti ayisi-8 ezinyangeni eziyisikhombisa zokuqala zonyaka ka-2004. Inani langaphandle leRandi laphinde lasekelwa kakhulu inhlanganisela yezinye izinto ezibandakanya ukusimama kwamanani nezinye izimpahla, ukukhuphuka kwentengo yegolide, amazinga enzalo aphezulu okubolekisa uma kuqhathaniswa nalawo awamazwe athuthukile, ukususwa kwezingqinamba ezenza kubenzima ukudayisa ezimakethe zezimali zomhlaba, kanye nokwethembeka kwezwe laseNingizimu Afrika ekuphatheni kwalo umnotho.

Ukusimama kwezezimali kanye namabhange (Financial Stability)

iBhange eliKhulu liyakuphokophelela njalo nje ukuthi amanani ahlale esesimweni esingaguuki futhi esiphusile. Ngalendlela iBhange linemisebenzi engahlukaniswa izigaba ezine eziqondene nokugcina isimo esisimeme kuwowonke amabhange kanye nezimakethe zezimali. Lezizigaba yilezi:

1. Ukwenza kube nemali eyanele yamaphepha neyensimbi eseizingeni eliphezulu.
2. Ukuqiniseka ukuthi ukusebenza kwendlela yokukhokhelana (national payment system) kube nempumelelo futhi kuhlale kuthembekile.
3. Ukugqugquzela ukuthi amabhange ahlale eseizingeni lokuphepha eliphezulu ngokuthi kusetshenziswe imithetho emukelekile eseizingeni lomhlaba.
4. Ukwazi ukubona nokucwaninga izingozi ezingahle zibekhona.

1. Ukusabalaliswa kwemali ezweni (currency circulation)

Umnotho ungasebenza kahle uma kunemali eyanele ejikeleza ngaphakathi ezweni, futhi esezingeni eliphezulu. Nyakenye, iBhange lakwazi ukufenza zonke izidiso zokuhambisa ngendlela eyanelisayo imali edingeka emaBhange nezindawo ezisebenzisa imali. Imali engamaphepha ekhona manje selokhu yaqala ngonyaka ka-1992. Ukuze izinga lemali lihlale liseqhophelweni eliphezulu, iBhange eliKhulu liphinde futhi lafaka izimpawu ezintsha zokuphepha ezizokwenza kubenzima kulabo abenza imali-mbumbulu. Kumanje nje uhlamu olusha lwemali yensimbi u-R5 seluqualile ukusebenza. Phezu kwalokhu, kubenemikhankaso ebhekiswe emiphakathini eyahlukene ukusiza lemiphakathi ngokuyazisa izimpawu zokuphepha ezikhona emalini nangenhloso yokuthi bakwazi ukugwema ubugebengu.

2. Indlela yokukhokhelana (national payment system)

Omunye umbandela osemqoka wokuthi kube nokusimama ezimalini, ukuthi kufanele kube nendlela yokukhokhelana ephephile futhi ephusile, ikakhulukazi kulabo abathengiselanayo. Eminyakeni emihlanu eyadlula kwaba nentuthuko ekunciphiseni izingozi ezingabangela ukungakhokhelani kahle. Ngonyaka wesabelo sezimali ka-2003/04 kwabuyekezwa indlela yokunciphisa izindleko ukuze kukhokheleke imali eyaphuma kulungiswa uhlelo lokukhokhelana olubizwa ngokuthi yi-South African Multiple Option Settlement (SAMOS) system. Igxathu elikhulu labonakala ekutheni iRandi lamukelwe njengenye yezimali ezosetshenziswa ohlelweni lokukhokhelana umhlabu wonke olubizwa ngokuthi i-Continuous Linked Settlement (CLS), kanye nokubuyekezwa komthetho wokukhokhelana obizwa ngokuthi i-National Payment System Amendment Bill.

3. Imithetho Yokusebenza Kwamabhungi (Banking regulation)

Igxathu elikhulu kwezokuphathwa kokusebenza kwamabhange kwabonakala ngokuphothulwa kwezivumelwano zokugcina izimali ezaziwa ngelokuthi i-Capital Accord – Basel II, ngenyanga ka Juni 2004. Kwanqunywa, phakathi kokunye, ukuthi kube nezindlela ezilula zokuqapha izingozi amabhange abhekana nazo. Lezizindlela zizoqala ukusebenza ngasekupheleni konyaka ka-2006. Ezinye izindlela ezisezingeni eliphezulu zokusingatha lokho okungaba yingozi, ziyoqala ukusebenza ngonyaka ka-2007 ngemva kokuphothulwa kocwaningo. Lesisinqumo sihambisana nokusebenza kwesivumelwano seBasel II ebeshihlele ukuqaliswa emva kokubonisana nabani nambamabhange eNingizimu Afrika ngenyaka ka-Febhuwari 2004. IBhange selize lasungula isigungu sokubonisana esiphathelene nokuqaliswa kokusebenza kwesivumelwano seBasel II.
