

Inkulumo kaMongameli emhlanganweni wamashumi ayishiyagalombili nesikhombisa wabanikazi bamasheya

Isingeniso

Inhloso ebaluleke kakhulu yeBhange eliKhulu laseNingizimu Afrika (iBhange) ukuba nempumelelo yokugcina amanani ahlale esimeme. Kodwa-ke, umsebenzi weBhange awugcini nje ngokubhekisa ukuphathwa komgomo wokuboleka amabhange ngezimali kuhela. Ukugcinwa kwezinga lokwehla kwamandla emali lihlale liphansi kwenza uhlaka olubalulekile lokuthi umnotho wezwe ukhule, bese kuthi ukuphathwa nokusingathwa kwezinhlaka ezithile zezimali kanye nokuphathwa kwezokukhokhelana kwenza amasondo omnotho ahlale ephenduka ngendlela egculisayo. Ngonyaka odlule siphoquelekile ukuhlala njalo siqaphe okungahle kube nomthelela ongemuhle kulomnotho wasekhaya. Izimakethe zezimali zaseNingizimu Afrika azikwazanga ukugwema umthelela wokuntengantenga kulezizimakethe okwabakhona, saphoqueleka ukuhlala sibhekisisile izingozi ezingavela ezingaba nomthelela omubi emnothweni wakuleli. Kufanele futhi siqiniseke ukuthi iBhange lihlala liphethwe ngendlela egculisayo ukuze lisebenze kahle. Kungalesi simo sokuntengantenga kwezimakethe zezimali ukuthi lombiko ubhekiswe kuzo.

Namuhla sizophinde sikhipe umbiko womnotho wonyaka owaziwa ngelokuthi *yi-Annual Economic Report*, oqukethe okwenzeka ngomnotho wasekhaya kanye nomhlaba wonke. Ikakhulukazi umbiko uqukethe izinguqoko emnothweni wasekhaya ezibe nomthelela ekufezeni umsebenzi wethu kanye nasekubekeni izinqubo-mgomo. Umbiko wanamuhla ubheke kakhulu ezinhlakeni zomsebenzi weBhange ezibandakanya ukuphathwa komgomo wokuboleka amabhange ngezimali, ukuphathwa kwezimali namafa akwamanye amazwe, ukusimama kwezikhungo zezimali, izindlela zokhukhokhelana, ukuphathwa kwamabhange, ubudlelwano namazwe angomakhelwane kanye nokuphathwa kweBhange ngaphakathi.

Inkambiso yokubolekisa ngezimali

Unyaka odlule bekungunyaka onzima mayelana nokuphathwa komgomo wokuboleka amabhange ngezimali. Njengoba ngenza umbiko ngenyanga ka-Agasti ngonyaka odlule ukuthi kusukela phakathi konyaka ka 2006 ingcindezi yokwehla kwamandla emali yabe isiqalile ukubonakala, lengcindezi isidlondlobele kakhulu. Kuthe ngenyanga ka Disemba 2006 izinga lokwehla kwamandla emali, uma ingafawkwanga inzalo yezikweletu zezindlu, iCPIX, labe lingama phesenti ama 5,0 uma liqhathaniswa nama phesenti ama 3,7 enyangeni ka-Apreli kulowonyaka. Izinga lokwehla kwamandla emali lahlala lingaphakathi kwamazinga ayebekiwe, lokhu okwaze kwaba yinyanga ka Apreli 2007, lapho lenyuka lisuka kuma phesenti ama 5,5 laba ngamaphesenti ayi 6,3. Kusukela ngaleso sikhathi izinga lokwehla kwamandla emali selilokhu lingaphezulu kwalawo mazinga abekiwe. Ekuqaleni lesismo sokwehla kwamandla emali sabangelwa amanani aphakeme okudla kanye nentengo kaphitholi, kodwa muva nje kuyabonakala ukuthi ukuqhubeka kokwehla kwamandla emali sekubandakanya nokwenyuka kwamanani okwenza imisebenzi ethile.

IKomidi yoMgomo wokuPhathwa kokuBoleka amabhange ngezimali, eyaziwa ngelokhu yi MPC, yabe isikhuphula inzalo yokuboleka amabhange ngezimali, ngamalunga angama 50 ngenyanga kaJuni 2006, okwaba ukukhushulwa ngokokuqala kwalenzalo kusukela ngonyaka ka 2002. Lokho kwabe sekulandelwa ukwenyuswa ngamalunga angama

50 njalo uma iMPC ihlangana ngonyaka ka 2006. Kuthe ngenyanga kaDisemba 2006 izinga lenzalo yokuboleka amabhange ngezimali yabe isikhushulwe yaze yaba ngama phesenti ayisi 9,0 ngonyaka.

Ingcindezi yokwehla kwamandla emali yayivela emazweni angaphandle kanye nasekhaya. Umnotho womhlaba jikelele walokhu uqhubeke njalo ukusebenza ngamawala okwabe sekudalela ukuthi amanani kawoyela kanye nokudla akhuphuke, lokhu okwenza ukuthi amanani okudla kanye nophitholi wakuleli nawo enyuke. Lokhu kwenyuka kwamanani okudla kanye nophitholi kwaba nomthelela omkhulu ekwehleni kwamandla emali ngonyaka ka 2006.

Kuthe ngenyanga ka-Agasti ngonyaka odlule, amazinga amanani kawoyela enyuka ngamazinga angaphansi kancane kwamadola aseMelika angama US\$80 umphongolo. Lamazinga aphezulu ayebangelwa izidingo eziphezulu kakhulu zikawoyela emhlabeni jikelele, ukuphazamiseka kokuthunyelwa kukawoyela emazweni athile kanye nokuntengantenga kobudlelwano bamazwe. Kanti namanani entengo yokudla abanomthelela omkhulu emhlabeni jikelele. Isomiso emazweni athile kanye noguquko ekusetshenzisweni komkhiqizo otshaliweyo, ikakhulukazi ukolo, ummbila kanye nomoba, kusetshenziselwa ukukhiqizwa kukawoyela, kwaba nomthelela emazingeni amanani. INingizimu Afrika ayibanga nokuvikeleka kulezinguquko, okwathi sekuhlanganiswa nesomiso ezifundazweni ezithile kwabangela ukuthi kudlondlobale ukwehla kwamandla emali aqondene nentengo yokudla, ikakhulukazi intengo enyama ilandelwe intengo yommbila. Kuthe ngenyanga ka-Okthoba nangenyanga kaNovemba 2006, amanani entengo enyama akhuphuka acishe aba ngamaphesenti angama 20, kanti amazinga entengo yommbila nokolo akhuphuka ngamaphesenti alinganiselwa kwayisi 6.

Noma izinga lokwehla kwamandla emali emhlabeni-jikelele lalilokhu liqashiwe, kodwa umthelela wezinguquko emhlabeni jikelele njengoba sekukhonjisiwe, wenza ukuthi kuqiniswe ukuphathwa komgomu wokuboleka amabhange ngezimali emazweni amaningi.

Ekhaya, ikomidi iMPC yaphoqeleka ukuqhubeka ibhekene nezinkinga zamazinga aphakeme okuthengwa kwezimpahla kanye nokuthenga ngezikweletu. Esigameni sesibili sonyaka ka 2006, izidingo zokuthengwa kwezimpahla yimindeni zadlondlobala ngamaphesenti alinganiselwa kwai 7; kwathi izinkomba ezahlukene zokuthenga izinto ezahlukene zabonakalisa ukndlondlobala kakhulu, ngaphezu kokuthi umgomu wokuboleka amabhange ngezimali wawuya ngokuya uqiniswa. Ngasekupheleni konyaka ukuthengiswa kwezimonto kwakhombisa ukwehla, ikakhulukazi izimoto ezisetshenziswa imindeni. Imbangela yokukhula kokusetshenziswa kwezimali yimindeni kwabe kungukuqhubeka kwamazinga aphezulu okubolekisa ngezimali ngaphezu kokuthi imigomo yezibambiso zokweboleka yayisiqinile.

Ukwehla kwamazinga okushintshanisa ngemali ngamaphesenti ayi 15 kusukela ngenyanga kaMeyi kuya ku Julayi 2006 (okuyizinga lokushintshanisa nge randi) kwaba nomthelela emazingeni okwehla kwamandla emali. Noma kunjalo izinga lokushintshanisana ngerandi lahlala lisemsweni esinzima ngaphezu kokuqhubeka kokusetshenziswa kakhulu kwemali ephumayo nengenayo emabhukwini kahulumeni, eyabe ikhokhelwa ukungena kwezimali eziphuma emazweni angaphandle ekukhokheleni izimpahla zokwakha umkhiqizo.

Akusizona zonke izinkomba zokwehla kwamandla emali ezaziletha uhlevane ezingeni lokwehla kwamandla emali. Izindleko zokusebenza ezimbonini zacincwa zisemazingeni afanele, ukusetshenziswa kwezimali zombuso kwaqhubeka kubambisene nomgomo wokweboleka amabhange ngezimali, kanti noma ukukhula komnotho wakuleli kwakukhula ngamandla, bekungabonakali kukhula ngaphezu kwamazinga ayelindelekile. Nokulindeleka kokukhula kokwehla kwamandla emali kwakulokhu kugcinwe emazingeni ayebekiwe.

Ezinyangeni ezimbili ekuqaleni konyaka ka 2007 intengo kawoyela yomhlaba yehla kakhulu, kwathi enyangeni kajanuwari, intengo kawoyela ongahluziwe obizwa ngokuthi i-North Sea Brent crude oil yehla yafika kumadola angama US\$51 umphongolo. Lokhu kwaba nomthelela ukuthi kubuyekezwu izinhlelo zokusebenzia izimali. Ngaso lesosikhathi, kwaba nezimpawu ezazikhomba ukuthi kuyehla ukuthengwa kwezimpahla yiminden, ikakhulukazi ukuthengwa kwezimoto zeminden ngesikweletu. Ikomidi iMPC yabe yazi ukuthi kuthatha isikhathi ukubona imiphumela yokuguqulwa kwenzalo yokubolekisa amabhange ngezimali. Noma izinkinga eziqondene namazinga okwehla kwamandla emali zazibonakala zilokhu ziqhubele, imizamo eyayiqhubeke njalo yokusimamisa ukushintshisana ngerandi, ukupathwa kwezimali zombuso kanye nemigomo engcono eyayibhekiwe ngesimo sokwehla kwamandla emali, yenza ukuthi ikomidi iMPC igcine ngokungayiguquli inzalo yokubolekisa amabhange ngezimali ngezinyanga zikaFebhuwari no-Apreli.

Emhlanganweni wekomidi iMPC ngoJuni 2007 isimo sabe singesihle. Ngaphezu kokuba amazinga enzalo yokubolekisa amabhange ngezimali ayekhushuliwe, ukuthengwa kwezimpahla zeminden kanye nokuthenga ngezikweletu yiminden kwaqhubeka kudlondlobala okwathi uma kuqhathaniswa namazinga onyaka komunye unyaka kwakulinganiselwa kumaphesenti ayisi 7 kanye namaphesenti angama 26. Intengo kawoyela yomhlaba wonke yaqala yakhuphuka yaze yafinyelela kumadola angama US\$78 umphongolo ngenyanga ka Julayi. Ukwenyuka kwentengo kawoyela akuzwakalanga kakhulu lapha ekhaya ngenxa yokuthi izinga lokushintshanisa ngerandi labe lisimeme njalo. Kodwa ke, kuthe lapho amazinga okwehla kwamandla emali edlula emazingeni abekiweyo, kwaqala kwaba nezinkomba zokkhathazeka zokuthi izinga lokwehla kwamandla emali lingahle lenyuke. Phezu kwalokhu, ngokubona imiphumela yamazinga okwehla kwamandla emali, kwaba neziteleka zabasebenzi ezimbonini ezazifuna amaholo angcono, okwakuzoba nomthelela ekukhuphuleni amazinga okwehla kwamandla emali. Ngenxa yalezizinkomba kwadingeka ukuthi ikomidi iMPC, emhlanganweni wayo owaba senyangeni kajuni kanye no-Agasti 2007, ikhuphule izinga lenzalo yokwebolekisa amabhange ngezimali. Ngesikhathi somhlangano enyangeni ka Agasti, kwase kuqalile ukuba nezinkinga ezimakethe zezimali emhlabeni wonke. Ngalesosikhathi ikomidi iMPC yayingakazi kahle ukuthi lezinkinga zizogcina ezimakethe zezimali kuphela, noma zizoba nomthelela ongemuhle ekukhuleni komnotho wakuleli nakwamanye amazwe. Ikomidi yabe isithatha isinqumo sokuthi kufanele libhekane nezinguuko ezingaba nomthelela ongemuhle emazingeni ayebekiwe okwehla kwamandla emali, liphinde libhekane nezinguuko ezivela ezimakethe zezimali ezingaba nomthelela ekwehleni kwamandla emali.

Ukweqa kulawo mazinga abekiwe okwehla kwamandla emali kuba yinkinga ekusingatheni umgomo wokwebolekisa amabhange ngezimali. Kodwa kufanele kwaziwe ukuthi ukweqa ngaphezulu kwamazinga abekiwe kwadalwa yisimo

esingaphezulu kwamandla omgomo wokubolekisa amabhange ngezimali. Asikhohlwa umthelela wezinguuko ezithinta ukwehla kwamandla emali nesidingo sokuvimbela amazinga okwehla kwamandla emali. Izinkomba ezisetshenziswa yiBhange zikhombisa ukuthi ukwehla kwamazinga amandla emali kuzobuyela emigomeni ebekiwego kusukela esigamini sesibili sonyaka ozayo, kanti futhi umgomo wokubolekisa amabhange ngezimali uzoghubeke uqiniseke ukuthi loluhlelo lube yimpumelelo.

Ukusebenza kwezimakethe zezimali

Ukuze kubenesiqiniseko sokuthi umgomo wokubolekisa amabhange ngezimali usenjengoba ubekiwe yikomidi iMPc, iBhange likwazile ukuthi ligcine izidingo zemali ezimakethe zakuleli zihlale zingaphakathi kwamarandi ayi R10 wamabhiliyonu kanye nayi R15 wamabhiliyonu. IBhange seliphinde landisa izinhlobo zezibambiso zokweboleka imali ezimakethe zezimali. Kusukela mhla zingama 23 kuMeyi 2007, amaqqo amabili ezibambiso avumelekile ukuthi angasetshenziswa. Iqoqo lokuqala lifaka amabhondi kahulumeni okwaziwa ngokuthi ngama Government Bonds, amabhondi akhishwa yiBhange lezoLimo okwaziwa ngokuthi ngama Land Bank Bills, izibambiso ezishintshaniswa ngokufaka inzalo, okwaziwa ngokuthi STRIPS, izibambiso ezikhishwa yiBhange eliKhulu okwaziwa ngokuthi yiSARB debentures kanye nezibambiso zesikhashana zikahulumeni okwaziwa ngokuthi ngama Treasury Bills. Iqoqo lesibili lezibambiso lifaka amabhondi angakhishwa emabhange kanye nakuhulumeni lawo ashintshaniswa ezimakethe zamabhondi eyaziwa ngokuthi yiBond Exchange of South Africa. Kulabo abboleka imali besebenzisa izibambiso ezingaphansi kweqoqo lesibili, kumele bakhiphe izibambiso ezingaphezulu kweqoqo lokuqala.

Ngokubambisana nalabo abase zimakethe zezimali, iBhange kade lihlolisisa indlela okubalwa ngayo inzalo esetshenziswa uma kubolekiswa ngezimali kulezimakethe eyaziwa ngelokuthi yiSouth African Overnight Interbank Average (Saonia) rate. LeSaonia isiguquliwe kwabe sekusetshenziswa indlela yokubala inzalo eyaziwa ngelokuthi yiSouth African Benchmark Overnight Rate (Sabor), okuyiyona esebezena kangcono futhi ethembekile kunale ebisetshenziswa.

Ukuphathwa kwezimali namafa abekwe emazweni angaphandle

IBhange lihubekile nokwandisa amazinga okubeka izimali kanye namafa asemthethweni kwamanye amazwe. Ubungako begolide namanye amafa abekwe kwamanye amazwe bakhula kusukela kumadola angama US\$23 amabhiliyonu ekupheleni kwenyanga kaMashi 2006 kuya kumadola angama US\$29,8 amabhiliyonu ekupheleni kwenyanga ka-Agasti 2007. Izimali ezisezimakethe zomhlaba zanyuka kusukela kumadola ayi US\$19,5 amabhiliyonu kuya kumadola angama US\$27,4 amabhiliyonu. Lesisimo senziwa ngcono ngenxa yokukhokheleka kwesikweletu esabe senziwa ngonyaka ka 2004 esilinganiselwa kumadola a US\$1 webhiliyonu sikhokhwa yiBhange singakafiki isikhathi. Ukukhokha singakafiki isikhathi kwenza ukuthi iBhange longe imali futhi lazibeka esimweni esihle kubalingani balo kwamanye amazwe. Ngokuthi uMnyango weZezimali kaHulumeni ukwazile ukukhokha isikweletu esibalwa ngezimali zakwamanye amazwe, lokhu kukhokha kwenza ukuthi izwe laseNingizimu Afrika lizibeke ezingeni elihle futhi eliqinile.

Okwabe kubhekelwe kakhlulu yiBhange kwaba ukuqiniseka ukuthi amakhono okuphatha amafa ahlale ebuyekezwa njalo. Lokho kwenza ukuthi iBhange lisebenzisane neBhange loMhlaba, iWorld Bank ngaphansi kophiko olusiza amanye amabhange amakhulu ngokufundisa ngobuciko bokuphatha amafa, elaziwa ngelokhu yiReserves Asset Management Programme. Ukwandisa ulwazi oluqondene nokuphathwa kwamafa

kuyinto emqoka kakhulu eBhange. Ngalendlela iBhange liqhubekile nokufundisa labo basebenzi abangaphansi kwalomkhakha wokupathwa kwamafa ngenhoso yokuqinisa amakhono abo. Ngaphezu kwalokho umgomo wokutshala izimali zeBhange wabuyekezwa, kwase kuthi nezinhlaka zokupathwa zenziwa ngcono ngokuthi kuphenjwe iKomidi lokuPhatha Amafa eBhange elaziwa ngelokuthi yiReserves Management Committee.

iBhange liqhubekile nokubambisana noMnyango kaHulumeni weZezimali ikakhulukazi ekukhuliseni amafa kanye nemali esetshenziswayo ezimakethe zezimali. UMnyango weZezimali uphinde wasiza iBhange ngokuthi kuncishiswe ukwanda kwemali esetshenziswa ezimakethe zezimali, lokhu okwadalwa yikuthi iBhange labe lithenga izimali zakwamanye amazwe. Kuthe ekupheleni kwenyanga kaJulayi 2007, i akhawunti esemabhukwini eBhange yokubeka izimali zoMnyango weZezimali kaHulumeni, yabe isenemali ebalelwa kumarandi angama R54,5 amabhiliyon iokhu sekubandakanya nenzalo yalemali. Isivumelwano sesenziwe sokuthi kukhokhwe lezo zimali ezabe zibolekiwe, zafakwa kwi akhawunti eyayibhekelele isimo esingaba simbi. Lokhu kufaka igolide kanye nezimali zakwamanye amazwe eyaziwa ngelokuthi yiGold and Foreign Exchange Contingency Reserve Account (GFECRA). iBhange kanye noMnyango weZezimali sebevumelene ngelokuthi sekuzoba yinzozo noma ukulahlekelwa okunomthelela ezimakethe zezimali osekuyokhokhelwa ngaso sonke isikhathi. Loluhlelo lubonakala Iuzonciphisa ukushintshana kwemali isuka eBhange iya eMnyangweni weZezimali njalo, kuphinde kunciphise ubungako bemali ezimakethe zezimali. Ngaphansi kwalolu hlelo iBhange selithumele imali yama randi angama R319,3 amamiliyoni sekufaka nenzalo eMnyangweni weZezimali ukuqedela imali ebisele ye GFECRA mhla zingama 31 kuMashi 2006.

Ukusabalaliswa kwemali ezweni

Izindlela nezinhlelo zokunciphisa ukungena kwemali-mbumbulu ezweni zisaqhubeka ukuze kusebenze leyomali evumelekile kuphela futhi esemthethweni. Sekumiswe imigomo ethile yokukhipha imali entsha.

Isigaba sokuqala sokupathwa kwemali okufaka uhlelo olubandakanya amabhange olwaziwa ngokuthi yi Integrated Cash Management System selupothuliwe. Loluhlelo lungaba nomphumela omuhle wokupathwa kwemali kuzwelonek ukuthi imali isabalaliswe ngokuphephile futhi nangendale engenazo izindleko ezinkulu emphakathini.

Uhlelo olusasungulwa lokubhekana nezingozi eziqondene nokusabalaliswa kwemali, nanokuthi lezi zingozi zingancishisa kanjani, olwasungulwa yiBhange kanye neziko eliphathelene nokubheka kanye nokubika ngezingozi zokusabalaliswa kwemali, lokhu okubandakanya amabhange kanye nombutho wamaphoyisa ezweni, usuphethiwe. Loluhlelo lubalula imigomo ethile okufanele ifezwe uma kusabalaliswa imali kuleli ukuze kunciphe izigigaba zokuduna izimoto ezhambisa imali ezindaweni ezahlukene. Okwamanje kusakhulunyiswana nezinyunyana zabasebenzi ukuqedela loluhlelo. Imigomo lena esibekiwe izoshicilelwu kusomqulu ngokomthetho ngaphansi kukaNgqongqoshe weZokulungisa nokuPhepha.

Indlela yokukhokhelana ezweni

Ubungako bokukhokhelana kwamabhange ezweni ngohlelo olwaziwa ngelokuthi yiSouth African Multi Option Settlement System (SAMOS) kwabalelwu kuma randi ayisi R5,6 wamathriliyon ngenyanga ka Julayi 2007, lokhu okungalinganiselwa kumarandi angama R280 wamabhiliyon ngosuku. Lesisibalo semali sifaka izimali eziphuma

ezimakethe zamashaya kanye namabhondi. Ngonyaka ka 2006 kanye no 2007, kungalinganiselwa kuma phesenti angama 90 ukukhokhelana okwakungena kuloluhlelo IweSAMOS okwakukhokhwa bukhoma ngosuku. Besekuthi okusalayo ukukhokhelana khona kwakwenzeka kusihlwa ngoba kufaka amanani amancane ayeqoqelwe ndawonye.

Iziqondiso ezakhishwa mayelana nokuziphatha ekusebenzeni kokukhokhelana zizoqala ukusebenza kulonyaka ka 2007. Kuthe ngenyanga ka Meyi 2007 iBhange lakkhipha uhlaka olubanzi okufanele lulandelwe yizinkampani ezingesiwona amabhange ezisebenza ohlelweni lokukhokhelana. Okugcizelela kakhulu yindlela yokuhlola ukusimama kwezindlela zokukhokhelana.

Ngemuva kokushicilelwu komthetho wokuphatha ezokwebolekisana ngezimali, iNational Credit Act 2007, sekuphinde kwenza ukuthi kubuyekezwe umthetho wohlelo lokukhokhelana iNational Payment System Act 1998. Sekuyicala ukuqoqa izikweletu ngendlela yokukhetha kunoma yiluphi uhlelo lokukhokhelana. Ngaleyondlela izikweletu kufanele ziyoqwe ngokufanayo.

Ukusimama kwesimo samabhange nezinye izikhungo zemali

Ekusekeleni inhoso yokuphumelela futhi ligcine ukusimama kwamanani, iBhange lihlale libhekisia izinkomba zobuthakathaka bohlelo Iwezezimali liphinde liqaphele nezingozi ezingaphazamisa uhlelo Iwezezimali. Uma kubhekwa izinkomba ezahlukene eziphatelene nokusimama kwezimali, indlela yokuphathwa kwezimali yanconya wa ngokusimama kwayo.

iBhange liphinde lacwaninga uhlelo Iwezikhungo ngenqubo yezezimali yalapha eNingizimu Afrika kwatholakala ukuthi lemigomo isenamandla uma iqhathaniswa neyishumi nambili ebekwe yinlangano eyaziwa ngokuthi yi Financial Stability Forum engaphansi kwebhange elisebenzelana namabhage emibuso emhlabeni-jikelele elaziwa ngokuthi yi Bank for International Settlements (BIS). Noma kunjalo, kusekhona izinselelo zemigomo zezimali ezisasele ezinjengalezi, umthelela ongabakhona njengoba kusanda kushicilelwu umthetho omusha wokubolekisa ngezimali okuthiwa yi National Credit Act, nokungase kuqualwe uhlelo lokuvikela izimali ezifakwe emabhange olubizwa ngokuthiwa deposit insurance scheme, nokubuyekezwa ekubenzi yilunga le South Africa's Financial Task Force, izinyathelo zokubuyisela izimali ezivikelwayo ezisebenza ezimakethe zezimali zibe phakathi komgomu womthetho okhona kanye nokusetshenziswa komthetho omusha ozongamela amabhange omhlaba wonke, owaziwa ngelokuthi yi Basel II, ozoqala ukusebenza ngosuku loku 1 ku Januvari 2008.

Ngokubambisana nezinye izikhungo ezibhekene nemigomo yokusimama kwezimali, iBhange liqhubele nemizamo yokulungiselela nokugcina izinhlelo zokuqapha izingozi ezingasetshenziswa uma kuvela ubunzima ohlelweni Iwezezimali. Kulonyaka, kuqualwe uhlelo lokuvivinya imikhakha eyahlukene yezimboni zezimali ukwenza isiqiniseko sokuthi lemikhakha ingamelana nanoma iziphi izingozi ezingavela. iBhange lifake isandla ekuqoqeni nasekuhlanganiseni kwemibiko ephathelene nokuqashwa kwezingozi ezingaba khona ezimakethe zezimali ebizwa ngelokuthi yi Coordinated Compilation Exercise engaphansi kwenhlangano yezezimali yomhlaba eyaziwa ngokuthi yi International Monetary Fund (IMF), eqondiswe ekuthuthukiseni amazwe ukuze akwazi ukuhlanganisa izinkomba zokuhlola ukusimama ezimakethe zezimali.

Imithetho yokwengamela nokuphathwa kwamabhange

IBhange linomgomo wokuqinisekisa ukuthi ukwengamelwa kwamabhange asekhaya kuyahambisana nenqubo yokwengamelwa kwamabhange omhlaba wonke. Okusemqoka kakhulu ukulungiselela ukungeniswa kokusetshenziswa komthetho omusha ozongamela amabhange omhlaba wonke, owaziwa ngelokuthi yi Basel II. Amalungiselelo awagcini nje ngokubuyekezwa komthetho ozongamela amabhange, kodwa futhi ukujinisekisa ukuthi lomthetho usetshenziswa ngendlela efanelekile nangempumelelo ozoqala ngosuku loku 1 Januvari 2008.

Ukungeniswa kwalomthetho we Basel II kwenze kube nesidingo esikhulu sokuxhumana nokusebenzisana namabhange. Ukuxhumana namabhange kubandakanye ukuthi abasebenzi beBhange bawavakashele lamabhange, nokuhlolwa kwezindlela ezithile ezizoba nomthelela ekusetshenzisweni kwalomthetho, ikakhulukazi ekubhekeni kwamafa okumele agcinwe amabhange kanye nokubhekela ukuthi asefikile esimweni sokuqala ukusebenzisa lomthetho.

Ukuhambisana nemigomo kanye nezinguquko emabhange kuhambisana nezidingo ezivela ezimakethe zezimali, futhi nokubhekisa izidingo zomthetho we Basel II, isichibiyelo sokuqala sokubuyekezwa komthetho wokusebenza kwamabhange owaziwa ngokuthi yi Banks Act, washicilelwa ngenyanga kaNovemba 2006. Lesi sichibiyelo sabe sesethulwa ePhalamende phakathi nenyanga kaJuni 2007. Kulindelwe ukuthi lomthetho ufakwe ngokusemthethwen ngasekupheleni kwalonyaka ngenhoso yokuthi ugale usetshenziswe ngosuku loku 1 Januvari 2008. Imithetho yonke ephathelene nokuphathwa kwamabhange isibuyekeziwe ukuze ilandele umgomo omusha we Basel II kanye nokusiza amabhange ngezindlela ezahlukene ezilethwa yilomthetho we Basel II.

Ukuhlola ukuthi imithetho iyagcinwa yokuphathwa kwamabhange eshicilelwwe usomqulu owaziwa ngokuthi yi 25 Core Principles for Effective Banking Supervision weKomidi yokuPhathwa kwamabhange iBasel Committee on Banking Supervision, waphothulwa ngenyanga ka-Oktoba 2006. Umphumela walokhu kuhlolwa wenza ukuthi labo abaphethe ukuhlola babhekisise izindlela abazilandelayo uma kuhlolisiswa amabhange ngenhoso yokuqinisa izindlela eziethenziwayo.
