

# Programme / Project context

## Programme objectives (business drives, objectives and benefits)

The key business drivers to be considered in the modernisation programme. These key business drivers are supported by business objectives, which in turn are linked to initiatives to achieve the business objectives, alongside the expected benefits.

Ultimately, the goal of the RTGS Renewal programme is to put in place an efficient and effective settlement system in a manner that promotes competition and minimises risk to the payments ecosystem by leveraging technological developments in order to extend the availability of digital services to all sectors of society while meeting domestic, regional and international requirements for the benefit of all members of South African society, SADC and Africans.
