

KRUGERRAND

The SARB purchases all Krugerrand series coins. (Sizes: 2 oz, 1 oz, ½ oz, ¼ oz and 1/10 oz.)

Struck for the first time on 3 July 1967, with the aim of marketing South African gold, this legend in the coin industry was conceived when the concept of a legal tender gold coin linked to the daily gold price was introduced in South Africa.

The reverse was originally designed and engraved by the famous sculptor, Coert Steynberg, and features South Africa's national animal, the springbok.

Reverse

The effigy of Paul Kruger, the first President of the Zuid-Afrikaansche Republiek (ZAR), is depicted on the obverse.
