Legal context

Although the Republic of South Africa (South Africa) has had exchange controls since 1939, the foundation thereof is the Currency and Exchanges Act, 1933 (Act No. 9 of 1933) (the Act) and the Exchange Control Regulations (Regulations) promulgated thereunder in terms of section 9(1) of the Act, on 1961-12-01. In terms of these Regulations, the control over South Africa's foreign currency reserves, including accruals thereto and spending thereof is vested in the Treasury, who is authorised to grant permissions or exemptions for certain transactions, subject to certain conditions. Although these permissions or exemptions which were previously referred to as 'Rulings' have no statutory force, they have the effect of law. 'Treasury', is however defined to mean, in relation to any matter contemplated in the Regulations, the Minister of Finance or an officer in the Department of Finance (now the National Treasury) who, by virtue of the division of work in that Department, deals with the matter on the authority of the Minister of Finance.

The Minister of Finance has in terms of Regulation 22E delegated to the Governor, a Deputy Governor, the Head of the Financial Surveillance Department as well as other officials in the Financial Surveillance Department, the powers, functions and duties assigned to and imposed on the Treasury under the Regulations. The Financial Surveillance Department of the South African Reserve Bank (Financial Surveillance Department) is therefore responsible for the day to day administration of exchange controls in South Africa.

Section 9(5)(a) of the Act provides for the issuing of Orders and Rules, the current set of which was also promulgated on 1961-12-01. The Orders and Rules contain various orders, rules, exemptions, forms and procedural arrangements.

Introduction

In terms of Regulation 2(2), an Authorised Dealer shall not buy, borrow, receive, sell, lend or deliver any foreign currency or gold except for such purposes or on such conditions as the Treasury, as defined, may determine, subject to the delegation referred to above.

This Currency and Exchanges Manual for Authorised Dealers (Authorised Dealer Manual) contains the permissions and conditions applicable to transactions in foreign exchange that may be undertaken by Authorised Dealers and/or on behalf of their clients in terms of Regulation 2(2), details of related administrative responsibilities as well as the FinSurv Reporting requirements. This Authorised Dealer Manual must be read in conjunction with the Regulations and Authorised Dealers may transact without reference to the Financial Surveillance Department, provided such transactions are permitted in terms of this Authorised Dealer Manual.

The arrangements set out in the Authorised Dealer Manual should in no manner be construed as absolving Authorised Dealers, their clients and associated entities from their duties and obligations under any other law, including but not limited to the Prevention of Organised Crime Act, 1998 (Act No. 121 of 1998), the Financial Intelligence Centre Act, 2001 (Act No. 38 of 2001) and the Protection of Constitutional Democracy against Terrorist and Related Activities Act, 2004 (Act No. 33 of 2004).

The Financial Surveillance Department views contraventions of the Exchange Control Regulations, as well as any actions to circumvent the permissions and conditions contained in the Authorised Dealer Manual, in a very serious light.

The Financial Surveillance Department reserves the right to amend, grant or impose additional permissions or conditions, with new or amended permissions or conditions which will be communicated by the Financial Surveillance Department on its website.

In instances where an Authorised Dealer is not in a position to buy, borrow, sell or lend foreign currency in terms of the permissions and conditions set out in the Authorised Dealer Manual, an official application with full details applicable to the request must be submitted to the Financial Surveillance Department.

For the benefit of the general public, Currency and Exchanges guidelines for business entities and Currency and Exchanges guidelines for individuals have been published by the Financial Surveillance Department. These guidelines set out, in less technical terms, the permissions and conditions relating to cross-border foreign transactions.

The Authorised Dealer Manual, ADLA Manual, Currency and Exchanges guidelines for business entities, Currency and Exchanges guidelines for individuals and applicable amendments thereto are available on the South African Reserve Bank's website: www.resbank.co.za.

A.3 Duties and responsibilities of Authorised Dealers

(A) Introduction

- (i) Authorised Dealers should note that when approving requests in terms of the Authorised Dealer Manual, they are in terms of the Regulations, not allowed to grant permission to clients and must refrain from using wording that approval/permission is granted in correspondence with their clients. Instead reference should be made to the specific section of the Authorised Dealer Manual in terms of which the client is permitted to transact.
- (ii) In carrying out the important duties entrusted to them, Authorised Dealers should appreciate that uniformity of policy is essential, and that to ensure this it is necessary for the Regulations, Authorised Dealer Manual and circulars to be applied strictly and impartially by all concerned.
- (iii) Any deviation from or non-compliance with the directives contained in the aforementioned documents is regarded in a serious light and Authorised Dealers are urged to adhere strictly to the directives issued.
- (iv) In the interest of all parties concerned, it is emphasised that action may be taken in the event of transgressions of the Regulations and non-compliance with the Authorised Dealer Manual, circulars and other directives and authorities. The circulars, other directives and authorities need to be emphasised and adhered to by both the Authorised Dealer and its clients.
- (v) The provisions of Regulation 2(1), expressly prohibit foreign exchange transactions other than through an Authorised Dealer.
- (vi) Authorised Dealers must ensure that foreign currency is made available for legitimate purposes only and must call for the production of documentary evidence where requested in the Authorised Dealer Manual.
- (vii) Care must be exercised by Authorised Dealers to ensure that no payments to third parties abroad are effected. Transactions of this nature must be referred to the Financial Surveillance Department for prior written approval.

(B) Procedures to be followed by Authorised Dealers in administering the Exchange Control Regulations

- (i) In cases where an Authorised Dealer is uncertain and/or cannot approve the purchase or sale of foreign currency or any other transaction in terms of the authorities set out in the Authorised Dealer Manual, an application should be submitted to the Financial

Surveillance Department via the head office of the Authorised Dealer concerned.

- (ii) Should an Authorised Dealer have any doubt as to whether or not it may approve an application, such application must likewise be submitted to the Financial Surveillance Department. Authorised Dealers must as a general rule, refrain from their own interpretation of the Authorised Dealer Manual.
- (iii) Authorised Dealers are to ensure that when submitting applications to the Financial Surveillance Department, the branch code number is reflected on the top of the application. The branch code number may replace the name of the branch or may be reflected together with the named branch. Branches of Authorised Dealers who do not have a branch code number are requested to obtain an eight digit number from the Financial Surveillance Department.
- (iv) An Authorised Dealer shall furnish the Financial Surveillance Department, on a six-monthly basis, with a list of the names and the specimen signatures of officials authorised to sign correspondence addressed to the Financial Surveillance Department as well as the email addresses of at least two senior officials to whom urgent correspondence, if needed, could be referred to.
- (v) The Financial Surveillance Department is required to be in possession of full information regarding the transaction, its nature and purpose (clearly specifying the motive and intent), before consulting with the Treasury or exercising the powers, functions and/or duties delegated to it by the Minister of Finance. The application should therefore state whether there are or will be any other direct or indirect underlying, related or connected transactions or arrangements of any nature whatsoever. Any previous application that has any bearing (directly or indirectly) on the current application must be referred to as previous related correspondence.
- (vi) When submitting applications for consideration, Authorised Dealers should ensure that the surname and full first names (in the case of an individual) and the correct registered name (in the case of a legal entity or juristic person, e.g. company, partnership or trust) are furnished. Identification numbers for private individuals and registration numbers in respect of legal entities or juristic persons must also be furnished. The same names must be used in subsequent applications, unless specific attention is drawn thereto.
- (vii) Authorised Dealers must state whether or not they recommend the application and their reasons for making or withholding their recommendation.
- (viii) Authorised Dealers' clients should on no account be advised to apply directly to the Financial Surveillance Department. Neither the Treasury

nor the Financial Surveillance Department is in a position to consider an application without the comments and recommendations of the Authorised Dealer concerned.

- (ix) Applications submitted to the Financial Surveillance Department that do not contain sufficient information will be returned to the applicant's banker. Accordingly, to avoid unnecessary delays, Authorised Dealers must ensure that full and precise particulars of the underlying transaction are given in the first instance.
- (x) Urgent applications may be submitted through the secure website of the South African Reserve Bank at <https://wwwi.resbank.co.za/ifforms.nsf>. To access this facility, a user-ID and password are required, which can be obtained from the Financial Surveillance Department by sending an email to FNS-HEADTYPIST@resbank.co.za in this regard.
- (xi) Replies to applications will be addressed to the head offices of Authorised Dealers, who should ensure that the requirements of the Financial Surveillance Department are fully explained to branches to avoid any misunderstanding on the part of the latter and the applicants concerned.
- (xii) Where approval from the Financial Surveillance Department is to be executed (in whole or in part) by an Authorised Dealer other than the one who obtained the approval, the executing Authorised Dealer must first obtain a copy of such approval to ensure that all the terms and conditions laid down have been met. In the case of more than one Authorised Dealer executing a transaction, the onus is jointly on such Authorised Dealers to ensure compliance.
- (xiii) Any authority granted by the Financial Surveillance Department should be regarded as cancelled if the applicants concerned do not avail thereof within a period of six months from the date of such authority being granted. This would exclude authorities that were granted for longer periods. The Financial Surveillance Department reserves the right, however, to cancel any authority with immediate effect.
- (xiv) It is essential that any transaction must be concluded on the particular basis as formally sanctioned and any deviation from the arrangements originally approved should be referred to the Financial Surveillance Department.
- (xv) Authorised Dealers may sell foreign currency only for permissible purposes and on such conditions as the Treasury may determine.
- (xvi) It is the responsibility of the Authorised Dealer selling the foreign currency, and not that of the paying away bank, to ensure that the laid-down procedures and requirements are complied with. These duties may not be assigned to another Authorised Dealer. The only exception to this rule relates to forward contracts or foreign currency option contracts not

exceeding 12 months to maturity in section D.1(B) of the Authorised Dealer Manual.

- (xvii) Authorised Dealers may extend foreign currency-denominated facilities to South African corporates for the financing of approved foreign direct investments.
- (xviii) The attention of Authorised Dealers is also drawn to, inter alia, the provisions of Regulation 10(1)(c). In this regard, it is essential that all transactions (e.g. purchase, sale, exchange, barter), between a resident and a non-resident, whereby capital or any right to capital is directly or indirectly exported from South Africa, especially those that have cross-border cash flow implications, are carefully scrutinised and documentary evidence sighted in order to ensure that such transactions are concluded at arm's length and at market related prices. In the case of any doubt on the part of the Authorised Dealer concerned, the proposed transaction is to be referred to the Financial Surveillance Department.
- (xix) Clients of Authorised Dealers are not permitted to set off foreign commitments against foreign accruals, whether of a capital or a current nature, unless specifically authorised by the Financial Surveillance Department or as provided for in the Authorised Dealer Manual.
- (xx) Attempts have been made to circumvent the Financial Surveillance Department's requirements by applying to more than one Authorised Dealer. To prevent this, the following procedures have been laid down:
 - (a) Should an Authorised Dealer to whom an application has been made, be in any doubt, such Authorised Dealer should confer with other Authorised Dealers to whom a similar application may have been made.
 - (b) Where the foreign exchange business of a client is divided, the Authorised Dealers concerned should consult among themselves to ensure that the requirements of the Financial Surveillance Department are being interpreted by each Authorised Dealer in a similar way and that all parties are conducting the business on an identical basis.
- (xxi) Transactions passing through clients' accounts must be closely monitored as a possible means of affording information useful to the Financial Surveillance Department or of detecting any contravention of the Regulations which, if revealed, must be promptly reported to the Financial Surveillance Department. In this regard, the attention of Authorised Dealers is directed to the powers conferred on them under the provisions of Regulation 19(1), which entitle them to call for any information and to inspect any books or documents as may be necessary to ensure compliance with the Regulations. These powers should be fully availed of by Authorised Dealers in carrying out the powers, functions and/or duties assigned to them under the Regulations.

(xxii) Applications submitted to the Financial Surveillance Department must be numbered in a sequential numerical order to ensure that all exchange control applications submitted and replies thereto are duly accounted for. Authorised Dealers must furnish the Financial Surveillance Department on a quarterly basis with a return of missing application sequence numbers covering the preceding quarter containing:

- (a) a list of application numbers generated but not submitted to the Financial Surveillance Department;
- (b) a nil return in the event of all applications having been submitted in sequential order; and
- (c) the range of application numbers generated.

(xxiii) Authorised Dealers must reset their application numbering systems to zero at the beginning of each calendar year.

(C) Documentary evidence required by Authorised Dealers in foreign exchange

- (i) As far as documentary evidence, as called for in the various sections of the Authorised Dealer Manual is concerned, Authorised Dealers should endorse such documentation 'exchange provided' or alternatively where such documentation is stored digitally and an audit trail exists, no endorsement is required.
- (ii) Digital copies of the documents must be retained for a period of five years by Authorised Dealers for inspection purposes. Authorised Dealers should also point out to their clients that original documents must be retained for a period of five years for inspection purposes.
- (iii) Whenever documentary evidence is called for in any section of the Authorised Dealer Manual, Authorised Dealers shall be obliged to ensure that such documentary evidence, which shall be obtained and scrutinised in connection with a relevant commercial or other transaction involving the purchase or sale of foreign currency either spot or forward, shall, in terms of accepted trade usage, or established accounting, commercial or legal practice, be the best evidence for purposes of:
 - (a) identifying and verifying the nature, category or class of the relevant transaction;
 - (b) proving and verifying the obligation(s) of each resident, who is a party to the relevant transaction, to make payment(s) of foreign currency or to place such foreign currency to the credit of any non-resident, who is a party to the relevant transaction and/or proving and verifying the right(s) of each resident, who is a party to the relevant transaction, to receive payment(s) of foreign currency

from or have such foreign currency placed to its credit by any non-resident, who is a party to the relevant transaction; and

- (c) proving and verifying the amount(s) and timing of each foreign currency payment or credit referred to in (b) above.
- (iv) If the relevant transaction involving foreign currency, as referred to in (iii) above, is recorded in a written agreement to which the relevant resident(s) and non-resident(s) are parties, the term 'documentary evidence', as utilised in the Authorised Dealer Manual and which shall be obtained and scrutinised by Authorised Dealers in connection with foreign exchange transactions, shall, without derogating from the generality of the provisions contained in (iii) above, mean:
 - (a) the original of such written agreement duly signed by or on behalf of the parties thereto; and
 - (b) such further supporting or supplementary documents which shall in terms of established accounting, commercial or legal practice be required and generated to give practical effect to the relevant transaction, which supporting or supplementary documents shall include, but not necessarily be limited to relevant confirmatory letters, invoices, receipts, bills of lading or other documents of title, carriage contracts, letters of credit, guarantees, insurance contracts, permits, licences and/or bills of exchange.
- (v) Such original written agreement and supporting or supplementary documents, shall as a minimum requirement, identify and prove the various essential elements of the relevant foreign exchange transaction stipulated in (iii) above.
- (vi) If the relevant transaction involving foreign exchange is not recorded in a written agreement contemplated in (iv) above, the term 'documentary evidence', as utilised in the Authorised Dealer Manual, and which shall be obtained and scrutinised by Authorised Dealers in connection with foreign exchange transactions, shall, without derogating from the generality of the provisions contained in (iii) above, mean the supporting or supplementary documents of the nature specified in (iv)(b) above, provided that such supporting or supplementary documents shall, as a minimum requirement, identify and prove each of the essential elements of the relevant foreign exchange transaction referred to in (iii) above.
- (vii) The directives contained in (iii) to (vi) above, shall not exonerate Authorised Dealers from the duty of obtaining and scrutinising, in connection with any relevant foreign exchange transaction, such documents as may be specified and named in any of the sections of the Authorised Dealer Manual or in any authority granted by the Financial Surveillance Department.

- (viii) Where the original set of documents is not available, Authorised Dealers may accept those produced by photocopying, faxing or printed copies of electronic documents.

- (ii) Lesotho, Namibia and eSwatini have their own monetary authorities as well as their own legislation.

- (viii) As an exception to (vi) above, Authorised Dealers may:
 - (a) sell foreign currency to:

These documents must be presented at the time foreign currency payments for imports are made where the goods have already been cleared by Customs, or in the case of advance payments in excess of R50 000 within four months of the date of payment. B.2 Capital transfers**(A) General**

- (i) Except as provided for in subsections (B) to (J) below, residents are not allowed to transfer capital to any country outside the CMA. Applications for such transfers will be considered on merit.
- (ii) Authorised Dealers should note that the transfer of South African owned intellectual property by way of sale, assignment or cession and/or the waiver of rights in favour of non-residents in whatever form, directly or indirectly, is not allowed without the prior written approval of the Financial Surveillance Department unless specifically exempted in the Authorised Dealer Manual.
- (iii) Authorised Dealers may, however, approve the outright sale, transfer and assignment of intellectual property by South African residents, excluding mandated state owned companies as defined in Schedule 2 of the Public Finance Management Act, 1999 (Act No. 1 of 1999), to unrelated non-resident parties at an arm's length and a fair and market related price, provided Authorised Dealers view the sale, transfer or assignment agreement and an auditor's letter or intellectual property valuation certificate confirming the basis for calculating the sale price. The above-mentioned dispensation excludes sale and lease back agreements.
 - (a) All inward funds emanating from such transactions must be repatriated to South Africa within a period of 30 days from the date of becoming entitled thereto and reported under category 210 on the FinSurv Reporting System.
- (iv) Authorised Dealers may approve the licensing of intellectual property by South African residents to non-resident parties at an arm's length and a fair and market related price for the term of the agreement, provided Authorised Dealers view the licence agreement and an auditor's letter confirming the basis for calculating the royalty or licence fee.
 - (a) All royalties and/or fees emanating from such transactions must be repatriated to South Africa within a period of 30 days from the date of becoming entitled thereto and reported under category 201 on the FinSurv Reporting System.

- (vi) Exemption from Regulation 10(1)(c) is, however, granted to institutions as defined in terms of the Intellectual Property Rights from Publicly Financed Research and Development Act, 2008 (Act No. 51 of 2008). Such institutions may transfer copyrighted material to an international

publishing house when publishing an article in an international journal and/or transfer material in terms of a material transfer agreement provided the value of the transaction does not exceed R50 000. Authorised Dealers must refer transactions in excess of the stipulated amount to the Financial Surveillance Department.

(B) Private individuals resident in South Africa

- (i) Foreign investments by private individuals (natural persons) resident in South Africa
 - (a) Authorised Dealers may allow the transfer, as a foreign capital allowance via an AIT, of up to a total amount of R10 million per calendar year per private individual who is a taxpayer in good standing and is 18 years or older, for investment purposes abroad. The funds to be transferred must be converted to foreign currency by the Authorised Dealer and may also be held in a resident foreign currency account in the name of the resident with any Authorised Dealer.
 - (b) Authorised Dealers are advised that a valid green bar-coded South African identity document or a Smart identity document card is the only acceptable document proving residency in South Africa.
 - (c) Prior to authorising the transaction, Authorised Dealers must ensure that their client is acquainted with the declaration contained in the integrated form.
 - (d) In terms of the SARS TCS system that was introduced on 2016-04-18 and enhanced on 2023-04-21 with the introduction of the AIT, a TCS PIN letter will be issued to the taxpayer that will contain the tax number and TCS PIN. Authorised Dealers must use the TCS PIN to verify the taxpayer's tax compliance status via SARS eFiling prior to effecting any transfers. Authorised Dealers must ensure that the amount to be transferred does not exceed the amount approved by SARS. Authorised Dealers should note that the TCS PIN can expire and should the Authorised Dealers find that the TCS PIN has expired, then the Authorised Dealer must insist on a new TCS PIN to verify the taxpayer's tax compliance status. Authorised Dealers should not transfer any amount if the resident's tax compliance status indicates non compliance. The resident should approach SARS to resolve the non compliance issues.
 - (e) Authorised Dealers must retain a printed tax compliance status verification result for a period of five years for inspection purposes.
 - (f) Private individuals who are tax residents in South Africa and do not have a tax reference number will have to register with SARS.

- (g) Authorised Dealers must bring to the attention of their clients that they may not enter into any transactions whereby capital or the right to capital will be directly or indirectly exported from South Africa (e.g. may not enter into a foreign commitment with recourse to South Africa). However, private individuals may raise loans abroad to finance the acquisition of foreign assets without recourse to South Africa.
- (h) Resident individuals with authorised foreign assets may invest in South Africa, provided that where South African assets are acquired through an offshore structure (loop structure), the investment is reported to an Authorised Dealer as and when the transaction(s) is finalised as well as the submission of an annual progress report to the Financial Surveillance Department via an Authorised Dealer. The aforementioned party also has to view an independent auditor's written confirmation or suitable documentary evidence verifying that such transaction(s) is concluded on an arm's length basis, for a fair and market related price.
- (i) Upon completion of the transaction in (h) above the Authorised Dealer must submit a report to the Financial Surveillance Department which should, inter alia, include the name(s) of the South African affiliated foreign investor(s), a description of the assets to be acquired (including inward foreign loans, the acquisition of shares and the acquisition of property), the name of the South African target investment company, if applicable and the date of the acquisition as well as the actual foreign currency amount introduced including a transaction reference number.
- (j) In addition, all inward loans from South African affiliated foreign investors must comply with the directives issued in section I.3(B) of the Authorised Dealer Manual.
- (k) Existing unauthorised loop structures (i.e. created by individuals prior to 2021-01-01) and/or unauthorised loop structures where the 40 per cent shareholding threshold was exceeded, must still be regularised with the Financial Surveillance Department.
- (l) The Financial Surveillance Department will consider applications by private individuals who wish to invest in excess of the R10 million foreign capital allowance limit via an AIT, in different asset classes. Such investments, if approved, could be facilitated via a foreign domiciled and registered trust. This dispensation would also apply to private individuals who have existing authorised foreign assets, irrespective of the value thereof. In terms of the TCS system, a TCS PIN letter will be issued to the taxpayer that will contain the tax number and TCS PIN. Authorised Dealers must use the TCS PIN to verify the taxpayer's tax compliance status via SARS eFiling prior to effecting any transfers. Authorised Dealers should note that the

TCS PIN can expire and should the Authorised Dealers find that the TCS PIN has indeed expired, then the Authorised Dealer must insist on a new TCS PIN to verify the taxpayer's tax compliance. Authorised Dealers should not transfer any amount if the resident's tax compliance status indicates non-compliance. The resident should approach SARS to resolve the non-compliance issues.

- (m) Foreign currency accounts may be opened for private individuals (natural persons). Authorised Dealers may allow withdrawals from these accounts through the use of any authorised banking product. Funds withdrawn from these accounts may also be converted to Rand.
- (n) Private individuals may, as part of their single discretionary allowance and/or foreign capital allowance, export multi-listed domestic securities to a foreign securities register in a jurisdiction where such securities are listed, subject to tax compliance and reporting to the Financial Surveillance Department via a Central Securities Depository Participant, in conjunction with an Authorised Dealer.
- (o) Since these transactions will not result in actual flow of funds from South Africa, the process thereof as well as the reporting must take place as outlined hereunder:
 - (aa) An applicant must furnish the following information through an Authorised Dealer, at the time of submitting a request for a confirmation letter and/or approval letter to the Financial Surveillance Department:
 - (1) the full names and identity number of the applicant;
 - (2) the name of the company that issued the securities that are to be exported as well as the number of securities and the market value thereof; and
 - (3) domicilium and name of the target foreign register on which those securities are to be listed.
 - (bb) In this regard, the confirmation letter and/or approval letter from the Financial Surveillance Department must be presented by the applicant to the relevant South African Central Securities Depository Participant to effect the transaction.
 - (cc) Central Securities Depository Participants may, in conjunction with an Authorised Dealer, allow the transfer of domestic listed securities abroad, up to a total market value of R1 million per

calendar year in terms of the single discretionary allowance for private individuals, without the requirement to obtain a TCS PIN letter, provided a confirmation letter from the Financial Surveillance Department is viewed.

- (dd) Central Securities Depository Participants may, in conjunction with an Authorised Dealer, also allow the transfer of domestic listed securities of up to a total market value of R10 million per calendar year in terms of the foreign capital allowance, provided that a TCS PIN letter is obtained as well as a confirmation letter from the Financial Surveillance Department is viewed.
 - (ee) Private individuals who export securities with a market value of more than R10 million are subject to a more stringent verification process by SARS as well as an approval process from the Financial Surveillance Department. Such transfers will trigger a risk management test that will, inter alia, include verification of the tax status and the source of funds, as well as risk assess the private individual in terms of the anti-money laundering and countering terrorism financing requirements, as prescribed in the Financial Intelligence Centre Act, 2001 (Act No. 38 of 2001).
 - (p) Private individuals may only fund online international trading accounts at registered brokers in terms of the single discretionary and/or foreign capital allowance, i.e. the Authorised Dealer concerned must convert the Rand into foreign currency and transfer such funds via the banking system as an Electronic Funds Transfer to a foreign bank account or the funds can be deposited in a foreign currency account at an Authorised Dealer.
 - (q) No South African debit, credit and virtual card may, however, be used to fund a foreign currency account at an Authorised Dealer or a bank abroad, nor may international trading accounts of private individuals be funded using South African credit, debit and virtual card transfers. Online international trading accounts, inter alia include trading global currencies against each other, trading a contract for difference, trading in foreign stocks, trading commodities including crypto assets and/or trading foreign indices using an online trading platform of the broker concerned.
- (ii) Capital transfers by private individuals (natural persons) resident in South Africa.
 - (a) The Rand equivalent of income earned abroad and own foreign capital introduced (with the exceptions of that stated below) into South Africa on or after 1997-07-01 by private individuals resident in South Africa, may be retransferred abroad (excluding any growth

on the funds introduced), provided that the Authorised Dealer concerned is satisfied that the income and/or capital had previously been converted to Rand, by viewing documentary evidence confirming the amounts involved.

- (ii) Private equity funds with authorised foreign assets may invest in South Africa, provided that where South African assets are acquired through an offshore structure (loop structure), the investment is reported to an Authorised Dealer as and when the transaction(s) is finalised as well as the submission of an annual progress report to the Financial Surveillance Department via an Authorised Dealer. The aforementioned party also has to view an independent auditor's written confirmation or suitable documentary evidence verifying that such loop transaction(s) is concluded on an arm's length basis, for a fair and market related price.
- (iii) The information called for in subsection (i) above must be furnished by the Authorised Dealer to the Financial Surveillance Department and should, inter alia, include the name(s) of the South African affiliated foreign investor(s), a description of the assets to be acquired (including inward foreign loans, the acquisition of shares and the acquisition of property), the name of the South African target investment company, if applicable and the date of the acquisition as well as the actual foreign currency amount introduced including a transaction reference number.
- (iv) In addition, all inward loans from South African affiliated foreign investors must comply with the directives issued in section I.3(B) of the Authorised Dealer Manual.
- (v) Existing unauthorised loop structures (i.e. created by private equity funds prior to 2021-01-01) and/or unauthorised loop structures must still be regularised with the Financial Surveillance Department.
- (vi) Institutional investors and Authorised Dealers must be aware that in terms of the 'look-through' principle, any offshore acquisitions held indirectly via the local private equity fund must be marked off against their respective prudential limits.

(H) South African institutional investors

- (i) Institutions subject to a prudential limit in respect of foreign exposure
 - (a) Institutional investors refer to:
 - (aa) pension funds registered under the Pension Funds Act;
 - (bb) life insurers licensed under the Insurance Act to conduct life insurance business with a distinction between:
 1. non-linked business, i.e. the underwritten policy business other than individual and fund investment linked business; and

2. linked business, i.e. individual and fund investment linked business;
- (cc) CIS managers registered under CISCA to administer collective investment schemes; and
- (dd) discretionary financial services providers authorised under the FAIS Act registered with the Financial Surveillance Department as institutional investors. A discretionary financial services provider means a Category II and IIA financial services provider authorised in terms of the FAIS Act.
- (b) Institutional investors may invest funds offshore up to the prudential limit and subject to the requirements as outlined below.
- (c) Discretionary financial services providers may elect to register with the Financial Surveillance Department as an institutional investor. Registration is required for all discretionary financial services providers wishing to invest and/or manage funds offshore in respect of retail as well as institutional assets. A request, on the official letterhead of the discretionary financial services provider, should be emailed to sarbportfolio@resbank.co.za. Subsequent to registration, the requirements outlined in (viii) below must also be adhered to.
- (d) For discretionary financial services providers to register with the Financial Surveillance Department as an institutional investor, it must be authorised by the Financial Sector Conduct Authority as a discretionary financial services provider.
- (e) For an authorised user, excluding an external authorised user, (as defined in the Financial Markets Act) to register with the Financial Surveillance Department as an institutional investor, it must in addition to the registration with a South African exchange also be authorised by the Financial Sector Conduct Authority as a discretionary financial services provider.
- (f) Discretionary financial services providers who elect not to register as institutional investors with the Financial Surveillance Department, may not invest and/or manage funds offshore in respect of retail as well as institutional assets, but will be able to acquire foreign exposure for their clients only through another domestic institutional investor. These discretionary financial services providers, who elect not to register with the Financial Surveillance Department, are treated as intermediaries and are exempt from the requirements as outlined in (viii) below.

- (g) Discretionary financial services providers are required to declare their status regarding registration with the Financial Surveillance Department when they invest with another domestic institutional investor.
 - (h) Should a discretionary financial services provider elect to withdraw its registration with the Financial Surveillance Department, a request, on its official letterhead should be emailed to sarbportfolio@resbank.co.za.
- (ii) The distinction between institutional assets and retail assets
 - (a) The reporting procedure requires that a distinction be made between institutional assets under management and retail assets under management.
 - (b) Institutional assets
 - (aa) Institutional assets refer to assets held or managed on behalf of other institutional investors as well as assets received indirectly from institutional investors through an intermediary, such as an administrative financial services provider, nominee company or a discretionary financial services provider not registered as an institutional investor with the Financial Surveillance Department. All assets sourced from an intermediary identified as institutional assets applicable to the underlying institutional investor should be included as institutional assets in the quarterly asset allocation report of the managing institutional investor.
 - (c) Retail assets
 - (aa) Retail assets refer to assets received from individuals and other entities such as companies, trusts, as well as assets received indirectly from retail clients through an intermediary, such as an administrative financial services provider, nominee company or a discretionary financial services provider not registered as an institutional investor with the Financial Surveillance Department. All assets sourced from an intermediary identified as retail assets applicable to the underlying retail client should be included as retail assets in the quarterly asset allocation report of the reporting institutional investor.
 - (d) Foreign assets
 - (aa) Foreign assets are defined by the Financial Surveillance Department as the sum of foreign currency denominated

assets and Rand denominated foreign assets.

- (bb) Foreign currency denominated assets may be acquired directly through foreign currency transfers from South Africa.
 - (cc) Rand denominated foreign assets may be acquired indirectly through investments with another domestic institutional investor or by acquiring approved inward listed investments, excluding inward listed shares, based on foreign referenced assets or issued by foreign entities, listed on a South African exchange. (See section H. of the Authorised Dealer Manual for the definition of inward listed shares.)
- (iii) The distinction between managing institution and originating institution
- (a) Managing institution
 - (aa) A managing institution is a life insurer, CIS manager or discretionary financial services provider registered with the Financial Surveillance Department that offers investment products to institutional and/or retail clients.
 - (b) Originating institution
 - (aa) An originating institution is an institutional investor that qualifies for a prudential limit that elects to invest in products offered by a managing institution, either directly or through an intermediary, such as a discretionary financial services provider not registered as an institutional investor with the Financial Surveillance Department or an administrative financial services provider.
- (iv) Prudential limit
- (a) The foreign exposure of retail assets may not exceed:
 - (aa) 45 per cent in the case of pension funds; the linked and non-linked business of life insurers; CIS managers; and discretionary financial services providers registered as institutional investors with the Financial Surveillance Department.
 - (b) The prudential limit in respect of foreign exposure is applied to an institutional investor's total retail assets under management.
 - (c) The provisions of subsection (G) above should also be adhered to in respect of any offshore acquisitions held indirectly via a local private equity fund.

- (d) For statistical purposes the quarterly asset allocation report should continue to be completed in its existing format, indicating the investments in offshore as well as the African assets separately. The combined exposure, i.e. offshore and African, should not exceed the prudential limit of 45 per cent of retail assets under management. In terms of investments in African assets, the following is applicable:
 - (aa) African debt encompasses debt securities issued and listed on a South African exchange by African governments, African public entities, African local authorities, African development agencies and by non-African development institutions where the funds raised are earmarked for use in Africa.
 - (bb) African assets can be acquired as follows:
 - (1) directly by acquiring foreign currency denominated portfolio assets in Africa through foreign currency transfers from South Africa. A collective investment scheme in South Africa sanctioned by the Financial Sector Conduct Authority is preferred in instances where the institutional investor wishes to obtain direct African exposure by means of a pooling arrangement (e.g. an African fund set up specifically by a managing institution);
 - (2) indirectly by acquiring approved inward listed debt instruments listed on a South African exchange and classified as 'African'. (See (d)(aa) above for the criteria for 'African' classification);
 - (3) indirectly, on application to the Financial Surveillance Department through an Authorised Dealer, through a foreign registered fund mandated to invest into Africa. The foreign registered fund should be mandated to invest at least 75 per cent of funds under management into Africa. A copy of the mandate or prospectus must accompany such application; or
 - (4) indirectly, on application to the Financial Surveillance Department through an Authorised Dealer, through investments in instruments issued by African entities that are listed on non-African exchanges to raise funds earmarked for use in Africa.
- (e) Compliance with the prudential limit does not preclude an institutional investor from also having to comply with any relevant prudential regulations as administered by the Financial Sector

Conduct Authority.

(v) Requirements for Authorised Dealers

- (a) Authorised Dealers must ensure that when facilitating the transfer of funds on behalf of institutional investors, where such funds represent retail assets under management, the underlying retail clients' accounts are not debited for conversion purposes under any circumstances. A separate trust account, either in the name of the managing institution or in the name of a party mandated by the managing institution, must be debited for this purpose and the transaction must be reported in the name of the institutional investor in terms of the requirements of the Reporting System.
- (b) Authorised Dealers are not required to scrutinise the quarterly asset allocation reports of institutional investors wishing to obtain foreign exposure.
- (c) Authorised Dealers are obliged to ensure that they are dealing with a legitimate institutional investor.
- (d) Prior to the transfer of any funds abroad in respect of pension funds, life insurers, discretionary financial services providers registered with the Financial Surveillance Department and CIS managers, Authorised Dealers must obtain:
 - (aa) a registration certificate issued by the Financial Sector Conduct Authority; and
 - (bb) documentary evidence confirming the acceptance (not acknowledgement) of the latest quarterly asset allocation report of the institutional investor issued by the Financial Surveillance Department.
- (e) In instances where Authorised Dealers are unable to confirm the registration of an institutional investor with the Financial Sector Conduct Authority and/or obtain proof of acceptance of the quarterly asset allocation report, the matter must be referred to the Financial Surveillance Department.
- (f) Authorised Dealers must adhere to section A.3(E)(viii)(b) of the Authorised Dealer Manual in respect of foreign exchange or hedging transactions with registered institutional investors domiciled and incorporated in Lesotho, eSwatini and/or Namibia.

(vi) Requirements for institutional investors

- (a) Under no circumstances may retail clients have direct access to the

foreign assets and all assets abroad must be registered in the name of either an offshore nominee company/custodian or the managing institution.

- (b) As an exception to (a) above, discretionary foreign assets under the management of a discretionary financial services provider, where it is a legislative requirement, may be registered in the name of the underlying retail client as the beneficial owner, provided that:
 - (aa) the discretionary financial services provider is registered as the sole authorised intermediary or signatory; and
 - (bb) the discretionary financial services provider is the only party that has exclusive transactional authority over any foreign assets beneficially held in the name of the retail client.
- (c) The offshore nominee company/custodian or the managing institution will hold the beneficial ownership on behalf of retail clients resulting in the retail clients not being able to transfer ownership nor change registration of the foreign assets into their own names. It follows, therefore, that the only recourse that retail clients have to the managing institution is a domestic payment in Rand.
- (d) Existing offshore assets may only be transferred between institutional investors, subject to the transferring institutional investor viewing:
 - (aa) a letter confirming the authority to transfer the offshore assets directly to the receiving institutional investor; and
 - (bb) a letter from the receiving institutional investor on its letterhead confirming that it:
 - (1) has proof of the acceptance by the Financial Surveillance Department of its latest quarterly asset allocation report;
 - (2) has sufficient capacity available in terms of its prudential limit; and
 - (3) will include the offshore assets to be received in its quarterly asset allocation report as retail assets and/or institutional assets.
 - (cc) Offshore assets in transit should be reported in the quarterly asset allocation report of the transferring institutional investor until such time the funds have been accepted by the receiving institutional investor.

- (e) In the event of existing local assets being transferred between institutional investors, the local assets in transit should be reported in the quarterly asset allocation report of the transferring institutional investor until such time the funds have been accepted by the receiving institutional investor.
- (f) Where a managing institution manages funds on behalf of an originating institution, the managing institution may, in principle, invest the funds of the originating institution offshore, subject only to the mandate agreed with the originating institution or otherwise outlined in the mandate of a pooled investment product.
- (g) Where funds of an originating institution are transferred between managing institutions, the originating institution should ensure that the funds in transit are still included in its quarterly asset allocation report whilst such funds are in the process of being transferred to the new managing institution.
- (h) Institutional investors may participate in instruments issued by local entities in the offshore market whether priced in Rand or foreign currency on condition that the requirements of the Financial Sector Conduct Authority are complied with. These investments will be subject to the prudential limit.
- (i) The originating institution retains the responsibility for ensuring that both its direct and indirect foreign investments remain within the prudential limit. To ensure the consistent classification of foreign exposure, institutional investors are required to report their assets on a 'look-through' basis.
- (j) Institutional investors may not transfer Rand offshore. In order for an institutional investor to participate in Rand denominated instruments issued offshore, Rand would have to be converted to foreign currency and the resultant foreign currency be re-converted back to Rand in the offshore market to purchase the instrument.
- (k) Institutional investors may not repatriate Rand to South Africa. Foreign currency proceeds in respect of prudential investments, i.e. capital and income, must be converted to Rand in South Africa with a local Authorised Dealer as the counterparty to the foreign exchange transaction.
- (l) The initial conversion of Rand to foreign currency for the purchase of Rand denominated instruments issued offshore could be hedged locally, but the subsequent conversion back to Rand to purchase Rand denominated instruments issued offshore constitutes price risk and may be hedged either in the foreign market or on a South

African exchange by utilising approved foreign referenced derivative products traded in Rand and issued by a South African exchange.

- (m) Institutional investors are permitted to hedge the currency risk in terms of effecting prudential investments offshore (i.e. hedging the anticipated conversion of Rand into foreign currency for transfer offshore in terms of the provisions of section D.1 of the Authorised Dealer Manual). The currency risk of the prudential investment and the currency risk in respect of the repatriation of funds may be hedged. However, the price risk of the underlying prudential investment may be hedged either in the foreign market or on a South African exchange by utilising approved foreign referenced derivative products traded in Rand and issued by a South African exchange.
- (n) Institutional investors must take cognisance that any position held as a result of active currency management transactions, not resulting in the actual pay away or receipt of currency (i.e. the 'in-between trades') is regarded as foreign currency exposure and must accordingly be marked off against the prudential limit as well as being accounted for in the quarterly asset allocation reports.
- (o) No transfers may be effected in respect of costs related to prudential investments, foreign held assets and liabilities by institutional investors, without prior reference to the Financial Surveillance Department.
- (p) Institutional investors may open foreign currency accounts with Authorised Dealers for the purpose of obtaining offshore exposure. These accounts may be funded by either converting Rand to foreign currency or by accepting foreign currency deposits emanating from the disinvestment proceeds of foreign assets. Institutional investors are permitted to retain funds in the foreign currency accounts without the obligation to convert these funds into Rand, provided the account balances form part of the prudential limit and are reflected in the quarterly asset allocation reports.
- (q) Refer to section A.3(E)(vi) of the Authorised Dealer Manual with regard to South African institutional investors entering into Rand transactions with residents of other CMA countries.
- (r) Should an institutional investor exceed the prudential limit, no further funds may be transferred abroad or foreign classified investments made either directly or indirectly.

(vii) Reporting requirements for institutional investors

(a) Quarterly asset allocation reports

- (aa) The quarterly asset allocation reports provide the primary mechanism for monitoring compliance with the prudential limit. This supports a system of prudential regulation of foreign exposures and provides consistent, industry-wide statistics on the foreign diversification levels for all types of institutional investors.
- (bb) All quarterly asset allocation reports must be submitted within two months of the end of the calendar quarter to the Financial Surveillance Department either through an Authorised Dealer or via bulk or single direct reporting, irrespective of whether the institutional investor has offshore exposure.
- (cc) In reporting on asset allocations, the 'look-through' principle is applied to investments in collective investment schemes, life insurance policies and other investment products. This principle ensures the consistent classification of foreign exposure, whether acquired directly in foreign currency or indirectly through a domestic intermediary. For instance, a pension fund holding foreign equities through a collective investment scheme registered locally should record such an investment as a Rand denominated foreign asset.
- (dd) Managing institutions that manage assets on behalf of other institutional investors are required to report the asset allocation of such funds or policies to the originating institution as at the end of each calendar quarter within 15 working days of each calendar quarter end. This information is necessary to enable the originating institution to 'look-through' to the underlying assets in compiling its quarterly reports.
- (ee) Managing institutions are required to provide, as part of its quarterly asset allocation report, an updated list of all their current institutional investors registered with the Financial Surveillance Department.
- (ff) Life insurers, CIS managers and discretionary financial services providers, are required to submit quarterly asset allocation reports of their asset holdings according to the major asset classes as at the end of each calendar quarter. The quarterly report needs to reflect the allocation of retail assets and institutional assets under management, separately.

- (gg) In the case of pension funds, the section 13B administrators, i.e. pension fund administrators as appointed in terms of section 13B of the Pension Funds Act, must submit quarterly asset allocation reports for each fund under their administration, unless otherwise instructed by the pension fund. The quarterly report relates to the allocation of total assets of the respective pension fund.
 - (hh) Section 13B administrators are required to submit via sarbportfolio@resbank.co.za within two months of the end of the calendar quarter to the Financial Surveillance Department, a list of all pension funds under administration, clearly indicating clients onboarded or where mandates have been terminated as well as the status of all other remaining pension funds under administration for the quarter under review.
 - (ii) In cases where the prudential limit has been exceeded, the institutional investor must as part of the quarterly asset allocation report provide:
 - (1) an explanation for the over-exposure; and
 - (2) a clear indication of how and by when they intend to adjust the foreign exposure to fall within the applicable limit. See (vi)(r) above regarding further offshore investments if an institutional investor has exceeded the prudential limit.
 - (jj) An institutional investor has discharged its reporting obligation once the quarterly asset allocation report has been accepted (not acknowledged) by the Financial Surveillance Department.
- (b) Audit reports
- (aa) An institutional investor, with total portfolio assets at fair value in excess of R6 million, directly or indirectly, will also be required as part of its financial year-end audit to obtain an audit report from its external auditors assessing the institutional investor's quarterly asset allocation reports.
 - (bb) The audit reports must be submitted to the Financial Surveillance Department within a maximum period of six months after its financial year-end either through the institutional investor's Authorised Dealer or by sending an email to sarbportfolio@resbank.co.za.
 - (cc) The formats of the audit reports may be downloaded from the South African Reserve Bank's website: www.resbank.co.za,

by following the links: Financial Surveillance>Institutional-Investors>audit report.

(viii) Reporting format

- (a) To register for online submission of the quarterly asset allocation report, a request, on the official letterhead of the institutional investor or appointed section 13B administrator concerned, should be emailed to sarbportfolio@resbank.co.za, specifying the wording "Request for online registration" in the subject field. The completed quarterly asset allocation report must be attached.
- (b) An email will be sent to the institutional investor concerned, confirming the registration on the Portfolio Investment Reporting System.
- (c) Subsequently, the interactive web-page may be accessed from the South African Reserve Bank's website: www.resbank.co.za, by following the links: Financial Surveillance>Institutional Investors>Templates>Quarterly asset allocation reports.
- (d) In addition, technical specifications enabling section 13B administrators to report electronically in bulk format have been developed. Such administrators wishing to make use of this facility must send an email to sarbportfolio@resbank.co.za, specifying the wording "Request for bulk reporting specifications" in the subject field.
- (e) On receipt of the request in (d) above, the section 13B administrator will be assisted with the development of an interface to facilitate bulk reporting on behalf of pension funds.

(ix) Right of inspection

- (a) Authorised officials from the Financial Surveillance Department may at any time conduct an inspection at an institutional investor in the form and manner determined by the Financial Surveillance Department. The inspection will be conducted to establish an institutional investor's compliance with the Regulations, requirements outlined in the Authorised Dealer Manual and/or specific authorities granted.

(x) Compliance

- (a) An institutional investor shall comply with the Regulations, requirements as outlined in the Authorised Dealer Manual, specific authorities granted as well as any other requirements or

conditions as may be stipulated from time to time by the Financial Surveillance Department.

- (b) Any deviation or non-compliance with (a) above may result in measures being taken by the Financial Surveillance Department as administrator of the exchange control system. These measures may consist of one or more of, inter alia, the following:
 - (aa) an official warning from the Financial Surveillance Department setting out the nature of the contravention and seeking the assurance from the institutional investor that the required remedial steps have been undertaken to ensure compliance as outlined in (a) above;
 - (bb) the temporary suspension of an institutional investor's business activities to specific types of transactions;
 - (cc) encashment of foreign liquid assets and the repatriation thereof;
 - (dd) the repatriation of income and/or capital or the withdrawal of any authority granted by the Financial Surveillance Department;
 - (ee) the invoking of Regulation 18; and
 - (ff) the remedies provided for under Regulations 22A, 22B and 22C.

(I) Macro-prudential limit for Authorised Dealers

- (i) Macro-prudential limit
 - (a) The macro-prudential limit is only applicable to Authorised Dealers and restricted Authorised Dealers who are not branch operations of foreign institutions.
 - (b) Branches of foreign institutions operating as banks in South Africa are regulated by the Prudential Authority Department of the South African Reserve Bank in their entirety.
 - (c) Authorised Dealers may acquire direct and indirect foreign exposure up to a macro-prudential limit of 25 per cent of their total liabilities, excluding total shareholder's equity.
 - (d) It must be clearly understood that the methodology used by the Financial Surveillance Department in calculating the foreign

exposure should not be confused with the directives issued by the Prudential Authority of the South African Reserve Bank.

(ii) African allowance

- (a) Authorised Dealers are also allowed to invest an additional 5 per cent of their total liabilities, excluding total shareholder's equity, for expansion into Africa.
- (b) The criteria applicable to institutional investors to determine whether an investment is classified as 'African', is similarly applicable to Authorised Dealers. See section H.(E)(ii)(a) of the Authorised Dealer Manual.

(iii) Foreign exposure

The Financial Surveillance Department defines foreign exposure for macro-prudential limit purposes as all foreign assets held where such assets are foreign currency denominated, except for the dispensations in (iv)(b) below, as well as foreign assets denominated in Rand, e.g. Rand denominated instruments issued offshore and inward listed instruments with a foreign classification.

Foreign exposure will therefore, inter alia, include the following:

- (aa) assets outside of South Africa. Transactions with CMA countries should comply with section A.3(E) of the Authorised Dealer Manual.
- (bb) claims on non-residents;
- (cc) commodities;
- (dd) deposits with foreign banks; and
- (ee) inward listed debt and derivative instruments.

- (a) Inward listed shares are excluded from the definition of foreign exposure. See section H.(E)(i) of the Authorised Dealer Manual for the definition of inward listed shares.

(iv) Qualifying transactions

- (a) The macro-prudential limit is applicable to transactions which, inter alia, include the following:
 - (aa) the underwriting of foreign currency denominated bonds issued by local entities as well as South African Government

- bonds;
 - (bb) the issuing of guarantees in favour of non-residents;
 - (cc) foreign currency lending to non-residents;
 - (dd) foreign portfolio investments in equity, debt and derivative instruments;
 - (ee) participation in foreign syndicated loans by Authorised Dealers. An Authorised Dealer may participate in foreign syndicated loans regardless of whether the borrower is a resident or non-resident, provided that the Authorised Dealer taking up the syndicated portion of the loan is within its macro-prudential foreign exposure limit;
 - (ff) any exposure to CMA countries. For the completion of the Macro-Prudential Foreign Exposure Limit Return CMA countries are treated as non-residents;
 - (gg) any lending to international headquarter companies as outlined in section B.2(D)(ix) of the Authorised Dealer Manual; any lending to a DTMC as outlined in Section B.2(E) of the Authorised Dealer Manual; and
 - (ii) all foreign intra-group bank exposures should be included in the calculation of the macro-prudential limit, however, the netting of these foreign intra-group exposures is allowed as provided for in the Macro-Prudential Foreign Exposure Limit Return.
- (b) The following transactions are excluded from the macro-prudential limit:
- (aa) foreign exposures directly related to infrastructural development by the Authorised Dealer;
 - (bb) outward foreign direct investment by Authorised Dealers, including the acquisitions in terms of section 52 of the Banks Act, 1990, (Act No. 94 of 1990);
 - (cc) CFC account balances; and
 - (dd) foreign currency denominated facilities made available to South African companies in respect of:
 - (1) bona fide foreign direct investments;

- (2) infrastructural development;
 - (3) trade finance facilities relating to the import and export of goods from South Africa;
 - (4) and working capital loan facilities to residents.
- (v) Reporting requirements
 - (a) Macro-Prudential Foreign Exposure Limit Return
 - (aa) Authorised Dealers must complete and submit the Macro-Prudential Foreign Exposure Limit Return as at month end, under cover of an application, to the Financial Surveillance Department by the 20th working day of the following month.
 - (bb) The amounts reflected on the applicable Prudential Authority Department's BA Returns, under the specified line items, must be populated when completing the Macro-Prudential Foreign Exposure Limit Return.
 - (cc) The Macro-Prudential Foreign Exposure Limit Return must reflect both gross and net derivative figures, however, the gross derivative figures are only reported for disclosure purposes and do not form part of the calculation of the macro-prudential limit.
 - (dd) The format of the Macro-Prudential Foreign Exposure Limit Return may be downloaded from the South African Reserve Bank's website: www.resbank.co.za, by following the links: Financial Surveillance>Authorised Dealers>Macro-Prudential Foreign Exposure Limit Return.
 - (b) Reporting on over-exposure position
 - (aa) In cases where the macro-prudential limit has been exceeded, an Authorised Dealer must provide:
 - (1) an explanation for the over-exposure; and
 - (2) a clear indication of how and by when it intends to adjust the foreign exposure to fall within the applicable limit.
 - (bb) Should an Authorised Dealer exceed the macro-prudential limit, no further direct and indirect foreign exposure may be acquired.
 - (c) Authorised specimen signatures list

- (aa) On an annual basis (January of each year), a list of the names, title and the specimen signatures of officials authorised to sign the Macro-Prudential Foreign Exposure Limit Returns must be submitted to the Financial Surveillance Department.
- (bb) The list should include the email addresses of at least two senior officials to whom urgent correspondence relating to the Macro-Prudential Foreign Exposure Limit Returns could be referred to, if needed.
- (d) Should there be any changes to the list of signatories, the Financial Surveillance Department must be timeously formed.
- (e) Audit reports
 - (aa) Authorised Dealers are required, as part of their financial year end audit, to obtain an audit report from their external auditors verifying and confirming the amounts on the last submitted Macro-Prudential Foreign Exposure Limit Return at year end.
 - (bb) The audit report must be submitted to the Financial Surveillance Department, under cover of an application, within a maximum period of six months after the financial year end.
 - (cc) The format of the audit report may be downloaded from the South African Reserve Bank's website: www.resbank.co.za, by following the links: Financial Surveillance>Authorised Dealers>Macro-Prudential Foreign Exposure Limit Return.

(J) Private individuals who cease to be residents for tax purposes

- (i) The concept of emigration as recognised by the Financial Surveillance Department has now been phased out with effect from 2021-03-01.
- (ii) The distinction between South African resident assets and non-resident assets remains extant.
- (iii) Authorised Dealers may allow the transfer of assets abroad, provided a private individual:
 - (a) has ceased to be a resident for tax purposes in South Africa;
 - (b) has obtained a TCS PIN letter in respect of AIT where the private individual is registered on the SARS database or a Manual Letter of Compliance - International Transfer where the private individual is not registered on the SARS database;
 - (c) is tax compliant upon verification of the TCS if the TCS is applicable; and

- (d) the amount to be transferred does not exceed the amount approved by SARS.
- (iv) In addition to (iii) above, private individuals may in the same calendar year that they ceased to be residents transfer via an Authorised Dealer up to R1 million as a travel allowance, without the requirement to obtain a TCS PIN letter. This is a once-off dispensation and cannot be used in subsequent calendar years. A private individual who ceased to be a South African tax resident may utilise the aforementioned travel allowance for a final time (i.e., final allocation), in the calendar year where the private individual ceased South African tax residency. Any unused portion may not be carried over to a subsequent year.
- (v) In addition, household and personal effects up to an amount of R1 million per family unit may be exported under a SARS Customs Declaration form within the same calendar year that the individual ceases to be a resident for tax purposes provided such assets have been declared on the relevant forms. Transactions of this nature will be treated similar to cash. For amounts in excess of R1 million, the provisions of (vi) and (vii) below will apply.
- (vi) In addition to the transfers mentioned in (iv) and (v) above, Authorised Dealers may allow the transfer of up to a total amount of R10 million per calendar year per private individual who ceases to be a resident for tax purposes in South Africa and is 18 years or older, provided that the individual is tax compliant and submits the applicable TCS Application for verification.
- (vii) South African non-tax residents who transfer more than R10 million offshore are subject, initially to a more stringent verification process by SARS; as well as a subsequent approval process from the Financial Surveillance Department. Such transfers will trigger a risk management test that will, inter alia, include verification of the tax status and the source of funds, as well as risk assess the private individual in terms of the anti-money laundering and countering terror financing requirements, as prescribed in the Financial Intelligence Centre Act, 2001 (Act No. 38 of 2001).
- (viii) With regard to (vii) above, it is imperative that the application to the Financial Surveillance Department is accompanied by, inter alia, a TCS PIN letter that will contain the tax number and TCS PIN to verify the taxpayer's tax compliance status, amount requested and approved to be transferred.
- (ix) Any requests for further transfers of remaining assets will be subject to a TCS application in respect of AIT irrespective of the date of emigration or cessation of tax residency in South Africa, i.e. prior or after 2021-03 01.
- (x) The externalisation of listed and unlisted domestic securities by

individuals who cease to be residents for tax purposes will be treated similar to cash. The securities must be endorsed non-resident and/or transferred abroad in lieu of cash. These transactions will be subject to a TCS process at SARS and form part of the foreign capital allowance.

- (xi) In respect of pre-retirement withdrawal benefits from retirement funds (lump sum benefits from pension, pension preservation, provident, provident preservation and retirement annuity funds) when South African residents cease to be residents for tax purposes in South Africa, in certain cases, payment of lump sum benefits to such individuals shall only be allowed by SARS if the individual member has remained tax non-resident for at least three consecutive years. Where a retirement fund or its administrator has obtained a tax directive from SARS for a pre-retirement lump sum withdrawal benefit, the tax directive serves as proof that the individual member meets the above requirement.
- (xii) All assets that were previously blocked as per a specific directive that was given by the Financial Surveillance Department in terms of the provisions of Exchange Control Regulation 4(2), may be dealt with as follows:
 - (a) In respect of income and capital distributions from inter vivos trusts, such distributions may be transferred abroad, subject to the TCS process being completed by the private individual and/or beneficiaries of the trust. For any transfers above R10 million, the requirements of (vii) above will apply. With regard to non-residents and private individuals who ceased to be resident for tax purposes, who are not registered on the SARS database or are inactive, SARS will issue a Manual Letter of Compliance - International Transfer in respect of income or capital distributions to such beneficiaries.
 - (b) With regard to pre-inheritance gifts, such funds may be transferred abroad, subject to the TCS process being completed by the resident donor. For any transfers above R10 million, the requirements of (vii) above will apply.
- (xiii) Applications by private individuals who cease to be residents for tax purposes and who are no longer active on the SARS registered database (includes both own asset and/or beneficiary) and receive an inheritance or life insurance policy payout (excluding lump sum benefits from pension, pension preservation, provident, provident preservation, retirement annuity funds and annuities from insurers) up to R10 million, will not be required to apply to SARS for a Manual Letter of Compliance - Transfer of funds. For applications above R10 million, applicants are required to obtain a Manual Letter of Compliance – International Transfer, from SARS.

(xii) Long-term insurance business

- (a) Long-term insurance business means any assistance business, disability business, fund business, health business, life business or sinking fund business.

- (b) Long-term insurance's main purposes are the offering of benefits on death or on a specific date (e.g. retirement) or the occurrence of an accident or on disablement. It helps the policyholder to make financial provision for the policyholder and the latter's dependants. It also provides a medium of saving and investment on a systematic long-term basis. Most policies combine these aspects of life insurance, the protection element and the savings element, to a greater or lesser degree.

(xiii) Marine insurance

- (a) Marine insurance is a contract which indemnifies the insured against:

- (ii) Authorised Dealers must ensure that dealings in hedging instruments are not undertaken either for speculative purposes or as a means of circumventing the Regulations.
- (iii) Residents, excluding transactions by private individuals trading on online platforms may, however, subject to the conditions outlined in subsection (B)(i) below, hedge their foreign exchange risk in a controlled manner through the active management of their currency exposures in the over the counter foreign exchange market.
- (iv) This section of the Authorised Dealer Manual is concerned with the multiplicity of over the counter hedging instruments and techniques which are divided into the following main categories:
 - (a) forward contracts;
 - (b) futures contracts (excluding currency futures listed on a regulated exchange in South Africa);
 - (c) options;
 - (d) warrants; and
 - (e) swaps.
- (v) Applications for spot foreign currency by residents to cover future commitments or accruals should normally be refused unless permission has been granted elsewhere in the Authorised Dealer Manual. The applicants must be informed of the permissible cover contracts which are obtainable by means of the relevant hedging instruments.

(B) Foreign currency against Rand in respect of forward contracts or foreign exchange option contracts not exceeding 12 months to maturity (active currency management)

- (i) Foreign currency may be sold forward to or purchased forward from residents, excluding transactions by private individuals trading on online platforms, by either entering into a forward contract or a foreign exchange option contract with an Authorised Dealer, subject to the following conditions that:

- (a) The facilities are required to cover a direct underlying foreign currency exposure and to manage possible losses arising from adverse movements in foreign exchange rates from a transaction that is:

 - (bb) in respect of a specific authority that has been granted by the Financial Surveillance Department; or
 - (cc) in respect of a resident party actively managing foreign exchange risk exposure, inter alia, in respect of import payments, export proceeds, service type payments/receipts, tenders, acquisitions, balance sheet risk and loans.
- (b) While cover may not be granted for a period extending beyond 12 months, contracts may be entered into and exited at the client's discretion and need not run until the commitment or accrual has to be met.
- (c) The same underlying commitment or accrual is not already covered forward.
- (d) In respect of all commitments or accruals, documentary evidence is exhibited at the time of pay away confirming the nature and extent of the commitment or that foreign currency is definitely accruing and the nature and extent of such accruals.
- (e) All settlements in terms of forward cover taken out by clients not resulting in the physical conversion of currency to and from Rand (i.e. the so called 'in-between trades' must take place in Rand).
- (f) Authorised Dealers facilitating the 'in-between trades' must furnish the Financial Surveillance Department with the following reports on a monthly basis:
 - (aa) summary beneficial holdings trading report indicating volumes, value and ownership differentiating between the following investor classes: corporates, individuals, institutional investors and non-residents; and

- (g) The reports must be submitted by sending an email to SARB-HEDGE@resbank.co.za, specifying the wording "Active Currency Management Report" in the subject field by the 7th of the

following month. The beneficial holdings trading report must only reflect the 'in-between trades' where the client does not convert Rand into foreign currency and vice versa in terms of the contract forward rate but decides to rather settle the contract in Rand. Therefore, the reporting must exclude legitimate settlements in Rand (e.g. export proceeds).

- (ii) Institutional investors, as defined in section B.2(H) of the Authorised Dealer Manual, must take cognisance that any position held as a result of entering into the 'in-between trades' is regarded as foreign exposure and must accordingly be marked off against the prudential limit as well as being accounted for in the quarterly asset allocation reports.

 - (aa) permissible in terms of the Authorised Dealer Manual; or
 - (bb) in respect of which a specific authority has been granted by the Financial Surveillance Department.
 - (b) While cover may not be granted for a period extending beyond the due date of the underlying commitment or accrual, contracts may be entered into at any time after the commencement of the commitment or accrual for the full amount or part thereof and, in the circumstances outlined in subsection (F) below, need not run until the commitment or accrual has to be met.
 - (c) The same underlying commitment or accrual is not already covered forward.
 - (d) In respect of imports, the nature and extent of the import commitment must be confirmed by any one of the documents

specified in section B.1(B) of the Authorised Dealer Manual or pro forma invoices, purchase orders, copies of import letters of credit or copies of order confirmations or, when such documents are not available, a letter signed by two responsible persons, whose names and titles should appear below their signatures, giving full details of the underlying commitment. The above letter, however, does not absolve the client from the requirements of (i) below.

- (e) In respect of the accrual of the proceeds of exports, the period of cover granted may not extend beyond six months from the date of shipment, except where the Authorised Dealer concerned or the Financial Surveillance Department has granted permission for such proceeds to be received after six months. In addition, cover may also be granted in respect of any pre-shipment period.
- (f) Where a dispensation has been granted by the Financial Surveillance Department to certain corporates from the requirement to submit documentary evidence for trade related foreign exchange transactions (the imports undertaking dispensation), such dispensation also applies when concluding forward or foreign exchange option contracts in respect of those transactions.
- (g) In respect of all other commitments or accruals, documentary evidence is exhibited confirming the nature and extent of that commitment or that foreign exchange is definitely accruing and the nature and extent of such accruals.
- (h) Where the required documentary evidence is not available at the time of establishment of a forward or foreign exchange option contract, such documentation be presented within 14 days.
- (i) All documentation submitted in evidence of the foreign exchange commitment or accrual in respect of which cover is availed of must indicate the contract number and the period of the contract. Furthermore, in respect of an import transaction where a letter has been submitted in terms of (d) above, the documents specified in section B.1(B) of the Authorised Dealer Manual or pro forma invoices, purchase orders, copies of import letters of credit or copies of order confirmations must subsequently be viewed.
- (j) Authorised Dealers may allow South African corporates to cover forward up to 75 per cent of budgeted import commitments or export accruals in respect of the following financial year, subject to the following conditions:
 - (aa) all matured sales contracts must relate to firm and ascertainable underlying commitments and the underlying documentation must be viewed at the time of settlement, in accordance with the provisions of sections B.1(B) and (F) of

the Authorised Dealer Manual;

- (bb) in respect of exports, all matured contracts must relate to firm and ascertainable underlying accruals and the requirements of section B.18 of the Authorised Dealer Manual must in each instance be adhered to;
 - (cc) under no circumstances may the contracts be used as a mechanism to speculate against the Rand;
 - (dd) proceeds of matured forward exchange sales contracts may only be credited to the applicant's CFC account in terms of the provisions of section E.(B)(ii)(a)(ff) of the Authorised Dealer Manual; and
 - (ee) any unutilised portion of the contracts must be swapped in terms of the provisions of subsection (F) below. The Authorised Dealer(s) with whom the applicant company transacts must ensure that the conditions outlined above are strictly adhered to.
- (k) Authorised Dealers must be furnished with a written letter from their clients, signed by two senior officials, confirming that the above conditions were adhered to, together with a detailed schedule of utilisation to ensure compliance with the limit authorised, prior to considering a request for the next financial year.

(D) Foreign currency against foreign currency

- (i) Subject to the same conditions as set out in subsections (A), (B) and (C) above, Authorised Dealers may arrange cover on behalf of their clients in one foreign currency against another.

(E) Transactions between Authorised Dealers

- (i) Authorised Dealers may, in respect of permitted cover contracts, marry such contracts and deals with one another, either spot or forward in any currency.
- (ii) In addition, Authorised Dealers may establish contra contracts on overseas foreign exchange markets or take their forward position into their spot position.
- (iii) Authorised Dealers may also offset such risk through the South African Futures Exchange.

(F) Surrenders or extensions by means of swaps

- (i) Since forward or foreign exchange option contracts entered into in

terms of subsection (C) above may only be concluded for firm and ascertained foreign exchange commitments or accruals and constitute a binding agreement between the parties concerned, such contracts may not be annulled prior to the maturity date.

- (ii) Should circumstances arise in which it is required to vary the delivery date of a forward or foreign exchange option contract or part thereof, surrenders, early take-ups or extensions may be allowed, subject to settlement taking place by means of a counter contract or swap. Any profits or losses arising from such action should be regarded as being for account of the client and the rate applied to the extension of such contracts may under no circumstances be adjusted to incorporate the relative profit or loss.

(G) Hedging operations

- (i) Subject to the same conditions as set out in subsections (A), (C) and (E) above, Authorised Dealers may arrange cover with resident clients in respect of the risks mentioned below.
- (ii) Authorised Dealers are required to keep a register of all over the counter contracts traded and such register should be available at all times for inspection purposes by the Financial Surveillance Department.
- (iii) All trades must take place under International Swaps and Derivatives Association agreements with all individual trades being subsequently confirmed with a transaction form stating who the Granter (Seller) and Grantee (Purchaser) of the products are.
- (iv) With the exception of subsection (v)(b)(bb) below, residents who wish to hedge directly with an offshore counterparty require the prior written approval of the Financial Surveillance Department.
- (v) Risks for which cover may be arranged with resident clients:
 - (a) Interest rates
 - (aa) Authorised Dealers may cover their clients' firm and ascertained exposure to possible losses as a result of adverse movements in interest rates arising from an underlying transaction.
 - (bb) Such an interest rate hedge may be arranged by way of a futures contract on fixed-income securities or time deposits, including forward rate agreements, an interest rate options contract or an interest rate swap. An interest rate hedge in any other form may only be entered into after the prior written approval of the Financial Surveillance Department has been obtained.

(b) Price risk

(aa) Commodities

- (1) Commodity futures and commodity option contracts with resident clients may be entered into, provided that they are quoted and traded on the JSE Limited.
- (2) The terms and conditions pertaining to dealings by non-residents on the JSE Limited are incorporated in their Rules and Regulations.

(bb) Agricultural commodities

- (1) Authorised Dealer may allow resident agricultural commodity producers (agribusiness companies whose core business is the buying, selling or trading of raw materials or primary products as well as the management of commodities from origin through to the final customer) and end-users with firm commitments to hedge their foreign exposures on foreign commodity exchanges and/or a recognised member or broker of the foreign commodity exchange, subject to the following conditions:
 - (i) Local producers and end users of agricultural commodities may only enter into hedging contracts abroad in order to induce certainty regarding their foreign exposure risks.
 - (ii) No speculative deals may be entered into, therefore the applicant should provide details of the underlying transactions and confirmation that the hedging relates to a firm underlying commitment or accrual.
 - (iii) Should it be necessary for the local producer/end user to transfer any funds abroad in respect of losses incurred, payment may only be effected against substantiating documentation, e.g. invoices from foreign broker/agent providing full details/description of hedging transaction and/or details of losses incurred.

- (iv) The requirements of Exchange Control Regulation 6 must also be adhered to, when applicable.
- (v) At the end of each 12-month period, the Financial Surveillance Department must be furnished with a summary of the transactions entered into reflecting, inter alia, amounts transferred abroad and amounts received, together with confirmation that no speculative positions were taken during the period under review.

D.2 Forward cover transactions between Authorised Dealers and non-residents**(A) General**

- (i) The aim of hedging is either to offset or to minimise the risk of losses that an enterprise may be exposed to due to the effect of price changes on its assets, liabilities or future firm and ascertained commitments and/or accruals.
- (ii) Authorised Dealers must ensure that dealings in hedging instruments are not undertaken for speculative purposes or as a means of circumventing the Regulations.

(B) Forward cover transactions between Authorised Dealers and non-residents

- (i) Forward purchase and/or sale of Rand
 - (a) In addition to the criteria outlined in subsection (A) above, non-residents may purchase or sell Rand forward in the domestic foreign exchange market, subject to the conditions that:
 - (aa) The Rand bought or sold on this basis by the non-resident must purely be aimed at hedging the non-resident against a firm and ascertainable underlying local commitment or accrual which is denominated in Rand and which is either:
 - (1) permissible in terms of the Authorised Dealer Manual; or
 - (2) in respect of which a specific authority has been granted by the Financial Surveillance Department; or
 - (3) in respect of a non-resident party actively managing foreign exchange risk exposure.
 - (bb) While cover may normally not be granted for a period extending beyond 12 months, contracts may be entered into and exited at the client's discretion and need not run until settlement of the commitment or accrual.
 - (cc) The same underlying commitment or accrual is not already covered forward.
 - (dd) Non-resident counterparties who are foreign subsidiaries or branches of South African corporates or other South African entities, including foreign subsidiaries or branches of Authorised Dealers who wish to transact in Rand hedging for

its own account, present to the Authorised Dealer a copy of a specific approval from the Financial Surveillance Department granting permission for such a non-resident to enter into the Rand hedge transaction, plus suitable documentation confirming that an underlying Rand denominated commitment or accrual is in place.

- (ee) In respect of hedging contracts for periods longer than 12 months, suitable documentation confirming that an underlying Rand denominated commitment or accrual is in place, is viewed on the settlement date.
- (ff) 'Suitable documentation' as mentioned in (ee) above confirming the underlying transaction would in most instances be the official and binding document used between the contracting parties as evidence of the underlying transaction (e.g. a broker's note for the sale or purchase of local listed securities by the non-resident).
- (gg) All settlements in terms of forward cover taken out by non-residents not resulting in the physical conversion of currency to and from Rand, i.e. the so called 'in-between trades' must be reported to the Financial Surveillance Department on the same basis as outlined in section D.1(B)(i)(f) and (g) of the Authorised Dealer Manual.

(ii) General information on trading parameters

- (a) Non-resident correspondent banks are free to deal in the spot foreign exchange market. Spot transactions must, however, be settled on the original spot value date.
- (b) Foreign exchange swap transactions by non-resident correspondent banks with Authorised Dealers involving the funding of short Rand positions may only be undertaken by non-resident correspondent banks in respect of their assets, liabilities or underlying firm and ascertainable exposures, commitments or accruals.
- (c) Transactions that involve the outright purchase of Rand for purposes of making an investment constitute an exposure that can be hedged against exchange rate risk. Thus correspondent banks can create Rand on the swap for purposes of funding their nostro accounts.
- (d) Swap transactions in the forward market with the sole purpose of trading an interest rate view and which do not involve the financing of a short Rand position are acceptable.

(C) Foreign currency against foreign currency

- (i) Subject to the same conditions as set out in subsections (A) and (B) above, Authorised Dealers may arrange cover on behalf of their clients in one foreign currency against another.

(D) Surrenders or extensions by means of swaps

- (i) Since forward or foreign exchange option contracts entered into in terms of subsection (B)(i)(a)(ee) above may only be concluded for firm and ascertained Rand denominated commitments or accruals and constitute a binding agreement between the parties concerned, such contracts may not be annulled prior to the maturity date. In the case of optional contracts, the contract matures once the full amount has been taken up, which may be prior to the final delivery (maturity) date mentioned in the contract.
- (ii) However, should circumstances arise in which it is required to vary the delivery date of a forward or foreign exchange option contract or part thereof, surrenders, early take-ups or extensions may be allowed, subject to settlement taking place by means of a counter contract or swap. Any profits or losses arising from such action should be regarded as being for the account of the client and the rate applied to the extension of such contracts may under no circumstances be adjusted to incorporate the relative profit or loss.

(E) Hedging operations

- (i) Subject to the same conditions as set out in subsections (A) and (B) above, Authorised Dealers may arrange cover with non-resident counterparties in respect of the risks mentioned below.
- (ii) Authorised Dealers are required to keep a register of all over the counter contracts traded and such register should be available at all times for inspection purposes by the Financial Surveillance Department.
- (iii) All trades must take place under International Swaps and Derivatives Association agreements, with all individual trades being subsequently confirmed with a transaction form stating who the Granter (Seller) and Grantee (Purchaser) of the products are.
- (iv) Risks for which cover may be arranged with non-resident counterparties:
 - (a) Interest rates
 - (aa) Authorised Dealers may cover their clients' firm and ascertained exposure to possible losses as a result of adverse movements in interest rates arising from an

underlying transaction.

- (bb) Such an interest rate hedge may be arranged by way of a futures contract on fixed-income securities or time deposits, including forward rate agreements, interest rate option contracts or interest rate swaps.
 - (cc) An interest rate hedge in any other form may only be entered into after the prior written approval of the Financial Surveillance Department has been obtained.
- (b) Price risk
 - (aa) All contracts and instruments such as gilts, equity options and index-linked hedging instruments and warrants written by non-resident institutions and subscribed to by residents, excluding Authorised Dealers, must be referred to the Financial Surveillance Department on a case-by-case basis.
 - (bb) Once approval has been granted, all cross-border cash flows must be settled in foreign currency or Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer.
- (c) Credit risk (credit derivatives)
 - (aa) Authorised Dealers may enter into credit derivative transactions with non-resident counterparties in order to offer such non-residents protection on Rand denominated securities acquired in or debt advanced to the domestic markets.
 - (bb) Credit exposures resulting from foreign currency denominated loans advanced by non-residents to residents for domestic employment may also be assumed by Authorised Dealers.
 - (cc) No credit derivative transactions may be entered into with non-residents in respect of foreign currency denominated securities issued by residents or securities (including Rand denominated) issued by non-residents, except as provided for in sections B.2(I) and D.1(B) of the Authorised Dealer Manual.
 - (dd) Authorised Dealers may also enter into credit derivative transactions with non-resident banks in order to reduce such Authorised Dealers' credit risk exposure as a result of the above-mentioned transactions with non-residents or transactions with residents.
 - (ee) Where it is necessary for non-residents to place collateral with Authorised Dealers in respect of any credit derivative

transaction, only cash cover in Rand or the pledge of other unencumbered non-resident owned local Rand denominated assets is allowed.

- (ff) Authorised Dealers may place funds in margin accounts or as collateral with non-resident banks as a result of permissible derivative transactions. Such funds must, however, form part of the foreign currency holdings of Authorised Dealers.
- (gg) Authorised Dealers are only allowed to enter into credit derivative transactions in order to reduce credit risk exposures resulting from genuine underlying transactions. Documentary evidence must be viewed confirming the nature and extent of the underlying exposure. It follows that such transactions are not allowed for pure trading and speculative purposes.
- (hh) Authorised Dealers are required to keep a register of all credit derivative contracts entered into and such register should be available at all times for inspection purposes by the Financial Surveillance Department. All transactions must take place in terms of International Swaps and Derivatives Association agreements or International Swaps and Derivatives Association confirmations. All individual transactions must subsequently be confirmed with a transaction form stating the name and domicile of the protection seller and protection buyer and signed undertakings by both parties that the premium or margin requirements reflected in the International Swaps and Derivatives Association agreement, are payable and receivable wholly in terms of that agreement and do not relate to any other agreement between the two parties.

 - (b) Non-resident Rand accounts may not be overdrawn without the permission of the Financial Surveillance Department, except as provided for in section B.2(I) of the Authorised Dealer Manual. However, Authorised Dealers are permitted to use their discretion in allowing occasional overdrafts (as a result of clerical, transmission or operational errors) on the non-resident clearing accounts of foreign banks (vostro accounts) held in their books. It is, however, incumbent on the Authorised Dealer to advise the foreign bank concerned of such overdraft immediately and to request rectification thereof.
 - (c) Authorised Dealers are requested to advise the Financial Surveillance Department of all cases where the clearing accounts of foreign banks are regularly overdrawn in amounts of R25 million and over, or where the provision of cover is unduly delayed (i.e. beyond two business days from the date that the account went into overdraft). Cover for bank charges and other transactional expenses may continue to be provided on a periodic basis.
 - (d) A change request must be submitted by the Authorised Dealer on the Loan Reporting System, confirming that loan funds will be received from a Non-resident Rand account. It should be noted that such CFC accounts may not be overdrawn without prior written approval from the Financial Surveillance Department unless authorised elsewhere in the Authorised Dealer Manual; and
 - (b) Special CFC account holders include:
 - (aa) the insurance industry to cater for foreign currency working balances in terms of section B.10(D)(iii) of the Authorised Dealer Manual;
 - (bb) local entities involved in the importation and exportation of rough diamonds, crude oil, wrought gold and/or steel. Separate CFC accounts clearly designated as Special CFC accounts may, on application to an Authorised Dealer, be opened for these local entities (i.e. legal persons), to facilitate the local settlement in foreign currency between such account holders in respect of transactions which will result or have resulted in the direct importation and/or exportation by one of the entities involved of rough diamonds, crude oil, wrought gold and/or steel. The following provisions must at all times be

strictly adhered to:

- (1) no more than two local entities (i.e. one buyer and one seller) may be party to any transaction to be so settled and both parties must obtain permission from their respective Authorised Dealers to conduct Special CFC accounts for such transactions;
 - (2) one of the parties to transactions to be so settled must be a registered importer and/or exporter of the commodity in question. The Authorised Dealer of the importer and/or exporter should be presented with suitable documentary evidence to this effect;

 - (4) only the aforementioned transactions may be settled over such Special CFC accounts;
 - (5) only the party that will have to convert Rand to foreign currency in order to settle such transactions may be permitted to hedge its exposure in respect of the particular transactions. It follows that the party that will export or import the commodities may not be permitted to enter into hedging transactions in respect of their accruals or commitments resulting from such transactions; and
 - (6) Authorised Dealers should ensure that all other provisions of the Authorised Dealer Manual regarding imports, exports and hedging are fully complied with; and
- (cc) local entities who are oil and gas right holders and whose sole trade relates to exploration and production (i.e. extraction only) may open and conduct CFC accounts without any restriction on the nature of transactions passing over the account, provided that all requirements relating to reporting, in terms of the Reporting System, are adhered to.
- (c) The opening of CFC accounts for any other purpose requires prior written approval from the Financial Surveillance Department.

(ii) Control over CFC accounts

- (a) The above-mentioned accounts are subject to the following conditions:
- (aa) these accounts must form part of the bank's nostro account administration and accordingly the client cannot operate on it other than through and with the full cognisance and approval of the Authorised Dealer concerned. Clients are permitted to retain funds in their CFC accounts without the obligation to convert the funds into Rand. The current repatriation requirement remains extant;
 - (bb) only foreign exchange transactions concluded in the name of the account holder and which qualifies as a permissible credit and/or debit, may be passed over these accounts;
 - (cc) all transactions must comply fully with the provisions of the Authorised Dealer Manual or the provisions of specific authorities from the Financial Surveillance Department;
 - (dd) hedging transactions may be entered into for specific import payments and the maturity proceeds used to replenish an overdrawn CFC account. Foreign currency may also be purchased in the spot market to replenish an overdrawn CFC account;
 - (ee) for compliance purposes, both the account holder and the Authorised Dealer must maintain an audit trail of all set offs;
 - (ff) foreign currency purchased in the spot market for permissible transactions in respect of a firm and ascertainable underlying commitment or the maturity proceeds of hedging contracts may only be credited to a CFC account if the funds are to be transferred abroad within a period of 30 days. Authorised Dealers must ensure that this dispensation is not abused;
 - (gg) when permitting the transfer of funds between CFC accounts at different Authorised Dealers, such transfers may only be by means of the appropriate SWIFT client transfer message type. The following provisions should also be adhered to:
 - (1) if proceeds are transferred between CFC accounts, Field 72 of the appropriate SWIFTS client transfer message type should clearly indicate 'TRF SPOT' and/or 'TRF HEDGE'. In the event of funds being transferred in bulk, this information should be broken down into the specific amounts, making up the total transferred;
 - (2) the Authorised Dealer receiving funds for credit to a CFC account from another Authorised Dealer may not accept

such funds if Field 72 does not indicate, inter alia, the date on which the funds were originally credited to the CFC account;

- (3) transfer of foreign currency, which was not acquired by means of a spot transaction or from the maturity of hedging contracts, should be reflected in Field 72 as 'TRF FROM ABROAD';
 - (4) transfer between local entities in settlement of transactions in rough diamonds, crude oil, wrought gold and steel, should be reflected in Field 72 as 'TRF 4 COMMODITIES'; and
 - (5) the authority number should be reflected in Field 72 in the event of funds being transferred between CFC accounts in terms of specific authorities granted by the Financial Surveillance Department;
- (hh) if a CFC account has been debited in respect of bridging finance, no forward cover may be availed of as the account may only be replenished by means of proceeds received from abroad;
- (ii) where a group of companies operates CFC accounts, the South African parent company may consolidate the group's earnings and any local subsidiary may utilise the funds, provided that the group operate through a centralised treasury located in South Africa; and
- (jj) interest earned on CFC accounts may be retained in such accounts and be used for set off purposes.
- (iii) Permissible set offs/debits over CFC accounts
- (a) The following payments may be settled from single CFC account balances:
 - (aa) imports and software electronically downloaded, including all costs related thereto; and
 - (bb) all legitimate current account payments may be permitted by an Authorised Dealer to be paid from a CFC account. All capital account payments, inter alia loans, equity and dividends, are excluded.
 - (b) The payments referred to above may only be processed provided that the Authorised Dealer concerned has satisfied itself that the transactions are permissible in terms of the various sections of the

Authorised Dealer Manual or in respect of which a specific authority has been granted by the Financial Surveillance Department.

- (c) In instances where foreign currency is purchased in the spot market for permissible transactions in respect of a firm and ascertainable underlying commitment or the maturity proceeds of hedging contracts are credited to a CFC account, the onus is on clients of Authorised Dealers to ensure that such funds are transferred abroad within a period of 30 days. Authorised Dealers must ensure that this dispensation is not abused.
- (iv) Exemptions
 - (a) Freight payments that are expressed in foreign currency and are directly related to a specific import or export transaction may be settled between local entities (i.e. legal persons) in foreign currency.
 - (b) Similarly, importers who do not conduct a CFC account or who have no inflow of foreign currency may purchase foreign currency in the spot market to pay freight charges to another resident provided that such resident has an obligation to pay freight charges in foreign currency.
 - (c) Foreign currency held by a locally recognised ships' agent (including cash to master transactions), freight forwarder, marine insurance broker or tour wholesaler or operator for the ultimate benefit or account of a non-resident entity (e.g. a ship's owner, freight forwarder, insurance broker or insurance entity abroad) need not be offered for sale to an Authorised Dealer. These funds may be retained in a CFC account until distribution on behalf of or remittance to the non-resident beneficiary abroad. Authorised Dealers must ensure that this concession is not abused.
 - (d) If the account holder is required to pay any interest on an overdrawn account by converting Rand into foreign currency, this may be permitted in the spot market.
- (v) Settlement, on an agent basis, in foreign currency between resident entities over CFC accounts
 - (a) Authorised Dealers may allow local agents of exporters of goods from South Africa to settle export proceeds over CFC accounts of resident exporters, subject to the following conditions:
 - (aa) The applicant company must act as an agent for the exporter.
 - (bb) All settlements in foreign currency for goods exported must be over CFC accounts.

- (dd) At the time of settling the export proceeds over the CFC account, the onus rests on the local agent to present an Authorised Dealer, where the agent's CFC account is kept, with the local exporter's invoices reflecting the net amount (less the agent's commission) that are to be settled to the local exporter's CFC account concerned.
 - (dd) Kindly note that the local agent may not fund its own CFC account from South Africa and where applicable, may in need only hedge the exchange rate exposure in respect of the commission portion to be earned from the export proceeds.
 - (ee) The producer of the goods exported may, provided it is its intention to convert the export proceeds to Rand, cover forward its own exchange rate exposure.
 - (ff) When permitting the transfer of funds between CFC accounts at different Authorised Dealers, such transfers may only be made by means of the appropriate SWIFT client transfer message type as explained in section E.(B)(ii)(a)(gg) of the Authorised Dealer Manual.
- (b) Resident entities, excluding state-owned companies, purchasing goods from local suppliers that have to import certain or all of the components from abroad, may settle only the cost of the imported component(s) in foreign currency over the respective CFC accounts, subject to the following conditions:
- (aa) The applicant company must act as an agent and/or facilitator for the local end-user and/or importer in respect of the importation of the goods.
 - (bb) Settlement may not be in respect of any other domestic value-added process, for example installation fees, domestic enhancement of the imported goods before delivery, domestic transportation fees, domestic customisation of imported goods, etc.
 - (cc) The provisions of section E.(B) of the Authorised Dealer Manual must be adhered to.
 - (dd) Only the party that will have to convert Rand to foreign currency to settle such transactions may be permitted to hedge its exposure in respect of the particular transactions. The party facilitating the importation of the goods will not be permitted to enter into hedging transactions in respect of the foreign commitments resulting from such transactions.

- (c) Authorised Dealers should ensure that all other provisions of the Authorised Dealer Manual regarding imports, exports and hedging are fully complied with. In this regard, where an import transaction is being processed and limited documentation is available such as only an invoice, the transaction may be finalised.

(C) Foreign currency accounts

- (i) Foreign currency accounts may be opened for private individuals (natural persons) resident in South Africa for transactions permissible in terms of the Authorised Dealer Manual and for non-residents.
- (ii) Foreign currency accounts may be opened for institutional investors for the purpose of obtaining offshore exposure in terms of the prudential limit. See subsection B.2(H)(vi)(p) of the Authorised Dealer Manual.

(D) Foreign bank accounts

- (i) Authorised Dealers may approve requests by South African companies to open and operate foreign bank accounts, subject to the following conditions:
 - (a) only South African companies that have legal/bona fide sources of income abroad are permitted to open foreign bank accounts;
 - (b) all foreign credits to such bank accounts are subject to the provisions of Regulation 6, except in respect of foreign earned dividends which are exempted from the aforementioned Regulation;
 - (c) funds that accrue in foreign bank accounts must be in respect of transactions permissible in terms of the Authorised Dealer Manual or a specific authority granted by the Financial Surveillance Department;
 - (d) applicants must provide a written undertaking to the Authorised Dealer approving the bank account confirming that no debits other than transfers to South Africa, debits permissible in terms of a specific authority from the Financial Surveillance Department or bank charges, will be passed over the foreign bank accounts; and
 - (e) applicants must ensure that the foreign bank accounts have been conducted within the ambit of the aforementioned conditions.
- (ii) The Financial Surveillance Department reserves the right to instruct the applicant company to close any foreign bank account and for any funds accumulated therein to be repatriated to South Africa in the event of the above-mentioned conditions in (i) above not being complied with. At the time of approving the opening of the foreign bank account, Authorised Dealers must report the following to the Financial Surveillance Department:

- (a) the name and registration number of the applicant company;
 - (b) domicile of where the foreign bank account has been opened;
 - (c) the account holder and account number; and
 - (d) the purpose of opening the foreign bank account.
- (iv) Authorised Dealers may, where applicable, approve the extension of the authorities previously granted by the Financial Surveillance Department provided the conditions stipulated in (i) above are strictly adhered to.

---oOo---

F.1 Negotiable instruments denominated in Rand and Rand notes**(A) Cheques, dividend warrants and drafts**

- (i) The remittance to points outside South Africa of cheques, dividend warrants and drafts in Rand contravenes Regulation 3(1)(d) and such instruments presented to Authorised Dealers' overseas branches, offices and subsidiaries should not be negotiated but accepted for collection only. The remittance of the proceeds by the drawee bank is dependent on the production of documentary evidence that the transaction is permissible in terms of the Authorised Dealer Manual.
- (ii) Bank drafts issued in Rand by Authorised Dealers are, however, exempted from the provisions of Regulation 3(1)(d) and may be honoured when presented for payment. The production of documentary evidence confirming that transactions are permissible in terms of the Authorised Dealer Manual is still applicable when issuing bank drafts.

(B) Import and export of Rand notes

- (i) As the import and export of Rand notes are prohibited (except as provided for in section B.11 of the Authorised Dealer Manual), Authorised Dealers should not accept such notes received from points outside South Africa.
- (ii) However, the proceeds of Rand notes repatriated from SADC members, excluding CMA members, may be remitted on the production of documentary evidence confirming that they were not exported from South Africa in contravention of the Regulations. In this regard, it would meet the requirements of the Financial Surveillance Department if consignments of notes are accompanied by the confirmation of the repatriating bank that the notes were acquired from bona fide travellers from South Africa in amounts not exceeding R25 000 per capita.
- (iii) For statistical purposes, Authorised Dealers must advise the Financial Surveillance Department monthly of all amounts of Rand notes received from the aforementioned countries. The figures furnished must indicate the source from which the notes were received and the number of notes in each denomination.

F.2 Assignment to Treasury of the right to goods exported and imported**(A) Exports**

- (i) Whenever goods have been exported from South Africa and the exporter has either failed to sell those goods or has not received payment in respect thereof within six months from the date of export, the exporter must within 14 days from the date of expiry of the six-month period, report the matter to the Treasury or to an Authorised Dealer.
- (ii) In the absence of a satisfactory explanation for such failure, the Treasury may, in terms of the provisions of Regulation 11(1), order the exporter to assign to the Treasury the right to such goods.

(B) Imports

- (i) Whenever goods have been purchased and paid for outside South Africa, but which goods have not been consigned to South Africa within four months of the date of payment, the importer must within 14 days from the date of expiry of the four-month period, report the matter to the Treasury or to an Authorised Dealer.
- (ii) In the absence of a satisfactory explanation for the delay in the shipment of the goods, the Treasury may, in terms of Regulation 12(1), order the importer to assign to the Treasury the right to such goods.
- (iii) For the purposes of Regulation 12, goods held in bond abroad are not regarded as having been shipped to South Africa.

(C) Exemptions

- (i) Authorised Dealers may, at their discretion, both in the case of exports and imports, grant short extensions of the periods referred to in Regulations 11 and 12, provided that they are satisfied that the goods will be sold, or in the case of imports received in South Africa within a reasonable period, that the delay in the sale or shipment is due to factors outside the control of the local merchant, and that no intentional circumvention of the Regulations is involved.
- (ii) Authorised Dealers should diarise import and export transactions to ensure compliance with these Regulations and should render monthly returns of all exemptions granted to their clients under this paragraph to the Financial Surveillance Department, furnishing details of:
 - (a) the name of the importer and exporter;
 - (b) date of payment or of export;
 - (c) amount of payment or declared value of export; and

- (d) the reason for delay in shipment or, in the case of exports, of the repatriation of the export proceeds.

(D) Assignments

- (i) In the event of an exemption being refused, the Treasury would instruct the importers and/or exporters to assign their right to the goods held outside South Africa to their Authorised Dealer, who would be requested to dispose of the goods to best advantage.
- (ii) The sum payable as consideration for any assignment would be the amount realised, less the cost of realisation.

(A) Control over dealings by residents in securities owned by non-residents or in which such persons have an interest

(i) Exchange Control Regulations

- (a) The regulations governing dealings in securities owned by non-residents are set out in Regulations 14 and 15.
- (b) The attention of Authorised Dealers is drawn to the provisions of, inter alia, Regulation 10(1)(c). In this regard, it is essential that all securities related transactions between a resident and a non-resident or emigrant whereby capital or any right to capital is directly or indirectly exported from South Africa, are carefully scrutinised. Documentary evidence such as brokers' notes or validated trade advices and auditors' certificates, where applicable, must be viewed in order to ensure that such transactions are concluded at arm's length and at fair and market related prices. In the case of any doubt on the part of the Authorised Dealer or Authorised Bank concerned, the proposed transaction must be referred to the Financial Surveillance Department.
- (c) Residents of Lesotho, Namibia and eSwatini are also regarded as residents for purposes of securities control.

(ii) Glossary of terms

- (a) For purposes of the application of this section of the Authorised Dealer Manual, unless the context otherwise indicates, the following definitions should be applied:
 - (aa) **Authorised Bank** means a person authorised by the Financial Surveillance Department to effect and cancel non-resident endorsements.
 - (bb) **Authorised Dealer** means a person authorised by the Treasury to deal in foreign exchange and to effect non-resident endorsements.
 - (cc) **BDA** is the Broker Dealer Accounting system operated and controlled by the JSE Limited.
 - (dd) **Certificated Securities** are securities issued in paper form.
 - (ee) **Controlled Securities** means:
 - (1) any security that is registered in the name of a non-resident or of which a non-resident is the owner or in which a non-resident has an interest; and

- (2) any security acquired from a non-resident or acquired outside the CMA, by any person, irrespective of the residence of such person.
- (ff) **CSA means** Custody and Settlement Agent appointed by a broking member (equities) in terms of Directive FL issued by the JSE Limited, to exercise custody over that member's managed account, safe custody and controlled account assets, and to effect settlement of certificated and uncertificated securities on behalf of that member and its clients.
- (gg) **CSD** means central securities depositories.
- (hh) **CSDP** means a duly appointed participant in a central securities depository.
- (ii) **CSM** means a custody and settlement member of the JSE Limited who has been appointed in terms of the rules and on behalf of its clients and/or another member and that member's clients:
 - (1) exercises custody over managed accounts, safe custody and controlled account assets; and
 - (2) effects settlement of uncertificated and certificated securities.
- (jj) **Settlement authority** means the person or persons appointed by the JSE Limited to manage the settlement of transactions in uncertificated securities effected through the trading system of the JSE Limited in terms of the rules and directives, as well as the CSD rules.
- (kk) **Stockbroker** means a natural person who is a member or who is an officer or employee of a member and who is authorised and qualified under the rules of the exchange concerned to be a stockbroker.
- (ll) **Stock exchange** means any association licensed in terms of section 10 of the Securities Services Act, 2004 (Act No. 36 of 2004).
- (mm) **STRATE** means Share Transactions Totally Electronic Limited, a public company registered as a CSD in terms of the section 32 of the Securities Services Act, 2004 (Act No. 36 of 2004), which provides the official electronic settlement and custody services to the JSE Limited.

(nn) **TMS** means the trade monitoring system introduced by the Settlement authority in terms of which members of the JSE Limited, CSM and CSA, who introduce risk into the market, are levied with additional capital calls and cash margins.

(oo) **Uncertificated securities** mean securities as defined in section 29 of the Securities Services Act, 2004 (Act No. 36 of 2004), which are transferable without a written instrument and are not evidenced by a certificate.

(iii) General

- (a) There are no restrictions on local dealings in securities, other than bearer securities, that are owned by residents.
- (b) It is emphasised that this section applies not only to securities registered in the name of a non-resident, but also to securities in the name of a resident acting as a nominee for a non-resident.
- (c) The principal objectives in controlling non-resident owned securities are to ensure that:
 - (aa) residents requiring funds outside the CMA do not obtain such funds by purchasing securities in the CMA and selling them outside the CMA without accounting for the proceeds in foreign currency or Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer;
 - (bb) since all income due to non-residents on their securities is freely transferable, non-residents do not purchase securities from residents other than through approved channels at a fair and market related price; and
 - (cc) since exchange controls on non-residents have been abolished, the onus is on the South African buyer or seller of securities to prove that the transaction was concluded on an arm's length basis and at a fair and market related price.
- (d) The scheme outlined hereunder has been designed to segregate securities owned by non-residents from securities owned by residents without imposing control over the actual securities in both certificated and uncertificated environments to allow non-residents the maximum freedom to change their investment portfolios without defeating the objectives outlined above, and at the same time to obviate the necessity for a cumbersome administrative system which, in the interests of investors and others concerned, it is naturally desired to avoid.

- (e) All securities traded on the JSE Limited need to be dematerialised or immobilised in the electronic records of the CSD specifically established for this purpose, before it can be rendered 'good delivery'. The residential status will be flagged by the various CSDPs or settlement agents.
- (f) Since only CSDPs would be able to initiate the dematerialisation process in an electronic settlement environment, the initiation of this process in respect of emigrants would need to be the CSDP of the Authorised Dealer controlling the particular emigrant's remaining assets or the CSDP contracted by such an Authorised Dealer, under the auspices of the controlling Authorised Dealer.
- (g) Only the CSDP of Authorised Dealers may enter into securities lending transactions with non-residents and then only within the ambit of the powers granted to them.
- (h) Except with the authority of the Financial Surveillance Department, no advances may be made against securities.
- (i) The Financial Surveillance Department is of the view that in a certificated environment securities control can best be administered by a few financial institutions who have a detailed knowledge of the subject and requirements imposed by the Financial Surveillance Department. It has, therefore, been centralised in the hands of a few branches of Authorised Dealers, who are referred to hereunder as Authorised Banks and CSDPs.
- (j) In an uncertificated environment there is no distinction between the duties of Authorised Dealers, Authorised Banks and CSDPs. CSDPs and settlement agents are also authorised as such by the Financial Surveillance Department, while members of stock exchanges are authorised by the exchanges concerned. CSMs and CSAs are authorised as such by the JSE Limited.

- (iv) Existing holdings of non-resident owned securities in certificated form
- Regulation 14 makes it obligatory for all residents who hold or receive securities on behalf of non-residents to submit such securities to any Authorised Dealer or CSDP in the CMA for non-resident endorsement as indicated in (d) below. The securities must be accompanied by a declaration signed by the holder that the beneficial owner of the securities is permanently resident in the country indicated.
 - This section applies both to securities registered in the names of non-residents and to those held in the names of nominees, including Authorised Dealers and all other nominee companies.
 - Regulation 14 precludes any resident from acting as a nominee for a non-resident, unless permission has been obtained from the Financial Surveillance Department. Such permission will normally

be granted only to stockbrokers, banks and other financial institutions. Authorised Dealers and their nominee companies are hereby authorised to act as nominees for non-residents.

- (d) Authorised Dealers who are presented with unendorsed securities, will endorse such securities non-resident. The endorsement will be written or stamped in bold letters, not less than five millimetres high, on the top right-hand corner of the security. The endorsement will be authenticated by the stamp of the Authorised Dealer concerned and the signature of one of its authorised officers. It is emphasised that any Authorised Dealer may endorse securities, but that only an Authorised Bank may cancel the endorsement. Cancellations must also be authenticated as indicated above.
- (e) The effect of the non-resident endorsement will be to render the securities 'bad delivery' to a resident until the endorsement has been cancelled by an Authorised Bank.
- (f) If a non-resident wishes to effect a switch, the security will have to be presented to an Authorised Bank to have the endorsement cancelled. Such cancellation must be signed by an authorised officer of the Authorised Bank concerned.
- (g) The Authorised Banks will only cancel the endorsement on the following conditions:
 - (aa) against the presentation of other locally listed or unlisted securities of an equivalent value as evidenced by brokers' notes or an auditors' certificate confirming the value of the unquoted security, which would then be endorsed non-resident and returned to the broker, buyer or Authorised Dealer controlling the remaining assets of the emigrant;
 - (bb) against payment to the Authorised Bank, for transfer abroad or for credit of a Non-resident Rand account, of the proceeds of the securities realised, as evidenced by brokers' notes or auditors' certificate confirming the value of the unlisted security; and
 - (cc) against payment to the Authorised Bank of part of the proceeds for transfer abroad or for credit to a Non-resident Rand account and presentation of other locally listed or unlisted securities, together totalling the equivalent of the value of the securities sold. A non-resident endorsement must be placed on the securities presented.
- (h) Funds held in Non-resident Rand accounts are freely transferable and will accordingly be eligible for investment in locally listed and unlisted securities, financial instruments and any other assets on

behalf of such account holder. The funds may be released to a stockbroker or seller against presentation of local securities on which a non-resident endorsement must be placed by the Authorised Bank.

- (i) If the value of securities sold on behalf of a non-resident exceeds the value of the new securities purchased, as evidenced by the relative brokers' notes or auditors' certificate, the difference must be deposited with an Authorised Bank for credit of a Non-resident Rand account.
- (j) Where the value of securities purchased on behalf of a non-resident exceeds the value of the securities sold, the stockbroker or purchaser must satisfy the bank that the shortfall has been received in foreign currency or Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer.
- (k) Authorised Banks may permit switches into other locally listed securities. Switches may also be permitted from unlisted securities to listed securities, from listed to unlisted securities, or from unlisted to other unlisted securities. The value of unlisted securities needs to be confirmed by an auditors' certificate in each instance.
- (l) Transfer secretaries are also required to endorse securities in certain circumstances and will not be permitted to:
 - (aa) register securities in the name of a non-resident without endorsing the relative securities non-resident;
 - (bb) transfer securities out of the name of a non-resident (except to another non-resident), unless the relative securities have been endorsed non-resident and the endorsement cancelled by an Authorised Bank; and
 - (cc) issue rights to non-residents without endorsing the relative documents non-resident.
- (v) Securities purchased by non-residents and not dematerialised or immobilised in a central securities depositories
 - (a) Authorised Dealers must place an endorsement on securities purchased with funds received in foreign currency or for which payment is made from a Non-resident Rand account (including funds received from an emigrant's capital account). The endorsement will consist of the word non-resident and will be authenticated by the stamp of the Authorised Dealer concerned and the signature of one of its authorised officers. After the endorsement has been annotated, the securities will be returned to the broker, buyer or Authorised Dealer controlling the remaining assets of the

emigrant concerned, whichever is applicable.

- (b) If the owner wishes to switch a security endorsed transferable or non-resident into another listed or unlisted security, an Authorised Bank must cancel the endorsement on the security sold and place a non-resident endorsement on the security purchased. This will only be done against confirmation of brokers' notes confirming the value of listed securities or auditors' certificates confirming the value of unlisted securities. When the latter is presented for transfer into the name of a non-resident or his/her nominee, the transfer secretary who signs the security issued to the transferee, must endorse that security non-resident above his/her signature. Securities forming part of an emigrant's remaining assets will be returned to the Authorised Dealer controlling such emigrant's remaining assets for control in terms of the Regulations.
- (c) Non-residents may switch their securities as provided for in (iv)(k) above.
- (d) In endorsing any security purchased under a switch, the Authorised Bank must ensure that any shortfall is received in foreign currency or Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer. Any surplus funds arising from a switch must be credited to a Non-resident Rand account.
- (e) A non-resident may sell any CMA securities to another non-resident.
- (vi) Initiation of the dematerialisation and immobilisation process and subsequent trading in this environment
 - (a) All securities traded on the JSE Limited need to be dematerialised or immobilised in the electronic records of the central depositories specifically established for this purpose before they can be rendered 'good delivery'. The residential status of the electronic record (i.e. non-resident or emigrant or resident) will be flagged accordingly by the various participants in the central depository, and linked to the applicable non-resident, emigrant capital or resident accounts in the books of the Authorised Dealer or Authorised Bank concerned.
 - (b) Only CSDPs would be able to initiate the dematerialisation process in an electronic trading environment. It follows that the initiation of this process in respect of emigrants would need to be the CSDP of the Authorised Dealer controlling the particular emigrant's remaining assets, or the CSDP contracted by such an Authorised Dealer, under the auspices of the controlling Authorised Dealer.

- (c) This section applies both to securities registered in the names of non-residents and to those held in the names of nominees, including Authorised Dealers and all other nominee companies. It may further be added that Regulation 14 precludes any resident from acting as a nominee for a non-resident, unless permission has been obtained from the Financial Surveillance Department. Only CSDPs and CSMs are authorised to act as nominees for non-residents, provided that their computer systems comply with the requirements of the JSE Limited or STRATE, depending on the environment in which they operate.
 - (d) In processing any security purchased by a non-resident under a permitted switch, the relevant Authorised Bank must confirm that the funds needed to settle the trade will be available on the settlement date. The Authorised Bank must ensure that any shortfall is received in foreign currency or Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer and that any surplus funds arising from a switch will be credited to a Non-resident Rand account.
 - (e) Funds held in Non-resident Rand accounts are freely transferable and will accordingly be eligible for investment in locally listed and unlisted securities, financial instruments and any other assets on behalf of such account holders. The funds may be released to a stockbroker against presentation of a broker's note.
 - (f) Where a non-resident removes securities or financial instruments that have been dematerialised or immobilised in a CSD to a foreign register, the endorsement and cancellation procedures will not be applicable.
 - (g) Where a non-resident re-materialises securities or financial instruments that have been dematerialised or immobilised in a CSD or a central depository, the endorsement procedures will again become operative.
 - (h) To cover the expenses that will necessarily be incurred by CSDPs or settlement agents in maintaining qualified staff to deal with the matters outlined in this section, certain charges may be levied.
- (vii) Duties of Authorised Dealers and Authorised Banks
- (a) Authorised Dealers
 - (aa) All certificated securities held by an Authorised Dealer on behalf of a non-resident must be endorsed as prescribed in this section. This applies irrespective of the name in which the shares are registered.

- (bb) All non-resident owned certificated securities that are not already endorsed and that are presented to an Authorised Dealer must be endorsed against presentation of the signed declaration referred to therein.
- (cc) Declarations need not be completed in respect of endorsed scrip held by an Authorised Bank on behalf of a non-resident.
- (dd) On no account may any person other than an authorised officer of an Authorised Bank cancel the endorsement on a certificated security. It follows that switches on behalf of a non-resident from certificated securities where an endorsement needs to be cancelled must be referred to an Authorised Bank.
- (ee) With regard to settlement and custody in an electronic environment, there is no difference between the duties of Authorised Dealers and Authorised Banks.
- (ff) The computer systems of Authorised Dealers must comply with the requirements of STRATE.
- (gg) Authorised Dealers must account for individual securities held by their clients on the resident, non-resident and emigrant platforms of their nominee account with a CSDP.
- (hh) They are also required to satisfactorily reconcile the aggregate of their electronic sub-register records per platform (i.e. resident, non-resident and emigrant) on a daily basis with the total of their nominee account.
- (ii) When opening an account for a non-resident investor, the Authorised Dealer must ensure that the following indicators are correctly identified:
 - (1) resident;
 - (2) non-resident; and
 - (3) emigrant.
- (jj) Authorised Dealers must ensure that a properly styled resident, non-resident, emigrant capital or transferable income account has been linked to the securities account for settlement and corporate action purposes.
- (kk) Under no circumstances may Authorised Dealers permit the transfer of securities within a nominee electronic register between local, non-resident and emigrant client accounts, other than for settlement related transfers.

(b) Authorised Banks

- (aa) The information below under (cc) to (gg) refers to the existing certificated holdings of non-residents, howsoever, acquired and to securities forwarded to the CMA or acquired as a result of switches.
- (bb) The provisions of subsection (A) above apply to Authorised Banks who are also vested with the powers mentioned in the succeeding subsections.
- (cc) Authorised Banks may permit switches into unquoted securities.
- (dd) The endorsement on non-resident owned securities may be cancelled only on the conditions outlined in (iv)(g) above.
- (ee) With regard to (iv)(h) above, Authorised Banks will appreciate that, before releasing funds to a member of the JSE Limited, it is essential for them to endorse the certificated securities presented and to ensure that the latter are of approximately equal value to those sold.
- (ff) It is emphasised that endorsements may not be cancelled without the endorsement of other securities of similar value or against credit of the proceeds to a Non-resident Rand account.
- (gg) With regard to (v) above, Authorised Banks will appreciate that the non-resident endorsement on a security no longer restricts the transferability of the sale proceeds thereof.
- (hh) A security purchased for a non-resident may only be endorsed if the Authorised Bank concerned is satisfied that payment therefore has been received in foreign currency or Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer.
- (ii) If the owner of a transferable security wishes to sell it and purchase another, an Authorised Bank must place a non-resident endorsement on the security purchased and must:
 - (1) satisfy itself that the security sold was endorsed by an Authorised Bank or by the transfer secretary whose signature appears at the foot of the security; and
 - (2) cancel the endorsement on the security sold.

- (jj) All income due on securities owned by non-residents is transferable to countries outside the CMA.
 - (kk) Except with the authority of the Financial Surveillance Department, advances may not be made against securities owned by non-residents.
 - (ll) Securities owned by non-residents may not be exported, unless they have been endorsed 'Non-Resident'.
- (viii) Duties of central securities depository participants and settlement agents
- (a) The role of CSDPs and settlement agents is that of a custodian and to perform clearing and settlement services by interfacing with STRATE.
 - (b) The computer systems of CSDPs and settlement agents must comply with the requirements of the JSE Limited or STRATE, depending in which environment they operate.
 - (c) CSDPs and settlement agents are involved in the settlement process, as trades are eligible for settlement only if the trades have been confirmed or committed to by the CSM, CSA or CSDP and the settlement agent, which the instance requires.
 - (d) CSDPs must account for individual securities held by their clients on the 'Resident' or 'Non-Resident' or 'Emigrant' platforms.
 - (e) CSDPs and settlement agents are also required to satisfactorily reconcile the aggregate of their electronic records per platform (i.e. 'Resident' or 'Non-Resident' or 'Emigrant') on a daily basis with the CSD operated by STRATE.
 - (f) CSDPs and settlement agents may permit switches into unlisted securities.
 - (g) All income due on securities owned by non-residents is transferable to countries outside the CMA.
 - (h) Advances against securities may not be made without the prior written approval of the Financial Surveillance Department.
 - (i) Certificated securities owned by non-residents may not be exported, unless they have been endorsed 'Non-Resident'.
 - (j) Securities owned by non-residents may be transferred free of value between CSDPs for the account of the same non-resident or for the account of another non-resident under the following conditions:
 - (aa) that the delivering CSDP advises that the transfer constitutes non-resident owned securities;

- (bb) that the receiving CSDP ensures that the securities deposited to a non-resident share account and that either no change of beneficial ownership takes place or non-resident funds have moved elsewhere in terms of the transaction;
 - (cc) where such a transaction is initiated by a member of the JSE Limited, the onus will be on the member to prove that the transaction is effected in terms of the provisions of the Authorised Dealer Manual and that proof of this should be provided to both the receiving and delivering CSDPs; and
 - (dd) where an American depository receipt (ADR) transaction is initiated by a member of the JSE Limited, the onus will be on the member to prove that the transaction is in terms of the Authorised Dealer Manual and that proof of foreign currency movement should be provided to the CSDP.
- (k) When opening an account for an investor, the CSDP must ensure that the following indicators are correctly identified:
 - (aa) resident;
 - (bb) non-resident; and
 - (cc) emigrant.
- (ix) Duties of members of the JSE Limited
 - (a) Dealing with listed securities where the securities are in certificated form
 - (aa) In terms of the provisions of Regulation 14, members of the JSE Limited receiving securities in certificated form from or on behalf of a non-resident must immediately have the securities endorsed non-resident by an Authorised Dealer.
 - (bb) This applies also to securities purchased on behalf of a non-resident, even if the securities are to be registered in the name of the broker as nominee and to any securities bearing an address outside the CMA, whether the securities are to be dealt in or not.
 - (cc) Members of the JSE Limited should on no account deal in any way with unendorsed securities in which they know or have reason to believe a non-resident has an interest.
 - (dd) When requested by a non-resident to sell any security, the proceeds must either be used to purchase another locally listed security or be deposited with an Authorised Bank for transfer abroad or for credit of a Non-resident Rand account

in the name of the non-resident. The conditions governing dealings on behalf of non-residents are set out more fully in this section of the Authorised Dealer Manual.

- (ee) Members are required to ensure that all securities introduced by a non-resident client into a non-resident share account are in fact non-resident securities by verifying that the securities bear a non-resident endorsement or that the securities have been transferred from another non-resident share account.
- (ff) Members are required to ensure that where residents emigrate from the CMA their remaining assets are brought under the administration of an Authorised Dealer.
- (b) Dealing with listed securities where the securities have been dematerialised or immobilised in a central depository
 - (aa) After a transaction has been concluded with a non-resident or emigrant or resident party, brokers' notes must be sent to both the client and their nominated CSDP.
- (c) General
 - (aa) Members of the JSE Limited should at all times strictly adhere to these requirements to prevent the objectives of securities control being defeated.
 - (bb) When in any doubt, members must consult an Authorised Bank or the Director of Surveillance, the JSE Limited. Reference to the Financial Surveillance Department should be via an Authorised Dealer.
- (x) Duties of transfer secretaries
 - (a) Regulation 14 restricts dealings in securities belonging to non-residents, except on the conditions prescribed by the Treasury, whose powers under this regulation have been delegated to the Financial Surveillance Department. Except with permission (which must be obtained from an Authorised Dealer who will, in need, refer to the Financial Surveillance Department), no person may:
 - (aa) register the transfer of any security in which a non-resident has an interest;
 - (bb) change the address of a non-resident, except to another non-resident address;
 - (cc) register a South African address if the owner is a non-resident; or

- (dd) transfer a non-resident entry from the foreign section of a register to the South African section of the register or vice versa.
- (b) This section of the Authorised Dealer Manual deals with the prescribed conditions upon which the acts specified in Regulation 14 may be performed by transfer secretaries and the duties that devolve upon them. In general:
 - (aa) no transfer of securities may be effected to or from a non-resident without the approval of an Authorised Bank or CSDP;
 - (bb) no securities in certificated form or right to purchase securities may be issued to, or for account of, a non-resident unless the documents are endorsed non-resident;
 - (cc) any request to change the address of a non-resident, except to another non-resident address, requires the prior written approval of the Financial Surveillance Department;
 - (dd) it is possible that some securities in certificated form owned by non-residents may not be presented for endorsement, but if transfer secretaries receive, for any purpose, unendorsed securities in certificated form in the names of persons whose addresses are shown in the register as being outside the CMA, they should immediately hand the securities to an Authorised Dealer for endorsement;
 - (ee) transfer secretaries may transfer securities in certificated form from one non-resident to another non-resident, provided that they place a non-resident endorsement on the security in the name of the transferee;
 - (ff) transfer secretaries may transfer securities in certificated form from a resident to a non-resident only if the transferee's security is endorsed non-resident;
 - (gg) transfer secretaries may not transfer securities in certificated form from a non-resident to a resident unless the transferor's security bears a 'Non-Resident' endorsement and the endorsement has been cancelled by an Authorised Bank. No non-resident endorsement must be placed on the security issued to the resident. A transfer from a non-resident to a local nominee acting for the same non-resident, where no change of ownership is involved, is not regarded as a transfer from a non-resident to a resident. Transfer secretaries may, therefore, effect such transfers without reference to an Authorised Bank, provided that they place a 'Non-Resident' endorsement on the new security issued in certificated form;

- (hh) forms of acceptance in certificated form, in respect of non-residents, must be endorsed 'Non-Resident', before issue. Securities (including letters of allocation, letters of allotment, option certificates, balance receipts and any other receipts for securities) may not be issued to a non-resident, or to a person known to be his/her nominee, without the approval of an Authorised Bank, who will indicate that the purchase price has been received in foreign currency or Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer. The securities must be endorsed 'Non-Resident';
- (ii) where non-resident endorsed securities are received for splitting or replacement without change of ownership, transfer secretaries must endorse the new securities 'Non-Resident' as well;
- (jj) all non-resident endorsements by transfer offices must be authenticated by the signature of the authorised official of the transfer secretary concerned;
- (kk) transfer secretaries must in the following instances ensure that the original securities in certificated form are surrendered prior to issuing new securities in their stead:
 - (1) change of name;
 - (2) subdivision or consolidation of shares;
 - (3) participation in a reconstruction or merger; and
 - (4) buy-out and in lieu of cash, new shares are issued to the original shareholders; and
- (ll) where a transfer secretary is requested by a CSDP to rematerialise for a non-resident, the transfer secretary may produce a certificate, provided that such certificate is endorsed 'Non-Resident'.

(B) Financial Surveillance Department requirements relating to the JSE Limited

Note: (i) to (vii) below, only apply to South African registered and domiciled companies with South African primary listings.

- (i) The listing of a South African registered company on the JSE Limited:
 - (a) Authorised Dealers may, on application to them, permit the listing of a South African registered company, excluding a bank and/or a bank holding company, on the JSE Limited, provided that they are

fully satisfied that the following clause is incorporated in the prospectus:

“In terms of the Exchange Control Regulations of South Africa:

1. a former resident of the Common Monetary Area who has emigrated, may use funds in the emigrant capital account to subscribe for shares in terms of this prospectus;
2. all payments in respect of subscriptions for shares by an emigrant, using funds from an emigrant's capital account, must be made through the Authorised Dealer controlling the remaining assets;
3. any shares issued pursuant to the use of funds from emigrant's capital account, will be credited to their share accounts at the central securities depository participant controlling their remaining portfolios;
4. shares subsequently re-materialised and issued in certificated form, will be endorsed 'Non-Resident' and will be sent to the Authorised Dealer through whom the payment was made; and
5. if applicable, refund monies payable in respect of unsuccessful applications or partly successful applications, as the case may be, for shares in terms of this prospectus, emanating from emigrant capital accounts, will be returned to the Authorised Dealer through whom the payments were made, for credit to such emigrants' capital accounts.

Applicants resident outside the Common Monetary Area should note that, where shares are subsequently re-materialised and issued in certificated form, such share certificates will be endorsed 'Non-Resident' in terms of the Exchange Control Regulations.”

- (b) Authorised Dealers should, however, ensure that nothing is stated in the prospectus that is contrary to the provisions of the Authorised Dealer Manual or a specific authority granted by the Financial Surveillance Department, prior to the granting of any authority in this regard.

(ii) Capitalisation issues

Authorised Dealers may, on application, permit capitalisation issues, provided that they are fully satisfied that the following clauses, where applicable, are incorporated in the circular to shareholders:

- (a) Capitalisation award emanating from a share premium account

“In terms of the Exchange Control Regulations of South Africa:

1. any share certificates that might be issued to non-resident shareholders will be endorsed 'Non-Resident';
 2. any new share certificates, dividend and residual cash payments based on emigrants' shares controlled in terms of the Exchange Control Regulations, will be forwarded to the Authorised Dealer controlling their remaining assets. The election by emigrants for the above purpose must be made through the Authorised Dealer controlling their remaining assets. Such share certificates will be endorsed 'Non-Resident'; and
 3. dividend and residual cash payments due to non-residents are freely transferable from South Africa."
- (b) Capitalisation award emanating from distributable reserves

"In terms of the Exchange Control Regulations of South Africa:

1. any share certificates that might be issued to non-resident shareholders will be endorsed 'Non-Resident';
2. any new share certificates issued based on emigrants' shares controlled in terms of the Exchange Control Regulations, will be forwarded to the Authorised Dealer controlling their remaining assets. Such share certificates will be endorsed 'Non-Resident'; and
3. dividend and residual cash payments are freely transferable from South Africa."

(iii) Reverse listings

- (a) Authorised Dealers may on application permit reverse listings, provided that the requirements of subsection (F) below are adhered to, where applicable.

(iv) The issue of shares for cash

- (a) Authorised Dealers may on application permit the issue of shares for cash, provided that the requirements of subsection (F) below are adhered to, where applicable.
- (b) The use of any proceeds for investments outside the CMA requires the prior written approval of the Financial Surveillance Department.

(v) Rights issues or claw-back offers by listed companies

- (a) Authorised Dealers may on application permit rights issues or claw-back offers by listed companies, provided that the following clause

is incorporated in the circular to shareholders:

“In terms of the Exchange Control Regulations of South Africa, non-residents of the Common Monetary Area will be allowed to:

- (1) take up rights allocated in terms of the offer;
- (2) purchase letters of allocation on the JSE Limited;
- (3) subscribe for new ordinary shares arising from letters of allocation purchased on the JSE Limited ; and
- (4) purchase excess shares that have been applied for in terms of the offer (if applicable);

provided that payment is received in foreign currency or in Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer.

All applications by non-residents for the above purposes must be made through an Authorised Dealer. Shares subsequently re-materialised and issued in certificated form, will be endorsed ‘Non-Resident’.

Where a right in terms of the offer falls due to a former resident of the Common Monetary Area, which right is based on shares controlled in terms of the Exchange Control Regulations, only funds in the emigrant’s capital account may be used to take up this right. In addition, such funds may also be used to:

- (1) purchase letters of allocation on the JSE Limited;
- (2) subscribe for new ordinary shares arising from the letters of allocation purchased on the JSE Limited; and
- (3) purchase excess shares that have been applied for in terms of the offer (if applicable).

Applications by emigrants to use funds in their capital account for the above purposes must be made through the Authorised Dealer controlling their remaining assets. Any shares issued pursuant to the use of funds in the emigrant capital account will be credited to their share accounts at the central securities depository participant controlling their remaining portfolios. The sale proceeds of letters of allocation, if applicable, will be returned to the Authorised Dealer for credit to such emigrants’ capital accounts.”

- (b) The use of proceeds for investments outside the CMA requires the prior written approval of the Financial Surveillance Department.

- (vi) The acquisition by non-residents of a 'cash company'
 - (a) Authorised Dealers may, on application, permit the acquisition by non-residents of a 'cash company', provided that the requirements of subsection (F) below are adhered to, where applicable.
- (vii) The acquisition from or disposal to a non-resident of assets by a listed company
 - (aa) Authorised Dealers may on application permit the acquisition from or disposal to a non-resident of assets by a listed company, provided that the requirements of subsection (C) below are adhered to.
- (viii) Authorised Dealers are referred to the listings requirements of the JSE Limited, which require the prior written approval of the Financial Surveillance Department before the JSE Limited gives approval in respect of the following transactions:
 - (a) the listing of a bank and/or bank holding company;
 - (b) the issue of bearer securities;
 - (c) restructures, mergers and changes in control where non-residents are involved;
 - (d) the listing of a quoted South African company on a foreign stock exchange;
 - (e) the listing of an external company on the JSE Limited;
 - (f) the listing of warrants;
 - (g) the issue of hedge securities;
 - (h) the delisting of a company listed on the JSE Limited;
 - (i) the declaration of a dividend in specie or special dividend, for any purpose; and
 - (j) the elimination of so-called 'odd lot' minority shareholders through the mechanism of consolidations and/or subdivisions of share capital.
- (ix) Authorised Dealers are advised that the JSE Limited is now also in a position to facilitate the issuance of debt instruments. The terms and conditions pertaining to dealings by non-resident clients in these instruments are incorporated in the relevant exchange's rules and regulations.

(C) South African assets owned by non-residents

- (i) Non-residents may freely invest in South Africa, provided that suitable documentary evidence is viewed in order to ensure that such transactions are concluded at arm's length, at fair market related prices and are financed in an approved manner. In this regard, such financing must be in the form of the introduction of foreign currency, Rand from a Non-resident Rand account in the name of the non-resident and/or Rand from a vostro account held in the books of the Authorised Dealer or in terms of the provisions of section I.1 of the Authorised Dealer Manual. The creation of any loan account between a resident and a non-resident would require the prior written approval of the Financial Surveillance Department.
- (ii) The local sale or redemption proceeds of non-resident owned assets in South Africa may be regarded as freely transferable. Such proceeds may also be freely used in the CMA by non-residents for investment and other purposes, and may accordingly be credited to Non-resident Rand accounts. The provisions of subsection (D) below should be noted.
- (iii) Stockbrokers may not retain, uninvested in their possession, the cash proceeds of securities sold on behalf of non-residents. Such funds must be paid to the credit of a Non-resident Rand account with an Authorised Bank with whom each stockbroking firm may, for this purpose, maintain a single Non-resident Rand account in its own name to handle the share transactions of non-resident clients.

(D) Investments by non-residents in South African debt securities

- (i) In view of the multiplicity of debt securities (debt instruments) on offer, largely as a result of the securitisation of many forms of debt or assets, Authorised Dealers and their corporate clients are advised to seek the guidance and/or the prior written approval of the Financial Surveillance Department before issuing, listing and/or purchasing any form of debt security, other than those specifically dealt with in this subsection.
- (ii) Non-resident investors may subscribe to and/or purchase government, municipal and public utility stocks.
- (iii) Non-resident investors may subscribe to and/or purchase short-term money market bearer or negotiable instruments such as treasury bills, parastatal project bills, bankers acceptances, promissory notes and negotiable certificates of deposit.
- (iv) These securities must remain in the custody of the non-resident's local Authorised Bank until such time as these are sold or redeemed.
- (v) Rates of interest or discount rates earned by the non-resident investor must equate to the money market rate ruling for such a security at the time of purchase.

- (vi) Authorised Banks are exempted from the provisions of Regulation 15 (1), (2) and (3), provided that the terms and conditions of this subsection are strictly complied with.
- (vii) Emigrants may utilise funds in their capital account to subscribe to and/or purchase stocks and/or short-term money market bearer or negotiable instruments of the above nature on the same terms and conditions as set out above. The sale or redemption proceeds are not eligible for transfer abroad and must be credited to the emigrants' capital accounts. Only interest earned or any discount obtained, as against that purchased, is eligible for transfer abroad or may be placed to the credit of a Non-resident Rand account. The provisions of section B.3(B) of the Authorised Dealer Manual would, however, continue to apply.
- (viii) The local issue, listing and/or purchase of the following debt securities require the prior written approval of the Financial Surveillance Department:
 - (a) Subscription to and/or purchase of zero coupon bonds
 - (aa) A deep discount security is a bond that makes low or, in the case of a zero coupon bond, no periodic interest payments and is, therefore, sold at a large discount to its nominal value. The buyer of such a bond receives a rate of return from the gradual appreciation of the security, which is redeemed at nominal value on a specified maturity date.
 - (b) Subscription to and/or purchase of stripped treasury certificates
 - (aa) Stripped treasury certificates are a type of zero coupon bond, but are not issued by a corporate entity to raise funds. They are usually created by an investment (merchant) bank buying blocks of long-term securities issued by the government (treasury stocks) and separating (stripping) the future coupon payments and principal redemption values. Usually a special purpose vehicle is set up to carry out the stripping. Zero coupon bonds are then issued by the special purpose vehicle with maturity values determined by and secured on the coupons and redemptions of the underlying treasury stocks. The treasury stocks are held in trust by a custodian bank which collects the coupons to pay off each tranche of the zero coupon bonds. The final tranche is redeemed out of the redemption value of the block of treasury stocks.
 - (c) Subscription to and/or purchase of foreign currency or index linked debt instruments
 - (aa) The active swap market has facilitated the issue of a large number of debt instruments which have some of the following features:

- (1) interest payments denominated in a currency other than that of redemption;
 - (2) redemption in a currency other than that of issue;
 - (3) redemption values linked to index values such as stock exchange indices;
 - (4) interest and/or redemption values linked to commodity prices; and
 - (5) interest payments in a range of currencies.
- (d) Subscription to and/or purchase of asset backed securities
- (aa) With asset backed securities, specific assets serve as collateral for the securities and generate the payment streams that are used to finance the payment of interest and principal to the investors in the security (debt instrument). Typically, the issuer cannot easily convert assets into cash, and the assets are then securitised.
 - (bb) In general, any receivable that has a contractual cash flow is potentially suitable for securitisation. Assets to be securitised or unitised must have some, if not all, of the following characteristics:
 - (1) the cash flow generated from the assets should be received periodically in accordance with a predetermined schedule;
 - (2) the actual cash flows generated from the assets should be predictable, or statistics should be available for their expected performance (e.g. a history of defaults and prepayments);
 - (3) the assets should be large enough in number and total value for it to be economical to issue them in securitised form;
 - (4) there should be sufficient similarity in the characteristics of the assets (e.g. the final maturity date) so that their cash flows can be pooled; and
 - (5) the assets should be of good saleable quality (i.e. there is a low risk of default) or some form of credit enhancement may be required (e.g. a guarantee).
 - (cc) There are two basic forms of asset backed securities. The choice of structure is generally regulatory and tax-driven. The first form is usually referred to as pass-through securities,

which are sold to investors who receive participation certificates. The payments of both interest and capital received by the issuer from the pool of assets are passed through directly to the investors in proportion to their participation.

- (dd) The second form is the issue of asset backed bonds structured as a financing transaction. Debt securities are issued which are backed by collateral (i.e. the assets). The cash flows generated from the assets are not passed directly through to investors, but are used to pay coupon interest on the bonds and then redeem principal in a predetermined order. The pool of assets will often have been sold to a special purpose vehicle, which will in turn issue the securities. The special purpose vehicle may or may not be a subsidiary of the original owner.

(E) Advances to non-residents

- (i) Advances, including those in respect of securities dealings

Advances, including those in respect of securities dealings, except where it is permissible in terms of the Authorised Dealer Manual, may not without the specific authority of the Financial Surveillance Department be granted to non-residents against the pledge of such securities or against any other form of security.

- (ii) Switch transactions

In switch transactions, however, where a stockbroker simultaneously sells one security for a non-resident and buys another, credit may be allowed on a purely temporary basis to bridge the gap pending receipt of payment for the security sold. Such facilities must be regarded as valid for the interim period only and may not be unduly protracted.

- (iii) Repurchase agreements

- (a) A repurchase transaction, also known as a carry deal, is an agreement whereby one party (known as the seller-borrower) sells a security to the other party (the buyer-lender) with a simultaneous agreement to repurchase the security at a fixed future date at a stipulated price. While the legal form of the transaction is a sale and a repurchase, in substance the seller-borrower borrows the proceeds of the sale from the buyer-lender and deposits the securities as collateral. The difference between the sale and repurchase price of the security is essentially an interest cost to the seller-borrower.
- (b) Repurchase transactions entered into with a non-resident seller-borrower counter party are deemed to be a form of financial

assistance and therefore subject to the provisions of Regulation 3(1)(e) and (f).

- (c) Authorised Dealers may, however, enter into repurchase transactions with a non-resident seller-borrower, provided that such transactions are fully secured either by providing cash cover in Rand or the pledge of unencumbered non-resident owned local assets. Any additional margin requirements are to be provided similarly.
- (d) The aforementioned provisions would also apply to any repurchase transactions undertaken by an Authorised Dealer with emigrant seller-borrower counterparties in respect of their remaining portfolios.
- (e) Authorised Dealers are exempted from the provisions of Regulation 3(1)(e) and/or (f), provided that the terms and conditions of this subsection are strictly complied with.
- (f) The interest factor or cost of the carry may be settled in foreign currency or over a Non-resident Rand account, provided that the rate is reasonable having regard to current interest rates. In the case of emigrants the provisions of section B.3(B) of the Authorised Dealer Manual would, however, continue to apply. All other cash flows related to repurchase transactions would be settled over the Non-resident Rand account or emigrant's capital account of the non-resident or emigrant concerned.

(iv) Securities lending

- (a) Securities lending is the transfer of ownership of a locally quoted security, including inward listed securities from a lender to a borrower in exchange for collateral of an agreed type and for an agreed value. The transaction is accompanied by a pledge from the borrower to the lender to reverse the transaction at a future date by the redelivery of equivalent locally quoted securities. Collateral is usually required by lenders to cover the counter party risk involved in securities lending. Loans of locally quoted securities can be made either on a fixed term or on an open-ended (or call) basis. Open-ended loans will continue until either the lender or the borrower decides to terminate the loan. In both cases, on termination, the lender will ordinarily receive back from the borrower locally quoted securities of a similar kind to those lent and in exchange the lender will return the borrower's collateral. For the period of the loan the lender retains all the rights attached to the locally quoted securities lent, except the right to vote. Thus all dividends and corporate action entitlements pass back to the lender through the borrower.
- (b) Securities lending transactions entered into with a non-resident counter party are deemed to be either a form of financial assistance

to the non-resident borrower and therefore subject to the provisions of Regulation 3(1)(e) and/or (f) or a borrowing by a resident from a non-resident lender which is subject to the provisions of Regulation 2, amongst others.

- (c) Authorised Dealers may, however, enter into securities lending transactions with a non-resident borrower, provided that such transactions are fully secured by cash cover in Rand, the transfer of unencumbered non-resident owned local collateral securities or the pledge of unencumbered non-resident owned local assets. Similarly, securities lending transactions with a non-resident lender must be fully secured by cash cover in Rand, the outright transfer of unencumbered resident owned local collateral securities or the pledge of local assets. Any additional margin requirements are to be provided on the same basis. The securities in question may not be held outside of South Africa and both legs of any transfer of securities as collateral must be administered by a South African resident custodian.
- (d) The aforementioned provisions would also apply to any securities lending transactions undertaken by an Authorised Dealer with emigrant lender or borrower counterparties in respect of their remaining portfolios.
- (e) Authorised Dealers are exempted from the provisions of Regulations 3(1)(e) and/or (f) and/or Regulation 2, provided that the terms and conditions of this subsection are strictly complied with.
- (f) The interest factor or lending fee accruing to the lender may be settled in foreign currency or over a Non-resident Rand account, provided that the rate is reasonable having regard to current interest rates. In the case of emigrants the provisions of section B.3(B) of the Authorised Dealer Manual would, however, continue to apply. All other cash flows related to securities lending transactions would be settled over the Non-resident Rand account or emigrant's capital account of the non-resident or emigrant concerned.

(F) Endorsement

- (i) For the guidance of Authorised Dealers and to assist them in the administration of securities control, certain further aspects relative to endorsements are clarified below:
 - (a) Non-resident interest of any nature
 - (aa) Obligation to endorse

Certificated securities in which there is a non-resident interest of any nature whatsoever must be endorsed 'Non-Resident' and it is the duty of any transfer secretary or Authorised Dealer

to whom the securities are presented to immediately procure such an endorsement. Any new shares issued in certificated form based on emigrants' shares controlled in terms of the Regulations will be forwarded to the Authorised Dealer controlling their remaining assets.

(bb) Domicile of investor

It should be noted that the current form of restrictive endorsement is 'Non-Resident', although historically certain securities may bear the endorsement 'Transferable'. The country of domicile of the investor must not be added to an endorsement.

(b) Residents of the CMA - Foreign address

(aa) Endorsement and removal

A resident of the CMA may not register an address outside the CMA and any securities currently held at an address outside the CMA are subject to immediate tainting by endorsement. Such occurrences must in each instance be referred to the Financial Surveillance Department together with full and precise details of the circumstances pertaining thereto.

(bb) Certificate of ownership at 1961-06-16

Attention is drawn to the fact that on the introduction of securities control in 1961, Authorised Dealers and members of the JSE Limited were at that stage authorised to place on the face of securities owned by residents and registered at a foreign address a certificate in the following form:

"Certified under authority of the South African Reserve Bank that the beneficial owner of these shares on 16 June 1961, was a resident of the Republic of South Africa.

Date
Signature (of Authorised Dealer or
Broking Member of the JSE Limited)."

(cc) The certificate in (bb) above may be taken by Authorised Banks as sufficient evidence to warrant a removal of the endorsement, provided that the owner is still a resident and that the registered address of the shareholder is changed to one within the CMA.

(c) Bonus shares

- (aa) Bonus shares issued to non-residents must be endorsed 'Non-Resident'.
- (d) Government, municipal and public utility stocks
 - (aa) Non-resident owned stock is subject to the same endorsement requirements as applicable to any other securities.
- (e) Shares of foreign companies quoted on the JSE Limited
 - (aa) The shares of companies registered outside the CMA that are quoted on the JSE Limited are subject to the same endorsement and other restrictions as applicable to CMA shares when traded locally on behalf of non-residents.
- (f) Documents of title other than scrip
 - (aa) While the terms 'scrip' and 'share certificates' are used in general terms, the intention is that any other temporary or substitute documents of title such as letters of allocation, letters of allotment, option certificates, balance receipts and other receipts for scrip, are subject to the same endorsement and other restrictions as applicable to securities.

(G) Export of securities

- (i) The purchase and export of securities, particularly bearer securities, is a possible means by which residents may circumvent Financial Surveillance Department requirements. Authorised Dealers should accordingly exercise special care in handling securities transactions in which it appears that a non-resident may have an interest.
 - (a) Export by non-residents
 - (aa) Authorised Dealers may permit the export of certificated securities owned by non-residents (except where such shares form part of an emigrant's remaining assets), provided that they ensure that the certificates are first endorsed 'Non-Resident'.
 - (b) Re-export by transfer secretaries
 - (aa) Transfer secretaries may re-export certificates sent to them by non-residents solely for registration, splitting or marking. Before returning such certificates, however, it is incumbent on the transfer secretary concerned to ensure that they are endorsed 'Non-Resident'.
 - (c) Export of securities acquired in switch deals

- (aa) Where a non-resident in a switch deal simultaneously sells one security locally and buys another, Authorised Dealers may, as an exceptional case and at their discretion, after endorsing the scrip as 'Non-Resident', authorise the export of the new security bought before receipt from abroad of the security sold. In these cases Authorised Dealers must keep adequate records to ensure that the securities sold are ultimately presented to them. Copies of brokers' notes substantiating details of the transactions must be called for.

(H) Address

- (i) The address at which securities are registered is of particular importance in the administration of securities control and Authorised Dealers should be vigilant when handling applications involving any change of address.

- (a) Deceased estates outside the CMA

- (aa) Transfer secretaries may, without the specific authority of the Financial Surveillance Department, record a change of address in their registers from the foreign address of the deceased, or the foreign estate, to the address of a resident executor or agent appointed to act for the non-resident estate. This concession only applies where the beneficial ownership remains non-resident and the executors or agents merely act on behalf of such owners. The securities must retain the non-resident endorsement.

- (b) Nominees

- (aa) Under the provisions of subsection (A)(x) above, a change from a non-resident address to the address of a local nominee acting for a non-resident may be effected by a transfer secretary without specific authority because, in this case, the beneficial ownership remains consistently non-resident. The certificates must therefore retain the non-resident endorsement.

- (c) Address in South Africa

- (aa) Authorised Dealers may permit the registration of an address in South Africa by a non-resident after the relative securities have been endorsed 'Non-Resident'.

- (d) Foreign companies with offices in South Africa - Change of ownership and address

- (aa) In no instance may a change of ownership and address of securities from an office of an issuer outside South Africa to

an office of an issuer within South Africa be recorded without the specific prior written approval of the Financial Surveillance Department.

(e) Duties of transfer secretaries

- (aa) Except in the cases mentioned in the preceding paragraphs, a transfer secretary may not record a change of address from resident to non-resident or from non-resident to resident on any register maintained in South Africa, whether it be a principal, duplicate or branch register and whether the relative advice is received in South Africa or by an office outside South Africa, without the authority of an Authorised Dealer.

(I) Income

(i) Income due to non-residents

- (a) Income due to non-residents on their securities must be paid to their registered address.
- (b) Non-residents may, however, if desired, receive dividend payments in South Africa and no formal authority would subsequently be required from the Financial Surveillance Department if the non-resident decides to change the place of payment to that of his/her appropriate registered address.
- (c) Such dividend and income payments are subject to the provisions of section B.3(C) of the Authorised Dealer Manual.

(ii) Income due to residents

- (a) Residents may under no circumstances have dividends paid outside the CMA without specific prior written approval from the Financial Surveillance Department.

(J) Emigrants, immigrants and deceased estates

(i) Emigrants

- (aa) Emigrants may not record a non-resident address in respect of any securities that form part of their remaining assets on emigration. Such securities may not be exported and must remain under the control of an Authorised Dealer.

(ii) Immigrants

- (a) Purchase abroad of South African quoted securities

- (aa) Immigrants who have been accorded the concessions laid down in section B.5(B)(ii) of the Authorised Dealer Manual may within five years after their arrival, invest their foreign funds in or switch other foreign investments owned by them into South African securities abroad.
 - (b) Cancellation of the non-resident endorsement on South African securities
 - (aa) Immigrants may transfer their foreign assets to South Africa by way of locally quoted securities and Authorised Dealers must, in such instances, grant authority to Authorised Banks to cancel non-resident endorsements on such scrip. Such scrip must be transferred to the South African Register and a local address must be registered. Should South African quoted securities acquired abroad be introduced by an immigrant for sale on the JSE Limited, the resultant sale proceeds must be credited to a resident account.
 - (c) Emigration within five years
 - (aa) South African securities physically introduced and retained or purchased locally by immigrants who leave the country within five years of arrival may be exported on departure, provided that they have completed the necessary declaration and undertaking as outlined in section B.5(B)(i)(a) of the Authorised Dealer Manual.
 - (d) Former residents of the CMA
 - (aa) The facilities outlined above may not be accorded to any person who has previously resided in the CMA. Any requests received from such persons should be referred to the Financial Surveillance Department.
- (iii) Deceased estates
- (a) Securities in estates of persons who at time of death were permanently resident in South Africa
 - (aa) Cash transfers by executors to non-resident legatees are permissible subject to the conditions laid down in section B.2(K) of the Authorised Dealer Manual. Executors may, prior to the submission and approval of the Liquidation and Distribution accounts, sell any securities in the estate and then, after the accounts have been passed, transfer the cash to the non-resident heirs.
 - (bb) Where South African securities in the estate are specifically bequeathed to a non-resident legatee, such securities should

be endorsed 'Non-Resident' and may thereafter be exported to the legatee.

- (cc) In all cases where such an estate holds authorised foreign assets, distribution of the foreign assets may be effected, provided that all foreign administrative and related costs have been met from the foreign portion of the estate.
- (b) Securities forming part of the estate of persons who at the time of death were non-resident

 - (nn) in the case of foreign trade finance facilities, written confirmation from the borrower to the effect that the relative import or export transaction is not being financed elsewhere; and
 - (oo) detail of any commitment fees, raising fees and/or any other administration fees payable by the borrower.
- (iv) Adjudication process
- (a) The following criteria must be strictly applied by Authorised Dealers when adjudicating applications for inward foreign loans and foreign trade finance facilities:
 - (aa) the tenor of each loan must be at least one month;
 - (bb) the interest rate in respect of third party foreign denominated loans may not exceed the base lending rate plus 3 per cent or, in the case of shareholders' loans, the base lending rate as determined by commercial banks in the country of denomination;

- (cc) the interest rate in respect of Rand denominated loans may not exceed the base rate, i.e. prime rate, plus 5 per cent on third party loans or the base rate, in the case of shareholders' loans;
 - (dd) the fixed interest rate linked to the base rate, if applicable, may not exceed the interest rate mentioned in (bb) or (cc) above. In this regard, approved inward foreign loans should always be adjusted accordingly in line with the set criteria;
 - (ee) the loan funds may not be invested into foreign sinking funds;
 - (ff) no upfront payment of commitment fees, raising fees and/or any other administration fees are payable by the borrower;
 - (gg) the above-mentioned fees may be paid from South Africa once the loan funds have been received and converted into Rand locally provided that such fees do not exceed 5 per cent of the principal sum;
 - (hh) early repayments may be effected offshore, provided that the relevant loans are fully drawn down, reported correctly on the Loan Reporting System and that there are no anomalies on the Loan Reporting System.
 - (ii) A change request must be submitted by the Authorised Dealer on the Loan Reporting System, confirming that loan funds will be received from a Nonresident Rand account. In addition, the Authorised Dealer must submit a change request on the Loan Reporting System of any drawdowns from the Non-resident Rand account as well as any capital or interest payments to the Non-resident Rand account. Also see section E.(A)(ii)(d) of the Authorised Dealer Manual.
- (v) Applications to be submitted to the Financial Surveillance Department
- (a) Authorised Dealers must submit an application to the Financial Surveillance Department for consideration in the following instances:
 - (aa) regularisation of all unauthorised inward foreign loans and foreign trade finance facilities;
 - (bb) loan draw-downs, capital and interest payments in respect of foreign trade finance facilities for imports/exports where the transactions will not be reported;
 - (cc) any other instances where the Reporting System will not reflect changes to the original loan;

- (dd) any other instances subsequent to the original loan approval to reflect changes to the original loan, interest rate, capital repayments to non-resident third parties other than the original lender on record with the Financial Surveillance Department and instances where funds are draw-down or are to be received from parties other than the original lender;
 - (ee) any unauthorised increase/decrease of the principal amount of the foreign loan;
 - (ff) capitalisation of interest;
 - (gg) compounding of interest;
 - (hh) conversion of the loan to share capital;
 - (ii) consolidation of loans;
 - (jj) all loans where commitment fees, raising fees and/or any other administrative fees exceed 5 per cent of the principal sum;
 - (kk) issuance of redeemable preference shares to non-residents; and
 - (ll) all cases where the criteria outlined in (iv) above cannot be met.
- (vi) Capital repayments
- (a) Authorised Dealers may provide foreign currency for the repayment of inward foreign loans and foreign trade finance facilities, inclusive of loans and trade finance facilities approved by the Financial Surveillance Department prior to 2007-10-01, equal to the funds drawn down under a specific loan on the due date. Capital and interest payments must be reported separately on the Reporting System.
 - (b) Capital repayments must be strictly in accordance with the terms of the loan.
 - (c) In the case of foreign trade finance facilities, repayments of such facilities must be reported under category 106 or 801 and interest payments under category 309-06 of the Reporting System.
- (vii) Guarantees
- (a) Authorised Dealers may issue guarantees in favour of non-resident lenders as and when required.

(viii) Draw-downs

- (a) Authorised Dealers must ensure that loan draw-downs, inclusive of any draw-down advices in respect of loans approved by the Financial Surveillance Department prior to 2007-10-01, are reported on the Reporting System or, where no flow of funds will take place, a suitable application advice must be submitted to the Financial Surveillance Department.
- (b) The principal sum of the loan must be introduced within a period of 12 months and may not exceed the authorised amount of the loan. Any extensions in this regard, must be advised to the Financial Surveillance Department.

(ix) Retention of documentation

- (a) Authorised Dealers must be able to substantiate all information submitted via the Loan Reporting System. For inspection purposes, documentary evidence must be retained for a period of five years after the full repayment of the loan.

(C) Trade finance, long-term loans and working capital loans extended by Authorised Dealers

(i) Short-term trade finance

(a) Imports

- (aa) Authorised Dealers may, on application to the Financial Surveillance Department or unless exempted, extend short-term foreign trade finance facilities, relating to the importation of goods into South Africa to residents subject to the following conditions:

- (1) the facilities being extended by the local bank concerned are funded, in turn, from foreign currency placements attracted and/or lines of credit obtained from correspondent banks abroad for this specific purpose;
- (2) the facilities relate to the payment for the importation of a specific consignment of goods. In this regard, the local bank concerned may bundle a number of payments together when extending a short-term foreign trade finance facility, but must ensure that payments for the underlying transactions have been made not more than six weeks prior to the date of draw-down of the facility or that payments will be made within six weeks from the date of draw-down of the facility. In all instances the draw-down of the facility may only take place on or after

date of shipment, except for advance payments where the draw-down can be done prior to the goods being shipped, provided that the advance payment complies with the provisions outlined in sections B.1(D)(i) and (ii) of the Authorised Dealer Manual;

- (3) the Authorised Dealer extending these facilities ensures that the underlying payments comply fully with the relevant Financial Surveillance Department authorities and directives, including the viewing of substantiating documentation and the reporting in terms of the Reporting System on repayment of the facility;
- (4) the overall finance period, including any initial supplier's credit taken, does not exceed 12 months from date of shipment of the underlying goods to South Africa; and
- (5) no such facility may be drawn down unless the supplier had been paid or will be paid with the proceeds of the said facility and no other financial commitment exists in regard to the underlying importation, except where a batch of import payments are being bundled into one draw-down under a short-term foreign trade finance facility.

(b) Exports

(aa) Authorised Dealers may, on application to the Financial Surveillance Department or unless exempted, extend short-term foreign trade finance facilities relating to the export of goods from South Africa to residents, subject to the following conditions:

- (1) the facilities being extended by the Authorised Dealer concerned are funded, in turn, from foreign currency placements attracted and/or lines of credit obtained from correspondent banks abroad for this specific purpose;
- (2) the facilities relate to the pre- or post-shipment finance of the export of a specific consignment of goods;
- (3) the Authorised Dealer extending these facilities ensures that at the time of draw-down, the foreign currency amount of the drawing is converted into Rand and the relevant Authorised Dealer requirements, and the observance of the 30-day rule, are complied with. The reporting in terms of the Reporting System must take place upon the receipt of the export proceeds from abroad;

- (4) the foreign currency draw-down under a short-term export finance facility must be treated as the early accrual of the export proceeds, be converted to Rand and further administered as such. Should the exporter be required to effect any foreign payments specifically relating to the export transactions, such costs may be paid in foreign currency, without first being converted to Rand. Authorised Dealers must view suitable documentation pertaining thereto and ensure the correct reporting of the transaction in terms of the FinSurv Reporting System;
- (5) the foreign currency eventually received from the overseas importer is not converted to Rand, but is applied in repayment of the export finance facility;
- (6) where another Authorised Dealer has been instructed to receive the proceeds, it would pass these on to the Authorised Dealer extending the trade finance facility by crediting the latter's nostro account, thus ensuring that it is always possible to relate all outstanding facilities to specific current export transactions;
- (7) the overall finance period, including any initial credit granted by the exporter, does not exceed six months from date of shipment of the underlying goods from South Africa, unless the dispensation outlined in section B.18(B)(i)(b) of the Authorised Dealer Manual has been granted, when the overall finance period including any initial credit granted by the exporter may not exceed 12 months from date of shipment of the underlying goods from South Africa. An export finance facility may be extended in the event of the overseas importer requiring an extension of the original credit period, provided that the overall finance periods set out above are not exceeded;
- (8) the facility must be repaid with foreign currency. No facility may be drawn down where payment of the underlying export transaction has already been received;
- (9) in the event of the overseas importer paying before the relative export finance facility has fallen due for repayment and effecting an early repayment thereof is not possible, the local exporter may either retain these foreign currency funds in a CFC account to meet his/her export finance liability on due date, or alternatively convert such funds to Rand. Should the local exporter opt for the latter, the foreign finance facility must from then on be administered as a short-term working capital

loan and be reported as such in subsequent monthly returns submitted to the Financial Surveillance Department; and

(10) in the event the overseas importer does not effect payment or only makes partial payment, the balance outstanding must from then on be administered as a short-term working capital loan and be reported as such in subsequent monthly returns submitted to the Financial Surveillance Department, who must also be informed of the overseas importer's default.

(bb) The facilities enumerated above would not be included in the calculation of an affected person's local borrowing levels in terms of the provisions of Regulation 3(1)(f), provided that the facilities being extended by the local bank concerned are funded, in turn, from foreign currency placements attracted and/or lines of credit obtained from correspondent banks abroad for the specific purposes mentioned.

(ii) Short-term working capital loans

(a) Authorised Dealers may, on application to the Financial Surveillance Department or unless exempted, extend short-term foreign currency working capital loan facilities, specifically relating to the financing of current assets, other than those arising from the import or the export of goods into or from South Africa, to residents on the following basis:

(aa) the facilities being extended by the Authorised Dealer concerned are funded, in turn, from foreign currency placements attracted and/or lines of credit obtained from correspondent banks abroad for this specific purpose; and the facilities relate to the financing of a resident's current assets other than those arising from the importation or the exportation of goods into or from South Africa.

(b) The facilities enumerated above would not be included in the calculation of an affected person's local borrowing levels in terms of the provisions of Regulation 3(1)(f), provided that the facilities being extended by the Authorised Dealer concerned are funded, in turn, from foreign currency placements attracted and/or lines of credit obtained from correspondent banks abroad for this specific purpose.

(iii) Long-term loans

(a) In the event of an Authorised Dealer wishing to interpose itself locally and assume the funding of a capital goods import by substituting either local funding or shorter-term foreign currency

finance facilities and, in so doing, bars direct utilisation of new long-term lines of credit, which were available for that specific purpose (by e.g. negotiating any bills of exchange or promissory notes, transferring or providing any security or acknowledging any debt), the Financial Surveillance Department's prior approval must be obtained, if not exempted.

- (b) Should an Authorised Dealer in similar circumstances wish to interpose itself through a subsidiary or branch office outside South Africa, it may do so provided that such transactions are financed solely out of the offshore entity's own resources abroad. It follows that no funding may be provided from the CMA to the offshore entity to assist either wholly or partially, with the financing of such a transaction. Furthermore, such financing must run for the full credit period originally agreed and the resident debtor may not repay such financing at an earlier date, without the Financial Surveillance Department's prior approval.
- (c) Authorised Dealers must obtain prior written approval from the Financial Surveillance Department before entering into export credit facility agreements with correspondent banks abroad. Furthermore, the prior written approval from the Financial Surveillance Department must be obtained for all facilities subsequently availed of under such agreements where the overall finance period, including any initial supplier's credit, exceeds 12 months from date of shipment of the underlying goods to South Africa.
- (d) The facilities mentioned above would not be included in the calculation of an affected person's local borrowing levels in terms of the provisions of Regulation 3(1)(f), provided that the facilities being extended by the Authorised Dealer concerned are funded, in turn, from foreign currency placements attracted and/or lines of credit obtained from correspondent banks abroad for that specific purpose.

(D) Expiry of the debt standstill arrangements on 2001-08-15

- (a) Authorised Dealers may continue to repay South African foreign debt covered in the '1994 Debt Arrangement Letter' dated 1993-09-09, provided that the applicant is in possession of a computer generated 'Standstill Authorisation Printout'. Any repayment request which is not accompanied by such printout must be referred to the Financial Surveillance Department.

(E) Corporate foreign debt issuance

- (i) Authorised Dealers may approve requests for foreign bond and note issuances by corporates with recourse to South Africa, e.g., a guarantee from South Africa and the issuance of shares in the South African entity, subject to the following conditions:

- (a) South African private individuals may only participate in the foreign bond and/or note issuances utilising their foreign capital allowance. Similarly, qualifying South African institutional investors may participate in the foreign bond and/or note issuances in terms of the prudential limit.
- (b) The coupon payable must be market related in the jurisdiction where the foreign bond and/or notes are issued.
- (c) Where the foreign bond and/or note proceeds are being deployed offshore, all costs and expenses associated with the bond and/or note issuances as well as the servicing of the coupon payments and repayments of the principal amount must be serviced from offshore.
- (d) Where the foreign bond and/or note proceeds are introduced into South Africa, the transaction must be recorded via an Authorised Dealer on the Loan Reporting System.
- (e) Within 30 days of the bond and/or note issuances offshore, the Financial Surveillance Department requires to be advised of the uptake, the amount of capital raised and the all-inclusive cost of the bond and/or notes issued.
- (f) The Financial Surveillance Department annually requires to be furnished with a report indicating the balance outstanding on the principal amount of the debt instrument.
- (g) Should any guarantee issued from South Africa be called up, the Financial Surveillance Department should immediately be advised of the circumstances that gave rise thereto.

- (a) offshoring, local and international outsourcing or cloud computing of functions, services and business processes as contemplated in the Authorised Dealer Manual; and
 - (b) any form of offshoring and cloud computing models where data is stored in a sanctioned country or in jurisdictions that may inhibit effective access to data.
- (iv) Requests for utilising offshoring and cloud computing will only be considered, on a case-by-case basis, upon the submission of a formal application to the Financial Surveillance Department.
- (v) The following requirements must be adhered to:
- (a) Agreements
 - (aa) A documented legally binding agreements or contracts must be concluded with the reporting entity's Head Office or any other third party that forms part of the proposed operating model. These agreements or contracts must state, but not be limited to, the following:
 - (1) data relevant to the reporting entity will be ring-fenced from other activities of the data centre to be used and should stipulate how it will be achieved;
 - (2) data will be retained for a minimum period of five years, as required by the Authorised Dealer Manual; and data will be accessible immediately, but not later than 48 hours, from the source systems and extractable in the format prescribed in (h)(gg) below.
 - (bb) Any amendments to the above agreements/contracts with regard to a change in the approved operating model requires prior approval of the Financial Surveillance Department.
 - (b) Risk assessment
 - (aa) Prior to undertaking a particular offshoring and cloud computing initiative, a reporting entity must perform a risk assessment, which must be documented.

- (bb) The risk assessment must identify all risks involved and determine whether adequate controls can be implemented to mitigate any potential risks.
 - (cc) A reporting entity must have documented processes and procedures in place to, on a continuous basis identify, assess, manage and mitigate risks associated with offshoring and cloud computing.
 - (dd) Risks must be adequately understood and managed prior to entering into an offshoring and cloud computing arrangement. Factors that must be addressed include, inter alia, continuity, data protection, regulatory access to data and regulatory compliance.

- (f) Jurisdiction
 - (aa) A reporting entity must ensure that data is not stored in a sanctioned country or in jurisdictions that may inhibit effective access to data.
 - (bb) In considering foreign jurisdictions, a reporting entity must take into account the wider political and security stability of the particular jurisdiction as well as the legislative requirements in terms of the foreign jurisdiction concerned. This should include consideration of the legal enforcement provisions within a jurisdiction.
- (g) Procedure to update data back to source
 - (aa) From time to time a reporting entity may be required to amend certain data, e.g. balance of payments categories or cancel the reporting of a transaction. This might have an impact on the same source reporting principle, as all changes must be updated back to the source, i.e. transactional or accounting system.
- (h) System requirements
 - (aa) Data in any offshore data centre must at the least be encrypted through modern encryption technology.
 - (bb) All cryptographic keys used in a storage encryption solution must be secured and managed properly to support the security of the solution.
 - (cc) To prevent the non-recovery of encrypted data, extensive planning of key management processes, procedures, and technologies should be performed before implementing storage encryption technologies. This planning should include all aspects of key management, including key generation, use, storage, recovery and destruction.

- (e) When the client is physically present at the Authorised Dealer, the integrated form must be completed and signed by the client in respect of all inward payments.
- (f) When the client is not physically present to complete and sign the integrated form, the Authorised Dealer may complete and sign the integrated form either physically or electronically, provided that the Authorised Dealer has been authorised or mandated to do so by means of a letter, a facsimile message, an email message or by a recorded telephonic message to act on the client's behalf. The client's communication must be retained by the Authorised Dealer for a period of five years for inspection purposes.
- (g) As an exception to the arrangement outlined in the preceding paragraph, an integrated form need not be completed by the client of an Authorised Dealer in respect of inward payments under R50 000 per transaction, subject to the following conditions:
 - (aa) only transactions in respect of a natural person who is a client of the Authorised Dealer, will qualify;
 - (bb) the purpose of the transaction must be disclosed in either fields 70, 72 or 77 of the SWIFT customer transfer message, in a clear and unambiguous manner;

(I) Reconciliation module

- (i) Reporting entities must make use of a straight through processing system, in an electronic format, which must daily account for all reportable and non-reportable transactions, including interbank transactions, reconciling all such transactions at the reporting entities and also reconciling the transactions submitted to and confirmed by the South African Reserve Bank.
- (ii) In amplification of the above, the purpose is to ensure that there is reconciliation between the data on the general ledger/accounting system, the system used to submit data to the South African Reserve Bank as well as confirmation, from the South African Reserve Bank, that the data submitted was successfully received and stored.
- (iii) The reconciliation module must be able to perform the following functions:
 - (a) compile the following daily reports from the general ledger/accounting system:
 - (aa) reportable transactions;
 - (bb) non-reportable transactions; and
 - (cc) interbank transactions;

- (b) compile a daily report of all reportable transactions reported to the South African Reserve Bank from the system used to transmit data to the South African Reserve Bank;
 - (c) electronically match the reportable transactions from the daily report referred to in (a) above with the actual transactions reported to the South African Reserve Bank referred to in (b) above;
 - (d) compile a daily report of transactions not matched between the general ledger/accounting system of the reporting entity and the system used to transmit data to the South African Reserve Bank; and
 - (e) the reconciliation module must be able to create the daily report referred to in (a), (b) and (d) above in Excel or text (semicolon delimited) format and must be forwarded to the South African Reserve Bank upon request.
- (iv) The data required, as per point (iii)(e) above, must contain the following information:
- (a) flow (IN or OUT);
 - (b) transaction reference number;
 - (c) branch code;
 - (d) value date;
 - (e) Rand amount;
 - (f) foreign amount; and
 - (g) foreign currency code.
- (v) In cases where the reporting entities change the status of transactions between reportable and non-reportable, the reconciliation module must be updated to ensure that this manual intervention does not distort the reconciliation process.

(J) Systems governance

- (i) Inspection manual

The minimum information that should be contained in an inspection manual includes:

- (a) a comprehensive flow diagram clearly depicting the flow of transactions through various systems (on-boarding, transactional, accounting and FinSurv Reporting System, including the

Reconciliation Module) from capturing to submission of the transactions to the Financial Surveillance Department;

- (b) an up to date list of definitions, contact details of the dedicated person(s) responsible for the reporting to Financial Surveillance Department, error handling and the Reconciliation Module; and
 - (c) suitable back-up procedures (i.e. how often, where, when, by whom, the duration of storage that should be minimum five years and recovery testing). Refer to the inspection manual specimen which is available from the website: www.resbank.co.za by following the links: Home>Financial Surveillance>Authorised Dealers>FinSurv Reporting System>FinSurv Reporting System documents>System Governance Templates or Home>Financial Surveillance>ADLAs>FinSurv Reporting System >FinSurv Reporting System documents>System Governance Templates.
- (ii) Pre and post certification managerial letter of comfort
- (a) Pre certification managerial letter of comfort must be submitted to the Financial Surveillance Department prior to the inspectors conducting a systems certification of the on-boarding, transactional, accounting and FinSurv Reporting System, including the Reconciliation Module. The pre certification managerial letter of comfort provides assurance that the reporting entity's FinSurv Reporting System complies with the Financial Surveillance Department's reporting requirements. In addition, risks and controls around the systems are properly mitigated to ensure that correct, accurate and comprehensive data is submitted as well as that the respective system is ready for deployment into the production environment.
 - (b) Post certification managerial letter of comfort must be submitted to the Financial Surveillance Department after the on-boarding, transactional, accounting and FinSurv Reporting System, including the Reconciliation Module have been deployed in a live environment successfully for at least one month.
 - (c) These pre and post managerial letters of comfort should be completed by the dedicated person responsible for regulatory compliance in consultation with various governance structures within the reporting entity. Refer to the pre and post certification managerial letter of comfort specimens that are available as outlined in (i)(c) above.
- (iii) Annual managerial letter of comfort
- (a) The reporting entity must submit an annual managerial letter of comfort indicating that it is comfortable with the governance structures and functionality of the FinSurv Reporting System. The

letter must be submitted to the Financial Surveillance Department annually within three months after the financial year end of the reporting entity.

- (b) The dedicated person responsible for regulatory compliance must be accountable for completing the annual managerial letter of comfort and obtaining confirmation from assurance providers that the independent assurance review of the on-boarding, transactional, accounting and FinSurv Reporting System, including the Reconciliation Module will form part of its ongoing reviews. In this regard, the nature of the assurance procedure must be outlined. Refer to the annual managerial letter of comfort specimen that is available as outlined in (i)(c) above.
